Issued to the Bride One Soldier Cora Seton

Jack Sanders built his career as an army intelligence operative on his uncanny ability to anticipate what the enemy will do next--but he never anticipated the trouble he's landed in. Removed from duty, his future on the line, he'll have to accept a truly unusual mission to redeem himself. His orders are clear: head to Montana, marry General Reed's daughter, and secure the family's ranch once and for all from the drug cartel trying to get a toe hold in Chance Creek.

Everyone knows Alice Reed gets hunches about what might happen. What they don't know is she's got one blind spot: her own future. But she's watched four men arrive to marry her four sisters. It doesn't take a psychic to predict her father plans to send a man for her, as well. But when Jack arrives, Alice knows she's in trouble. He seems as aware of the future as she is; and he wants something from her she swore she'd never give to a man her father sent--

Her heart.

Soldier for the Fairy Princess

This series follows the 5 Reed sisters in Chance Creek as they manage their late mother's ranch, despite "help" from their father, General Augustus Reed. The General's latest plan is to send military men to the ranch expressly for them to marry his daughters. To this point, the General's plan is working. His latest effort is to match Jack Sanders, US special forces soldier with his daughter, Alice. Jack is pragmatic and extremely analytical, almost a savant. Alice is a bit fey, known for her glimpses of the future, a talent she inherited from her mother, Amelia. She's also beautiful and a talented costume designer and seamstress. She has hopes her costumes will be selected for a movie. She doesn't have time for romance, or Jack. But Jack needs to find a way to convince Alice she does have time for him. He loves the Two Willows Ranch, the family at the ranch calls to him and Alice, despite her otherworldly tendencies, pulls him to her. But violence has plagued Two Willows for the past six months, in the form of a drug cartel. Gun fights, devastating fires and the horrors of war have haunted them. Family dynamics and the stress of violence has everyone on edge. The General's influence is more invasive than ever and the drug cartel influence still stalks the ranch. Intrigue, mystery and suspense carry through this book. Alice's and Jack's talents must save the day for Two Willows and the action proves exciting and harrowing. Will this story bring peace to Two Willows? You'll love reading it to discover the truth.

It seems like I have been waiting forever for Alice and Jack's story, and now that it's finally here, I couldn't wait to get my paws on it! Wow! Ms. Cora has continued to raise the bar as far as her characters and stories go, and this book is no exception! Be prepared to laugh and cry, sometimes, both at the same time. Ms. Seton has a wonderful knack of bringing her characters to life in vivid color complete with emotions that you can feel pouring from the pages. With a story that is quirky as well as down to earth, you won't want to put it down once you begin.

Alice has been on edge for too long! She knows there's something bad that's about to take place, but what? Or, to who? With her chance at making it big in the costume design business approaching, and her sister Lena's wedding happening today, anything could go wrong. So when the nuptials are all done, and the party has begun, and she's still on edge, she resorts to "hiding out" in the kitchen. And when the knock at the door finally comes, she knows it's for her. But will her "suitor" simply bring her him? Or will he have the bad news she fears is a result of her previous actions?

The time Jack has been waiting for, for the past six months, is finally upon him! Will he measure up? Or will the beauty he's come to think of his, find him lacking?

There will be many hurdles, and lots of pain, but will this couple complete Amelia's orders? Or has the General finally erred in his judgement?

I received a copy of this book and am voluntarily giving my honest opinion.

Alice Reed is the youngest and fifth daughter of General Reed and the one who doesn't want to be married. Although she has accepted that it will happen on one level, she isn't sure if she is willing to marry someone who doubts her abilities. Alice can see what might be and is often right. She doesn't like to call herself a physic but she can see into the future.

Lieutenant Jack Sanders is an Army intelligence officer who managed to get himself in trouble and landed on General Reed's special squad of misfits. He, along with the others, have been promised that they will get an honorable discharge and a portion of the ranch. Jack is the last of the five misfits that the General has gathered together. All five have been strong willed, intelligent, willing to do what is right even if it means going against the established rules. Each of the men that the General has gathered has a special talent. Jack's talent is gathering and analyzing data. He notices details that most overlook and manages to connect the dots and finds the patterns.

Can Alice and Jack find a common ground and realize that their talents mesh and work together perfectly? Will they both be able overlook that the General has matched them? Will the General be able to say that he has successfully matched up all of his misfit soldiers with his five daughters?

I was provided with a copy of this book from the author ahead of time in exchange for a fair and unbiased review. Ms. Seton always writes a book that makes me go back and re-read it a few times before writing my reviews. I have loved her well written books since reading my first one.

The ending of the Chance Creek series are is it. This is the best book in the series I have always wondered about Jack. He seemed like the strong silent type, but this man has a heart of gold and is a protector. Alice as you know can see the future and she sort of wants out of Chance Creek or does she. She is a dressmaker and is popular among the people of Chance Creek she know it is her turn cause now all,of her other sisters are married off and happy. Also the General is back in town after getting hurt and the threat is not a over for the girls and the General.

It may even be someone from the General's past. Will the girls and their father finally make up. Things are real tense now in the home. We were also introduced to someone new the Corporal whom may also be getting a book with Cassie's best friend I cannot wait.

I rate this story five stars. And the General I kind of start to like him in this story we see That he really loves his girl and showed them the only way he thought he could by sending them husbands not knowing that they also needed him.

This is a must read definitely..

It's always a little bittersweet when you find a series that you really enjoy because as much as you want to

get to read everyone's story, you're also a bit sad because then it means the series is over. Fortunately, it looks as though Cora Seton is far from done with the residents of Chance Creek! This is the story of Alice Reed, the last of the five Reed daughters. Their father, the General, has been sending men to the ranch to marry each of the girls. And just like the other books, it seems as though the General once again has found the perfect match for Alice.

Have to say I really enjoyed the pairing of Alice and Jack. Two characters that at first glance seem like total opposites but actually have more in common than it seems. This is the fifth book in the series and I definitely recommend reading these books in order because so much of the drama in this book is based on previous events. However, you don't need to have read the other Chance Creek books in order to enjoy this one but you might recognize some familiar faces from town. All in all, a very enjoyable read.

Thank you for this ARC

This is the 5th and, sadly, last book in entertaining Issued to a Bride series.

The five Reed sisters have always lived in Two Willows ranch with their beloved mother who passed when they were teenagers.

Their father, the General, unable to cope with the loss of his wife, never visited the ranch again. Until now. The general has been hurt in a bomb attack and he is coming home after eleven years. Understandably, the sisters are conflicted about the homecoming of their controlling father.

In the meanwhile, during Jo and Connor wedding, Alice's issued husband, Jack, arrives at Two willows.

Alice, like her sisters, knows that life at Two willows is uncommonly full of magic. She has her mother's clairvoyance and is conflicted about it.

Jack is a pragmatist and, of course, doesn't believe in Alice's powers.

This is a good book, like all the other in this series.

The characters and their feelings are well-rounded.

I enjoy the magic bit because it is not overdone, adding a nice element to the whole.

I have been on pins and needles waiting for this release. Finally, we get book 5 of the Issued To The Bride series! Cora Seton knocks it out of the park with an incredibly interesting and intriguing premise and we are kept on the edge of our seats to the last page!

General Augustus Reed has five daughters that he hasn't seen in eleven years since his wife died. But his very special wife left him letters to open throughout the following years that have guided him to help the only way he could emotionally handle. As he has followed her guidance in sending a military man back home to his four other daughters, who have each successfully married, he now prepares to send Jack Sanders to his ranch for his last daughter Alice.

Jack Sanders has something to make amends for and he'll do as the General has bid to save his career. Even if it means heading to Two Willows Ranch to woo a woman into marriage that he has never met. There has been repeated trouble there and it may not be over but he is determined to do everything he can to help make

the ranch safe and to keep his future wife safe as well.

Alice Reed has a special ability to see the future and although she and her sisters, along with their new husbands, have already fought off drug dealers that wanted their land she knows there is more trouble coming. But when her father sends her a husband that doesn't believe in anything he can't see and prove how will they ever find a way to live together as husband and wife?

When trouble finally does arrive it will take every family member working together to survive the fallout. And will the General finally find his way back to his daughters before catastrophe finds him?

Dawn Yacovetta says

The romance and resolve in these Issued to the Bride books is so sweet that the steamy doesn't even matter. I love how strong these women are, and that includes Alice, the heroine in this book. She has her heart set on a future as a costume designer in Hollywood, and she's looking forward to leaving the ranch. Of course, her gift of seeing clips of the future and the hold the land has on each of these women might give her pause. When an opportunity comes along, will she take it and maybe lose out on the love of a good man who simply followed his heart instead of his orders?

Jack Sanders ended up under the General's rule after he did something that may not seem so bad, but it was against the orders given him. Being the last one to ship out to the General's ranch, he's had plenty of time to think about Alice, to look at her picture, and to fall for her from a distance. When he meets her, everything becomes harder to accomplish than he thought it would. And when danger rears its ugly head at Two Willows once again, all of his hopes and dreams could be destroyed in an instant.

These stories are meant to give us a feel-good warmth in our hearts and a happy ending that leaves us smiling, and that is exactly what this one did. Was Alice's ability a bit far fetched, especially toward the end? Possibly. But, it's a story, and stories can only be told the way they unfold. This one had twists and turns that weren't expected and of course a second sight that didn't just affect the heroine. It was sweet with a bit of steam and a lot of conflict that was resolved at the end of the story. That's what I was looking for, and that's what this story gave me. I loved it.

ARC for honest review with no compensation

The continuing saga of the Brides of Chance Creek, Book 5 by Cora Seton and what a way to continue this series as the men keep coming to Two Willows! ! !

This story is about Alice Reed, the final unmarried daughter, Jack Sanders the last soldier left in the task force unit and of course, General August Reed along with the letters from his deceased wife. When the General reads the letters he chooses another man from his unit which he has handpicked to marry each of his daughters and keep them safe from harm and to make Two Willows (the ranch) prosper.

Alice an accomplished designer and seamstress of period clothing also has second sight like her mother, she

can see into future that is except her own future. As she has watched her sisters fall in love and marry the men their father has sent to the ranch she knows it now her turn to meet the man she will ultimately marry except he doesn't believe she has second sight.

Jack Sanders is the last soldier being sent to Two Willows to marry Alice, who he has comes to love from her picture but doesn't believe she has second sight as people can't really see the future...he has second sight but in a totally different realm. He's determined to win her heart and keep the ranch safe from another attack. Little does he know it's coming from multiple sides....

But as usual something always happens to put everyone in danger...Can Alice and Jack proved to one another that second sight no matter how it looks...it is real and finally put a stop to whoever is determined to destroy Two Willows or will second sight be what destroys the ranch and their HEA??

Lots of sexual tension, visions of the past and future, opening of the minds, hearts and finding love. Once you start this book you won't be able to put it down until the last word is read.....thought this was the last book in the series...but why should the General stop matchmaking now!!

CarolKat says

Jack is going to have it a lot harder than the other guys the General sent. Not that any of them had an easy time winning the hearts of their Brides but Alice is different.

Jack believes there is a logical explanation for everything and nothing is magical or mystical. Alice on the other hand, has visions, not always clear but they come true and there is no explanation.

Jack has also been trying to see the maze and the center stone, sending drones in to observe only to be foiled at every turn. When he tries to enter the maze it closes, and he thinks it's something Alice is doing with some sort of mechanism. He's determined to figure it out.

Top all that off with the problem that started in the last book with all the daughter's off the ranch. The General is injured and coming home. Not an event they are looking forward to.

Alice also has a commitment to make Civil War ballgowns for Landon Clark, a producer, to review and he keeps changing when he'll arrive, bringing it closer instead of postponing.

Talk about tension, when the General arrives he believes he is in control. His daughters are stubborn and he is going to see a bit of their wrath.

Getting ready for the holidays, a plumbing issue with a new plumber to fix it, a producer filled with his own self importance and Cass's best friend Wyoming staying with them since she lost her job combine to make this a family drama of epic proportions.

Oh did I mention the cute aide the general has with him? He kind of likes Wyoming but she has her eye on the plumber.

Lots of problems for Jack as he tries to make sense of Alice's gift, I found myself laughing and cheering on the strong women of Two Oaks. I even cried a few times as the General works his way toward peace with his daughters.

Plus the added surprise in the general's letter from his wife, giving us yet another book in this series!

Such a good return!

Anything For Love!!!

For eleven years Colonel Augustus Reed stayed away from Chance Creek and his five daughters. Four were married and he never made it to their weddings, his choice not theirs. Now he found himself home after he suffered a an attempted murder.

Lieutenant Jack Sanders, an Army intelligent operative who was really great at his job. He had the ability to anticipate what the enemy's next move would be. But he never saw the trouble he would land in. His future was on the line and to redeem himself, he'll have to head to Chance Creek, Montana.

He always dreamed of finding the kind of love his biological parents had. Now he had to accept and arranged marriage, he was to marry General Reed's daughter and make sure the family ranch Two Willows was protected from the drug cartel who was trying to get its hands on it.

Alice Reed could get glimpses of what to come but she couldn't see her own future. When Jack showed up at the family's ranch, she knew what his arrival meant. He was there to marry her but she wasn't about to give a man the one thing she promised she never would....her heart.

Both Jack and Alice put their cards on the table. He realized that he was wrong about her when he met her in person. And even though she said she wasn't going to marry him. She knew that fate had different plans for her.

They both were intrigued by each other, as they grew closer. She found herself opening more to her powers just like her mother did in the past. Both women had strong men that kept them steady when they gift seemed to be too much.

Love the bond between Jack and his adoptive parents, Richard and Janet. Having the General home lead to the girls and their father working things out.

The person behind all the trouble the Reeds were having at Two Willows was someone from Augustus' past. When the enemy passed away, his offspring took over. But just like his father, the culprit underestimated the people at Two Willows.

ISSUED TO THE BRIDE : ONE SOLDIER is the fifth installment in Cora Seton's **BRIDES OF CHANCE CREEK** series. What an extraordinary way to end this amazing series. It was breathtakingly alluring,

heartwarming, fast-paced and oh so sexy.

When my husband bought me my first Kindle in 2012, I came across a book by Cora Seton [a brand new author to me at the time] called, The Cowboy's E-Mail Order Bride (Cowboys of Chance Creek), and I was hooked completely. I have, subsequently bought and read each and every one of her stories available in the UK and I will be reviewing them to try to encourage others to enjoy them too. This is book 5 of The Brides of Chance Creek and it can very easily be read as a standalone as well as part of this series and others of her stories that are set in Chance Creek. Jack's career is set as an army intelligence operative and his orders are to go to Chance Creek and marry Alice Reed, the General's daughter. She had seen her four sisters get married but never saw him sending a man for her to marry! But Jack also has a mission to complete and that is to stop a drug cartel from getting a place in Chance Creek. Now as I've bought and read all the previous copies I have already 'met' Alice and so I knew that it would have to be some very special man to be her match in marriage and Jack fits the bill perfectly. If you like adventure, family there to help out and offering support, a great adventurous storyline with magnificent characters that are so well described by Cora that it is almost as if I 'know' them as they are so believable. get yourself a copy and 'meet' Jack and Alice and all their friends and family and experience with them their journey to their HEA. I LOVED this book and look forward to A Seal's Resolve [SEALs of Chance Creek book 6]. In case you haven't already realised, Cora Seton is none of my all time favourite authors. Definitely recommended!!!

Elisa Hordon says

Gotta love it, you think it's the last story in a wonderful series but no there is always more to look forward to from Chance Creek, the most romantically loved-up town in Montana.

Alice Reed the last of the Generals daughters to get hitched.

Alice is sweet sensitive creative and she has a fiery spark in her that lights up around Jack Sanders but has the General really sent the right man for her?

I loved this one the most I think, so much happened it really was amazing.

Guilty Pleasures Book Reviews says

4.5 stars

General Reed does a great job pairing each of his daughter's with men who are going to protect and stand by there side. The story between Alice and Jack are no exception.

Alice is as sweet and feisty as her sisters. Since she's the last to marry she knows that the knock on the door

is meant for her. She can see aspects of the future however her hunches don't include her love life. I loved the element of surprise up for her. While I'm not a fan of supernatural, I found this to be one of my favorite parts of their relationship. Perhaps it's because who this supernatural whisper represented.

Jack has a similar yet different sense of wonder. He's hesitant to believe Alice but after a few weeks of denial accepts her sixth sense. It's because of his acceptance his world opens and the group can defend what's theirs.

This book was everything that I was hoping and waiting for. There were many sweet moments in the series and this book but by far the sweetest was when Alice and Jack went ring shopping. It was a total tear jerker and wonderful tribute to her parents love.
