MacLeod

Cathy MacRae

MacLeod Cathy MacRae

I was known for a time as Hugh MacLeod. I was only sixteen when I joined the glorious cause that ended not only Prince Charles' bid for the Scottish throne on the bloody field of Culloden, but my life and secrets as well. Too young to enlist, I followed my older brothers into the Glengarry Regiment, hiding from them until I faced the English and 'twas too late to turn back. Though I'd prefer my boon to be a chance to deflate the Duke of Cumberland's arrogance for what he did to my family after the war, I will settle for a few moments with the prince.

jennifer croy says

Beautiful

I'll admit that I nearly did not read this one, although I have read all of the previous additions. I'm so glad I chose to pick this up. I dearly love each and every one. The author does a fantastic job of creating memorable characters that the reader can't help but feel emotionally connected to.

Dee says

Love this series. Look forward to the release of each one.

By Cathy MacRae
(The Ghosts of Culloden Moor #21)

I was known as Hugh MacLeod for a time. Can you believe I was only 16 when I joined that glorious cause that not only ended Prince Charles' bid for the Scottish throne on the bloody battle field of Culloden, but my life and secrets as well? I was too young to enlist so I followed my brothers on what I thought would be a grand adventure into the Glengarry Regiment, hiding from them until I faced the English, but by then it was too late to turn back. The horrors I saw are something that no one should have ever had to see. What I really want my boon to be is a chance to deflate the Duke of Cumberland's arrogance for what he did to my family after the war however I will settle for a few minutes with the Prince.

Once again I am amazed at the tale that Cathy MacRae has spun for The Ghosts of Culloden Moor. Her writing is so wonderful and flows so well that I am actually able to envision everything that I read. I loved the secrets in this particular book and didn't see them coming at all. Another 5 star read from Ms. MacRae.

If you haven't read The Gathering yet you should read that before this book as it explains everything you need to know about the Ghosts of Culloden Moor and how they came to be.

Tasha says

Okay so least just say you want believe it until you read it because its a ghost book. LOL I'm not talking about the Culloden 79 either. MacLeod went back home present day home to discover who needed rescuing so that he can get a chance a the Bonny Prince. What he discovered was a mystery and more people to help than just one. I won't tell you the truth about this book you will just have to read book #21 yourself.

Holly says

An interesting but satisfying outcome.

Kathy says

Such a wonderful story and pleasantly surprising. I have yet to be disappointed by this series. The only complaint I have is that I need to wait until the next installment gets published. Thank goodness that with ebooks the process doesn't take months and months.

Carol Everson says

So Sweet

When she left her home to stay with her brothers her name and appearance changed from Soni the sister to Hugh MacLeod loyal soldier for the Prince. Another great storyline that brings peace to her besides another life rises from the ashes. Looking forward to next book in this storyline.

Stephanie L says

This is book 21 in the series. You will want to read the first short story, The Gathering, for the background information on the Muir witch before you start the rest of the series. After that, each one can be read as a standalone.

This one has a twist that I should have been ready for but did not. I was hooked right away with this story. Wonderful quick read perfect for a day by the pool.

This is another great read in this series with a little bit mystery, and of course romance!

Deven says

This book was different. Writing is amazing as always but the storyline was definitely different from all the other books in this series so far

Wendy says

Love this series

I love the Ghosts of Culloden Moor series. The concept is great and having so many individual stories is fun. I loved this one because it is different from the rest and gives the overall story a different point of view.

Won't say more because I don't want to spoil a story.

EvilAntie Jan says

A wee bite of a disappointment

First, one of the best parts of this very very short story is the riveting history and the high price the Scots paid. I feel that the story of our two ghosts would have been much stronger had an introduction been given. Jumping into the story mid action did nothing to pull the audience into the story.

Linda Anderson says

Different

Totally different from the other books the ending is a complete surprise and I still enjoyed it. I think this is best SERIES of all time.
