LOVE ISN'T ALWAYS EASY...

I set out for a small town in order to find myself. What I never expected was to find the one thing I always needed- Wes Taylor. He obliterated every wall surrounding my battered heart. The only problem? The darkness I had left behind followed me, once again taking hold of my life.

For four years I've raised my daughter, Ellison, on my own. I wasn't looking to have my world tilted on its axis, but the day Lenni Blackmon came to Fredricks it did just that. The only problem? She was too afraid of her past to look forward to a future.

I absolutely LOVED this book! My heart was instantly given to Wes and his little 'Scooter'. I fell in love with them and the beautiful relationship they have. He would do anything for his little girl! And then Lenni came into their lives. She was meant to have come into their lives. They needed her as much as she needed them. They had me laughing at one moment and then crying the next. So many feels in these pages that I now need more!

"I want real, gritty, passionate and all-consuming. I want a love so real it leaves the sun jealous of our nights and the moon jealous of our days."

This book stole my heart from the first chapter! I just knew I was going to fall hard for Wes! What amazes me is that this is Lynn's first novel. What a talented young lady! She did a wonderful job capturing all the emotions that you only hope to feel when you read the perfect book! And it was PERFECT!

"But when you've lived with the devil, hell starts to feel like the only place you belong."

Wes What a man. He's funny, he's hot, he's sexier than hell, he's caring and giving. He is a great father and a fabulous boyfriend. Lenni is one lucky woman! I loved her tremendously, what a beautiful lady, both inside and out. She embraced little Elli immediately. Elli, what a sweet little girl! She stole my heart.

"I love you, Daddy. Hand, heart. I'm with you in there."

Thank you so much Randa Lynn for giving us the incredible and heart warming love journey of Wes and Leni. I will never forget this experience. This love story will remain in my heart....

I love these stories with men raising a child it's sexy and Wes Taylor is just that.

Lenni was looking to make a new start and in a small town she was doing that she just didn't realize she would find something to make her stay. Wes is your all American guy, sweet, sexy and has only room for one special girl in his life, his daughter that is until Lenni makes an impression. I loved these two characters they complete each other even though they are different. loved it.

What a beautiful story. You instantly love Wes and Elli and you feel for Lenni you want to be her friend . This was such a relatable story this had the feel of being someone you may know . I mean Wes he's a blue collar guy and proud and that is the hottest thing. There were times of frustration of sadness and pure happiness . Let's face it Elli owned my heart from the 1st moment . I can't wait to read more from Randa Lynn

5 Heart Stealing Stars!

This book stole my heart from the first chapter! I just knew I was going to fall hard for Wes! What amazes me is that this is Lynn's first novel. What a talented young lady! Wes. Oh my love. What a man. He's funny, he's hot, he's sexier than hell, he's caring and giving. He is a great father and a fabulous boyfriend. He just kept on surprising me, I kept waiting for him to be a dick, but it never happened. To be honest, that's one of the things that I loved most about this book. Yes, there was definitely some tough times that this couple went through, but Wes...oh Wes...he was the perfect book boyfriend! Lenni is one lucky woman! I loved her tremendously, what a beautiful lady, both inside and out. She embraced little Elli immediately and I instantly wanted them to be a family! I NEEDED them to be a family! Elli, what a sweet little girl! She stole my heart that first day on the beach.

I absolutely adored all of the secondary characters! What great friends Wes and Lenni have! I enjoyed every single scene they were in! I thoroughly enjoyed the bromance that happened between Wes, Cam and Dame. They are all so hilarious! The girls! Oh my! Do they have spunk! I enjoyed the interactions between Amber, Zoe and Lenni, especially when they were with the boys! Cam is my fave and I really hope he gets his own story in the not so distant future....just sayin'.

This is such a beautifully written book, I cannot express how lucky and honored I was to read it! I was sad it had to end and that is the sign of a great novel! Thank you so much Randa Lynn for giving us the incredible and heart warming love journey of Wes and Leni. I will never forget this experience and I cannot wait to read your next masterpiece. This love story will remain in my heart....

Two people who come from two different worlds but couldn't be more perfect for each other. These two have had their share of heartache and pain. But this is the lesson, "In life we live, we learn, and grow. We can either wallow or rise up from the ashes the trials leave behind." What a great story.

I was given an ARC of this book in exchange for an honest review. These are MY thoughts.

I opened this book without knowing anything about it or reading a synopsis.

From the very first page I was was hooked.

Lenni Blackmon is a woman who has been broken. She doesn't know what she wants in life or even how to climb out of the hole she finds herself in.

Wes Taylor is a sexy as hell single dad with his own issues.

This story was beautiful. The way it developed and the way it was written.

It's hard to believe that this is the debut novel for Randa Lynn.

With all it's twists and turns this was a welk rounded story. A bit of drama, a lot of love, a touch of crazy and the cutest child character I've read in a while!

This book was everything. I absolutely loved it.

This was a perfect debut and I can't wait to see what else Randa will give us in the future!

Add it to your tbr - and move it to the top of the pile!

4.5 Stars

I'm shocked by how much I loved this book. I have to say I went into this one with low expectations but Randa blew it out of the park. It was a great debut novel.

This had one of my favourite storylines, I love reading about single fathers and this one was one of my favourites so far.

I loved Weston Taylor, he was a hottie and such an amazing father. I loved his relationship with Elli, nothing and no one was as important as that little girl was to her daddy and it completely melted my heart. The relationship Wes had with his friends was hilarious, I really enjoyed seeing him let loose.

Lenni to me was an amazing woman, she had endured so much pain at the hands of her ex but she was strong enough not to really let it break her. She had a slight blip but other than that she is one of the few leading ladies that I actually adored. I loved how she just took to Elli straight away, she was so patient and loving with her and it was just so lovely to read about.

Elli was my favourite thing about this whole story, she was super cute and I loved her instantly!! She had me laughing so hard a few times and crying the others.

I really enjoyed the fact that Elli was so involved in this story, normally in stories about single parents the children are kind of in the background. That wasn't the case here and it was so nice to read about.

I really hope we get a story from some of the supporting characters. I really want to see what Damien is hiding from Zoe and I would love to see Cam tame April.

Thank you for the chance to review.

This is a very well written book. It is a beautifully told love story and the characters are amazing, especially the little girl Elli, she was just adorable. Both characters have baggage from their past and both pasts come back to haunt them and threaten their newfound relationship. I love the way the relationship and characters developed and all the supporting characters were very strong and likeable. I highly recommend this book and author and I will definitely be reading more of her work in the future.

I just fell in love with an entire book of characters! I really enjoyed this story. I loved the way the story arced and the progression. It never felt rushed and just when I thought I knew what was going to happen I was taken in another direction. There are a slew of secondary characters that I can't wait to hear their stories. This was just a really gorgeous debut by Randa Lynn.

Lenni leaves behind a life that's been full of pain and humiliation at the hands of someone who supposedly loved her. She makes a decision to walk away and needs some time to decide how she is going to move on. Enter Wes and Ellison!

I need to warn you right now that Weston Taylor may be the closest thing to perfect you'll ever read. A true southern gentleman with charm to spare. I swear every time he tipped his baseball cap I was ready to strip off my clothes! He's not had it easy the past few years. After his piece of work wife up and left him and their daughter he's put aside his wants to be able to take care of her needs. He's completely content living a life with the sole purpose of making sure his little Elli never wants and is surrounded with family that loves her. But he knows that despite his efforts a Mom may be something she never has and that is more than enough to break his heart.

I couldn't wait for Wes, Elli and Lenni to come together. I knew I wouldn't be disappointed. It's so sweet and so natural. Nothing is forced. Lenni's genuine heart causes Wes to take notice. And sweet little Elli is so easy to love that each interaction leads to Lenni falling more and more in love with both of them. And then with her. Again the secondary characters are lots of fun and will be great stories themselves! So keep yours eyes on this new author. She's got lots to offer and I can't wait to read what's next!

Beautiful.

This story was so beautiful.

Wes is raising his daughter alone...talk about heart melting . That takes a real man. A man who is fearless because being a parent is scary...but doing that alone is brave.

Anyway he and Len keep running into each other and their connection is hard to ignore. Once they get together these two are flawless.

You read those stories where each interaction can seem forced or maybe awkward but these two it was perfect. You could almost feel the sparks and the heat.

Not only does Randa make you love those two but she has you falling for every character in the book. The story line itself seemed so real. You couldn't put it down if you tried.

I'm dying for her next book.

The best book ever!

If you are looking for a great book, a great love story, and a great everything; this is the book. Always is the debut novel of the new author Randa Lynn and she don't disappoint at all. I love the way Randa brought the characters together, the story was equal in the love, the plot, the twist and the intimacy. This story held my attention from the beginning to end. Is unlike everything, the author sucked me into and I found myself one more chapter please. I was hooked, the love story of Lenni, Wes and Elli was beyond perfect. Those three have my heart, the love that I have for one each of them is just exceptional. You always look the powerful, feisty and hardworking heroine, but see the hero out ahead alone with his daughter, is realistic. Weston is an exceptional father who does everything to provide the best loves to his daughter, and she is a sweet girl who always steals you heart; in every breath. This book teaches you to love unconditionally, teaches you to appreciate what you have, and teach you to LOVE WESTON AND ELLISON TAYLOR FOR EVER. I can say that this author has my 100% recommendation, the story is well written, well developed and well explained. I can't wait for more she can bring us, so keep going Girl!!!
