## Heart You Rene Folsom

\*\* Heart You is an erotic romance short story for ADULTS ONLY! This novelette is roughly 7200 words and contains a hot sexual triad between two female roommates and their Valentine's Day boy toy. \*\*

Have you ever wanted something you know you shouldn't? That forbidden fruit. A temptation that will surely lead you down the path of illicit indulgence, and ultimately, pleasure beyond your wildest imaginations.

That was the daily torture Samantha put herself through when she thought of her roommate, Kara. Sitting alone on Valentine's Day, Sam found comfort in sharing her innermost secrets with her trusty journal while lusting over the brown-eyed goddess. At least until Kara comes home with a sizzling hot man and a night full of naughty games that would even make cupid blush.

## **From Reader Review Heart You for online ebook**

### **Brandy Dorsch says**

I was given a copy of this book by the author and was not compensated for my honest review. This was a short story that was hot and spicy! I am not going to go into details, simply because of it's length. I do think that Sam should have grabbed the bull by the horn and told Kara how she felt sooner. Life is way to short to sit around wondering if someone is going to be upset because you think they are sexy as hell and want to be with them. This is the first in the Roommate Romance series by Rene Folsom and I am looking forward to more from this engaging author!

---

### **Maria's Book Blog says**

Much like my favorite chocolate this short story is sinfully delicious! I have never described a book that way before, but those are the most appropriate words I can think of. The writing flowed from beginning to end, and it was just so realistic and totally possible. The cover (which I love) is what initially caught my attention, and the storyline itself sealed the deal for me. This book is not for the faint of heart, so beware if you can't handle all the hotness it encompasses. Be prepared with water and a fan b/c this is one sexy steamy read! I can't wait for the next installment in this series!

---

### **Crystal Marie says**

While reading this novelette, it brought the blush to my face. I have never been big on reading F/F books, however with this one; I couldn't bring myself to put it down. The story line of this novelette was well written to the point where there weren't a lot of unnecessary details.

The characters were well written, even with the length of this story, you could almost feel the tension that Samantha had, and the desire she had for Kara as well. One thing that I did like with this story, was at a certain part (I don't want to give too much away!) it was almost as if you could feel the turmoil that Kara had felt.

All in all, I think that this is a great short story to read. There is 2 books in this series so far, but the good part about that is they are different characters, so even if you have read Bind Me, you can still read Heart You and have a fresh new story!

---

### **Fab Fun & Tantalizing Reads says**

Scorching hot! I could end the review right here and that should be enough.

Kara...She is the kind of girl that inspires journal writing and day dreams. Day dreams of the sexy variety. The insane part is the dreaming is coming from the last place she would suspect. Honestly the dreamer is just

as shocked. Her roommate Samantha (Sam).

Sam and Kara are friends. Best friends. Confidants and roommates. But Kara holds a secret desire for her friend. She has never wanted a woman before, but Kara has changed her thoughts on that subject. One Valentine's day everything changes. Throw in a hot meathead...Hahaha! Well, then you have one spicy, sexy and wild ride!

Throw out any pretense at the door and step behind closed doors of this apartment. What will you get? well trust me it is not PG. It is rated with a big X and it's full of steam.

If a sexy time, a little f/f/ M action is something you find tantalizing give this quick read a try...

Geesh My kindle is sizzling!

PS. Don't read it in the car while waiting at the ball field :O

---

### **Exina says**

Samantha has a serious crush on her roommate, Kara, but she has never dared to act on her fantasies. Until Valentine's day, when Kara brings home her latest date, Daniel, and involves Sam into a naughty play, that obviously results in a more naughty night.

Scorching hot, affectionate, sweet erotic story about best friends becoming lovers.

Though Daniel was kind of a third wheel, he didn't seem to mind.

That doesn't mean he wasn't participating, because he was. But the focus was on the two girls, and it worked really well. I'd love to read more about them.

### **Quick and steamy read. Recommended!**

### **Marcy Sue says**

I am not normally a fan of short stories or novellas because I find that I am left wanting more. I love to curl up and immerse myself into a book and lose myself for hours. "Heart You" was a breakaway for me and interestingly enough although it did not take me long to read, I was still tangled up in thoughts of the story of Kara and Samantha. There is not only room on my to-be-read list for more shorter length stories but more of this genre. Living in more enlightened times where the LGBT communities are getting more and more support makes this book a joy to read. My personal sexual, religious or political affiliations had nothing to do with my visceral response to one Valentine's Day and what transpires between these roommates.

There is much to applaud in this story. About a quarter of the way through the story there is a line that could easily have been the introduction. "Seriously, I am just a chick who just so happens to have a crush on her roommate." These are young women, young enough to still have smooth thighs and perky breasts and all the things women of a certain age took for granted when we were 20+ years younger. But lust is not something that dims when one enters other decades and if a woman has always had a bi-curious nature she is likely to still be thinking that way as the years pass. That is the beauty of this story. Emboldened by either having Kara's physical male date in the apartment, or the calendar date of Valentine's Day these two women live out their previously hidden fantasies. We get a clear view that Samantha has had a crush on Kara. Kara seems to be looking for a man to complete her and hence enters Daniel the Valentine's Day date but from all indicators somebody new and not necessarily picked for much more than a buffed out body and a willingness to play. His presence is used as the catalyst to have Samantha come out and join them in a game which leads to a series of foreplay activities between the two women.

This is not a story for those that are looking for innuendo or a light dusting of sexual tension. This is ripe with detail. My personal opinion is that the character of Daniel is there in a supporting role to ease in those women that might be uncomfortable with reading about a female only sex scene. What happens to these roommates after this Valentine's Day gift to one another is not written. But what they share in the privacy of their apartment is clearly a large event in their young lives and if we were to talk to Samantha and Kara 20 years in the future while they are juggling a career, 2.5 children, a husband and a dog I believe that they would remember the events as if they had been yesterday.

### **Alicia says**

SEXY SEXY SEXY!!! This is a very short story, maybe a 20-30 minute read, if that and is part of the Roommate series that are all stand alone pieces of YUM!

This one a f/f/slightly allowed to be there male.

Rene is a gifted writer seen in a book even with an erotic topic and written in so few pages. Her words weave a tale of seduction and hot sex and the reader gets to dive right in w/o the drama of a full novel. It is so refreshing to have a stash of short reads that get down to business but don't read as a trashy novel. The sex is steamy and very well written. MORE!!

This is f/f/with a guy thrown in there.

Would I recommend? YES YES YES!!!

---

### **Jayce Grayson says**

HOMMINA, HOMMINA!

The lovely and talented Rene is now trying her hand at writing, and if she's as good with the rest of her body as she is with that hand, then she's just as awesome as the sensual characters she's created for this first novellette of her "Roommate Romance" series. This is one that's probably best NOT read in public...that is, unless it'll be socially acceptable to squirm in your seat while fighting the urge to steal a few "personal"

touches of one's own intimate areas....

Yes, read HEART YOU in private, alone--or, better yet, with a partner (or partners) with whom you may be able to re-enact this steamy sex-fantasy to complete satisfaction!

I don't even smoke, but I needed a cigarette when I was finished....

---

### **Michael Loring says**

Before this review begins I want to warn you all that this story is not my normal type of literature and is meant for mature readers only. Everyone below 18 should not tread any further.

As stated before, this story is not my usual cup of tea. I'm not normally one to read any kind of erotica, not for any particular reason other than it's just not my preference. But after having read Heart You by Rene Folsom I was absolutely blown away!

Rene's ability to create a picture is astounding. Each scene is steamy, flowing from one point to the next fluidly. These characters are very much alive, each touch and kiss worth something. This isn't just some random smut story, this is the MASTER of all smut stories. Rene Folsom's writing style is brilliant, each line bringing new depth to the scene unfolding in front of you. I normally don't like erotica stories, but the ones done by Rene Folsom are an exception!

---

### **Joanna says**

Okay, so the synopsis of this book reads: Have you ever wanted something you know you shouldn't? That forbidden fruit. A temptation that will surely lead you down the path of illicit indulgence, and ultimately, pleasure beyond your wildest imaginations.

Me: (NO.. but it sounds exciting. ?)

That was the daily torture Samantha put herself through when she thought of her roommate, Kara. Sitting alone on Valentine's Day, Sam found comfort in sharing her innermost secrets with her trusty journal while lusting over the brown-eyed goddess. At least until Kara comes home with a sizzling hot man and a night full of naughty games that would even make cupid blush.

This was for sure a fast paced Erotica Novella. It gets right to the "knitty gritty" of F/F/M.

The writing style of Rene Folsom is great! She hooked me in right away. I didn't think I would enjoy the story because it was my first book with F/F but it was really well written to where I wasn't "turned off" by it. As a matter of fact the way she wrote it, it was sexy as heck.

The two roommates Samantha and Kara apparently have feeling for each other but never shared them with each other and what starts off with a simple game of "matching Valentine candy hearts" in the living room, moves into a hot scene in the bedroom with Kara and her date with Samantha. Samantha figures it is now or never to show Kara how she feels and Kara was very receptive to it and Daniel, Kara's date, was all into it.

I wouldn't recommend this book for the "sweet and innocent". Not that I am that, but I think this short novella was just the right length to introduce me to the "scene", and I am glad I read it. If Rene writes all of her stories like she did this one, I think I can handle anything she writes. She does it with great style that

makes it “wrong” but “oh so right”.

With the well written story, the hot scenes, and perfect length, I give this book 5 stars.

---

### **Ruthie Taylor says**

Heart You is a coffee break read which got me hot under the collar. It is well written and gave enough detail for the main characters to be engaging. The ending is open, allowing you to imagine what might happen next, without it being a cliffhanger. A sweet, steamy read that will warm up an evening and maybe make you think about friendships of your own and wonder ...

---

### **Pam says**

*3 shortie stars*

Super HOT erotic shortie about a best friend who finally gets her wish, all with the game of hearts. On Valentine’s Day, Sam’s roommate, Kara, brings home a meathead-hottie and a game of matching candy hearts. Rules are if you don’t get a match you have to take a piece of clothing off but if you win, you get to perform whatever the hearts says to do on a player of your choice. Sam takes this opportunity to show Kara just how much she’s wanted her, leading into a very interesting game and a night the three of them will never forget. Super short read but perfect if your in need a lil heat.

---

### **Tina says**

A very steamy short read with a threesome - freebie on Amazon.

---

### **Elizabeth Neff says**

This is my first book read from this author; it will by no means be my last.

Sam has a roommate one she has had for awhile, who is not just her roommate but also her best friend. Kara brings home a guy on Valentine's Day; she is always looking for “that guy.”

They begin a game that neither knew would turn out that way it does. It was for fun but it was for the knock your sock off kind of fun.

I loved reading this book because it was just plain fun; it was my first girl on girl so you could say they pop my cherry so to speak. This book is highly sexually charged and full of hot sex f/f, f/m, and f/m/f. If you are looking for a quick fast paced nouvelle with some hot foreplay and sex this is your book.

---

Watch out you'll want a shower and a smoke after this one. This book is for an open-minded audience, if you don't have one don't read. If you love a book with sex and get to the, mmmmm , point, then enjoy. I did!

---

### **Angela Goodrich says**

I'll never look at candy hearts the same way. Typically my menage preference in books and novellas is 1 girl and 2 (or more) guys. That said, I quite enjoyed Heart You. This is a short novella, so there is not a lot of character and plot development. What it is, is one night, Valentine's Day, in the life of two female roommates who play a game with a one-night stand and adult-oriented candy hearts. As would be expected in erotica, the game leads to sex and the sex is hot! Ms. Folsom has created a well written story and I look forward to reading more in the series.
