J.M. Walker

Heat J.M. Walker

WARNING: Book contains adult content. Not for readers under 18 years of age

Remember: Safe. Sane. Consensual

He is my light. My darkness. The heat that creeps along my bones.
He controls me. Captivates me. Owns me.
He needs me just as much as I need him.
He teaches me to love, to want. To heal.
He breaks me down only to make me whole.
He gives me a reason to fight. To move on from the nightmare that was my past. The life before him.
He introduces me to a world of trust, empowerment and pure utter submission.
He unleashes an inferno, a raging fire inside of me that burns only for him.
He is Parker Reed.

When Keely Price is hired at Reed Industries, she takes on more than just an assistant job. Having to deal with Parker Reed's unconventional lifestyle choices while also trying to subdue her own demons, she looks to him for guidance and protection in a world unlike her own.
Can they conquer their own demons before they take control and break them apart forever?

Kimberly says

Scorching hot! Parker Reed is a filthy mouthed, tatted up, green eyed Alpha and he is perfect! Jm Walker has the best love scenes in all of her books, but this one was off the charts hot! Keely and Parker's chemistry jumped right off the pages. This is a very intricate story and it has many twist, turns, and plenty of angst, this is not for the faint of heart! Keely's indecisiveness worked my nerve a bit, but by the end of the book I was starting to understand her better. And I know you are supposed to hate the bad guy, but, I gotta say Damian is very intriguing, I would love to see more of him. I really enjoyed this book, and I'm looking forward to what is next for Keely and Parker.

Lois says

I was given an ARC by the author for an honest review.

Okay first off, this book was sex sex sex! Lots of sex, so if you like that you'll love this book. Unfortunately, I'm not so into that. I feel like there are books out there about sex with a story in it & then there are stories with sex scenes in them, if that makes sense lol. I felt that this one was one of those sex with a story book. Which there is nothing wrong with that for those who like it, just not my cup of tea.

The story itself I loved!

There were a few things about Keely that did annoy the hell out of me at first but towards the end it all made sense. I don't want to say what they were because I don't know if it will accidentally give anything away so I'll just stay quiet. I will say though that the "pet" & "little one" nickname killed me, lol I didn't like it but it was their thing so that made it cute.

I did not expect the book to go in the direction it did. I thought it was going to be so predictable because I feel like I've read so many stories where the male character is so young, rich & powerful and oh here comes this average girl getting a job at his company, but boy was I wrong! & I'm glad I was because damn it was good. This book was intense, had lots of drama and action.

Oh & I absolutely love Parker Reed!! <3 <3 <3

I will definitely be following this series and reading more from this author.

Constance Pebbles says

If you love a man that just oozes male dominance... and embodies the true meaning of an alpha male then this book is a must read!!

This book jumps right into the story from the very first page. There was no slow escalation which I truly appreciated. This story has so many different twists and turns, it always leaves you guessing as what is going to happen; and wow the storyline I never would of expected it to go in that direction.

Keely and Parker are two truly remarkable people and I am so happy that they found each other in this book. They are two broken souls that are trying to heal and they find out that to heal they need the other one more than they wanted to admit. There are many bumps in their relationship.. both their pasts colliding with their present to taint their future; but in the end will their love overcome??? You will have to read to find out.

I am so looking forward to the next book and to see in what direction these two take and what obstacles they will have to endure and or overcome together or seperately.

Thanks J.M. Walker for making me fall in love with Parker and Keely.. oh and you were right when you kept telling us readers that Parker was very needy; he is very needy and I cant wait to see where you take us next.

Jacqueline says

DNF @ 20%

I feel bad bailing on this so early, but it's doing nothing for me. I'm not connecting to the characters; I keep reading about their 'connection' yet I'm not feeling it so the insta lust they have going on is leaving me cold. On top of all of that, the echoes of fifty shades and Crossfire are too obvious to ignore. As much as I love those books, I'm craving a more original twist on that whole billionaire Dom plot.

I thought this was going to be an affair with the boss story, where the boss is a hugely successful, bad boy Dom, but in the little that I read, her boss, Parker seems to have hired her expressly so that he can play with her and that feels kinda creepy rather than hot to me.

I can see lots of people have enjoyed this one though so it's probably me.

I received an arc via netgalley in return for my honest opinion.Thanks!

3.5 STARS

Reviewed by Sharon Thérèse Nuttall on behalf of **Kindle Friends Forever**.

This is the first book I have read by this author and my first impression regarding this story was a little

conflictive to say the least. I carried on reading. Fortunately, the plot is a solid one. I give a lot of importance to this as too many steamy scenes, and believe me when I say they abound; tend to bore me. Is this the case? Read on! Her characters' personalities are strong, the setting is perfect, and even though I found the storyline a little repetitive at times, I liked it.

Keely. Despite annoying the hell out of me, her submissive tendencies were quite comprehensible. You'll find out why she is like she is by reading on. An abusive relationship which started when she was in her teens has marked her for life. She breaks away from this and decides it's about time to make a living. Look for a job. She can't keep living under the wing of her bestie, Apart from being gay, Troy has been her salvation. Not only has he looked out for his dearest friend, his concern, his sense of humour, and his spontaneous quirky remarks, had me laughing out loud. A true friend. The banter between the two is well described and if anyone in this book made me say "chapeau", it was definitely him.

The first electrical spark between the two protagonists is to be the backbone in this novel. Keely felt it as soon as she timidly walked into an interview for the job as personal assistant to Parker Reed. His savvy at such a young age had made him one of the most important entrepreneurs in the cut-throat business of wheeling and dealing. He is demanding. She realises this without a blink of an eye and complies; hardly any questions are asked. Blinking heck—this man is so Alpha that the pages lit up! Drop dead gorgeous, tattoos, piercings and rippling muscles are in all the right places, and will certainly have you grabbing for your fan. And if you haven't got one...! He doesn't have to convince Keely to his modus vivendi either. He wants her; she is inquisitive. She wants to please this man who has bombarded her feelings. Problem number one is her ex. Problem number two is she's not forthcoming with a secret that could ruin a beautiful relationship. Say no more!

Let's get back to Parker! He is a man who has had a past. His present is in danger and the last person that one would think could help him is Keely. She is a dab hand in hacking, and Parker's minions trust her. Why? Because his word is law, his intuition and feelings for this beautifully damaged girl, stronger. The BDSM scenes were written with utmost detail, but spoiled by Parker's endearments towards Keely which I found irritating. His protectiveness towards her comes over to the reader so very loud and clear that it made me wonder why there was so much fuss at the beginning of the story. I loved how Parker constantly warns her about his likes and dislikes, and the ending; phew! Never in a million years, was I ready for it!

A message to the author. There is no doubt whatsoever that you know how to dangle the carrot. If I have knocked off a star and a half, it's because your brill plot didn't need so much hot, steamy sex. It could have been so much more regardless.

Gracie Wilson says

This author did something to me that doesn't happen to often in this genre, if at all. I got teary. I felt ever pain the main characters were going through like it was my own, which left me on an emotional roller coaster. I was wanting my own Parker Reed from the very beginning. I had to finish this in one sitting. I just couldn't put it down. Now that doesn't mean I wasn't screaming and having melt downs. Maybe even the odd hate mail to the author :P What can I say the emotions got to me and hate was definitely used. I hated the ending, not because it wasn't amazing. BUT because I have to wait for her to finish writing book two! When this book goes live, scoop it up and read it right away bump all your other reads because just like me once you start you will be wanting your very own Parker Reed.

ARC provided by Netgalley in exchange for an honest review

3.5-4 HEATED stars!!

For starters I very much enjoyed this book, as a lover of BDSM stories this one did not disappoint. The scenes were hot and it was clear the author did some research into the lifestyle.

The storyline itself was very good, it was hot and intense yet the unexpected twist will keep you guessing... It was focused around Keely Price and Parker Reed. Keely has escaped an abusive relationship and was rebuilding her life...insert Parker Reed, the owner of the company in which she has a job interview. The immediate attraction was a given, he is hot, tattooed, pierced and not at all what you would expect from a man who runs a million dollar company. They cannot resist each other and he vows that with BDSM he will tear down the walls she has built from her previous life, she instantly submits...

OK...my issue #1....she literally submits immediately-to a stranger.... Yes the attraction was intense and immediate (hell I wanted to lick him myself) but I enjoy a little work up to the first scene please..... It was just a little too quick for my liking....

There are so many twist and turns in this story, expect the unexpected for sure....

The ex returns and makes life hell....

Of course Parker doesn't 'do relationships' but he wants to own Keely, and she definitely wants to be owned. Parker is very experienced in the BDSM lifestyle and the book follows the journey of his teaching Keely.

My issue #2....kneeling at his feet...EEK! I just cannot wrap my head around it....

My issue #3.... While most of this book was well written, there were parts that felt rushed...really rushed, and I was like WTF how did we get there??!!

It is hard to explain much w/o giving away the true plot BUT it was totally unexpected and it is a CLIFFHANGER.

I will definitely read the next book not only because I need to know how it ends but because the scenes are TOTALLY HOT.

Allison ♥?Will Never Conquer Her TBR♥? says

DNF at 38%

Well.....

When I read the book blurb to **Heat**, I was pleasantly intrigued. It promised to be a bit dark and everything hot. Unfortunately, none of that was delivered for me.

Every erotica cliché that is out there is in this book.

Let me count the ways-

- 1- Rich yet young billionaire CEO
- 2- Meak woman enters for job interview. Gets hired after basically two or so questions. Her name, her age. Asks her to stand. Asks her to sit. You're hired. Hmm
- 3- Hired position is for his *assistant* aka his submissive.
- 4- Gay BFF roommate
- 5- Hero has mother issues
- 6- Every annoying endearment known to man. Pet, Kitten, Angel

Anything ringing a bell here? It's a complete blend of FSoG and B2U without near the plot. Just sex, sex, and a side of sex. Heroine has a past boyfriend who clearly abused her as a submissive. He's actually just getting out of prison. That's all we're told. So, would it be smart to enter into a D/s relationship with a complete stranger that has a horrible media reputation of being a dark, secretive man? Better yet, when the Devin flashbacks come, she begs him to fuck her, fuck her HARD. Hurt me! Yah... No. I'm no psychologist but this screams inconsistent survivor behavior.

So, the theme is pretty much back to back slapping uglies. So if that's your cuppa, this is your book!

In fact, upon inspection, the word *fuck or fucking* was found in this book 188 times!

Anywho. The plot is way too inconsistent, the character development almost nonexistent and the overall plot is entirely overused.

As a side note- I'm not sure who the dapper fella is on the cover. The hero is tattooed with a barbell in his eyebrow with gauges in his ears. I may see a shadow of the neck tat, however.

Moving on...

ARC received from Hype PR via NetGalley in exchange for an honest review.

Charlie says

5 Heat filled stars!

J.M. Walker is one of my new favourite BDSM romance authors. This is a new to me author but in so glad I gave this book a chance.

Parker Reed is all kinds of wonderful. He's a smart, incredibly sexy Dom with a dark side.

I loved this book. The sex was super hot and became more kinky as the book went on. The last 25% of this book was super exciting and it become more like romantic suspense.

I'd love to read more in this series and by this author.

I received a review copy of this book from the publisher through Netgalley

LuvLaw says

Please Note that this book is pretty dark and contains a lot of abuse. Not for faint heart. This book has a lot of insight into BDSM/ Shibari and Kinbaku

I read the Blurb of this book and I knew I had to read it. This is the 1st book of the Author I have read and I must say its a well written book ^^

Parker : Loving/Tattooed/Dom/Protective/Fierce/Alpha/Master

I loved the way Parker is characterized in this book. He is such an amazing hero full of warmth but beware ladies a Dom to the core ;)

The scenes between Parker and Keely are so amazing it made me droooooool *swallowing my drool back* ;)

He hires her to be his assistant but when he meets her for the 1st time knows that she is a broken women who needs a Dom to help her heal her soul ^^ . Their story brought me to tears at times when he cradles her through her tough times.

He is strict but is also very giving. The way he soothes her is so beautiful that it made me want to hug Parker and look into his eyes and look at his soul and know he is such an amazing person ^^

Keely : Vulnerable/Beautiful/Strong/Sub/Loyal/Best Hacker/Slave

She has been through so much that I feel so sad for her. At the age of 16 she made a mistake of falling in love with Devin who abused her, used her, tortured her to such extent that she could not be truly free from any of the abuse she faced even after she put him behind bars.

Years later when she is finally with Parker where they both want to move ahead with their lives, Devin finds her and haunts her.

This book is full of twist and turns which keeps this book interesting ^^

But towards the end of this book what Devin does to Keely makes me hurt for her. And Parker... he is there for her, to pick up the pieces again to help her and make her a strong women.

"Angel"

"Pet"

"I love you Parker"

"I love you, Keely"

This book is painful yet beautiful. Sinfully Sexy yet breathtaking ^^

For me 5* NJOY!!!

★ Belle The Bibliophile ★ says

This book is fucking ridiculous I wanted to rip my hair off. Since this book's gotten so many rave reviews, I'm guessing this will be one of those *unpopular opinion*. Meh. Sorry not sorry.

I'm gonna have to be clear here: I didn't finish this one. There's only so much bullshit I can take. First of all, the characters' insta attraction is fucking ridiculous! Real talk. Hands down ridiculous.

This book started with our girl, Keely who was interviewing for a job at Reed Industries , which was a stupid interview by the way. He asked her name and preceded to order her to stand and sit and bam! She was hired. Apparently he liked the submissiveness in her. Whatever. Keely was practically salivating for Reed the second she laid her eyes on him. -eye rolls-

After that so-called interview, she went hom to her, *very gay*, roommate and he started warning her against working with Reed. Keely being dumb as she was, stormed out of the apartment and practically ran into Reed! Suprise, surprise!

He then took her out to this sandwich place and they had a mini makeout. Yadda, yadda.

SIGHS.

I could go on forever.

Sorry but this didn't work for me.

Kimmie says

Parker and Keely...what an interesting couple. A dark craving, a seductive need and secrets make this story a must read. Once you start you won't be able to put this one down. Desire, love, emotional turmoil..a whirlwind of Heat.

Lorena Garcia -- Brittany's Book Blog says

****Received an ARC from the author in exchange for an honest review****

First I would like to say that this is the first book I read from this author and I am not the least bit disappointed. I enjoyed this book starting from beginning to end. I just couldn't seem to find myself putting it down!!

This one was a little different for me. It might have been the sexy millionaire but he was different, very different. When do you read a book that has a tattooed pierced alpha millionaire??? Never, at least I haven't. You usually find those in rocker books. But I was highly impressed and found this interesting.

Parker Reed was a man who has secrets. He's also sexy, moody, rich and did I mention HOT, oh yeah but I said sexy (same thing right)! He owns Reed Industries and he worked hard to get his own company started. Yeah, he is young and he still managed to start his own company. Now he has people trying to destroy him and his company and he needs to find out who and why.

Keely Price is a woman who has a pretty f*cked up past. Her ex tries to destroy her in any way possible and that's why she has left him and did what she had to do in order to get away from him. Now she is with Parker and together they try and fix each other, they fit perfect. Keely is a smart girl and she is trying to help Parker in trying to figure out who's trying to destroy him.

This book has a lot of sex but it also has a story line. It will captivate you and you will not want to put it down.

I am anxiously awaiting for the 2nd book and I can't wait to read it!! The suspense is killing me now!

I am very glad that I got the honor to read this book and due to this, I now want to read more from this author.

I totally give this book 5 stars.

Pam says

DNF @ 25%

I'm sorry but I tried, I swear I did, I didn't want to think that I had two books back to back that I couldn't get through.

This went from like 0 to 60 in a flash. I pushed on since I couldn't really give up after the first chapter. I can appreciate a insta-relationship, but it was the combination of the insta-ness, the bad boy CEO billionaire theme, and a heroine that says one thing but does another that didn't work for me. Her position at the company was questionable for the very beginning, and for her to accept it just because didn't really earn her any respect from me. Sex forever on their mind... In short this is another one that didn't personally work for me, and after a few too many eye rolls I knew it was time to quit.

ARC kindly provided by The Hype PR, via NetGalley, in exchange for an honest review.

***Quotes above are taken from the ARC version of the book and may differ upon publication.

Michelle says

This is the first book that I'm reading from this author. I have some of her other books.

But... I just hope they are not like this book...

Wow...

First thing that came to my mind when I started reading this book was that it reminded me so much of Fifty Shades Of Grey. (A little... But way more darker)

The author didn't mess around with the timeline either.

Keely meets Parker Reed in a job interview... Then like two hours later she was already fighting her feeling for him!!!

I mean... I'm all for instant love... But... I want the main characters to work for it just a little! And that's only 4% into the book.

I guess I would be ok with this whole scenario of instant love if they had met at a party or club or bar. Where instant attraction flirting a little & witty little comeback's between both main characters would be expected.

It all just seems too cold.

I would expect how fast they got together coming from a little novella a short story but not a novel.

Hmmm...

This is hard. This book just was not for me. And it's not the content of the book that I didn't like. I guess you can say how it was written that I didn't care for.

Keeley and Parker's character just didn't do it for me. They just felt so cold and impersonal. I absolutely hate it how he called her "pet" in front of other people. I felt like that should've been between them and kept for their private moments.

The book was kind of choppy did not flow easily. And there really wasn't a lot of details in a lot of the events that went on in this book.

I had such high hopes for this book.. Owell...
