I started reading this series 7 years ago and I'm so glad that I did. Bravo, Josephine! This last book was by far my favorite. From page one I was drawn back in. The character development in this book...wow! You have outdone yourself. There are so many books/series that end in ways that, simply put, suck. You, however, managed to finish the series flawlessly. The ending...♥! Thank you for sharing this story. I recommend it to just about every reader I come across. It will always be a favorite of mine.

This book was So good! Very well written, couldn't stop reading it. Josephine Dillon is a very talented writer. I knew nothing about this series when I first downloaded the first 2, was just putting free books on my nook for vacation. The whole series keeps you wanting to read more to find out what happens next.
