Covet

Olivia Ryann

Covet Olivia Ryann

This dark and twisted tale of ownership will make your blood run hot. Wall Street Journal, USA Today, and Amazon Bestseller Vivian Wood writes dark romance as OLIVIA RYANN.

No one is coming to save me. I am his Fiore now, his flower.
To do with as he wishes. And he wants *everything*.
Monster wants my tears, my screams of pleasure, my shudders of fear.
In return, he also brings me these moments of startling clarity.
I know who I think I am. I know who he says I am.
I feel I'm somewhere between, lost in an ocean of pain.
When he trots out my brother with a wide smile, I'm forced to choose between them.
It's a simple choice: the only family I have left, or the Monster I'm increasingly drawn to?

From Reader Review Covet for online ebook

Lubna says

The heroine is such a stupid mindless idiot. I want just scream when I read he made her have threesome and paraded her around naked. I could not finish the book. Mind me but I like a heroine who doesn't say abuse and it's fine. This abuse what the author is portraying I'm all for dark but abuse

Kelly says

Fiore and Montster's story continues with them battling for what this is between them. Is it a relationship, are the boyfriend and girlfriend?

This story is so good!

♥? Paulette says

Title: => ♥- Covet

Series => Cherish Series 2#

Author: => Olivia Ryann

Publication:, Oct 16, 2018

????

????

? we find our self-right were we left off in Capture. The lady in red survive her fall. Fiore finds herself in Monster bed & he doesn't look like happy camper to say the least

=> These two have my emotions all over the place. Monster more than anything.. I don't know if I wanna hate him or love him. Geez how I hate that damn box... Even more for Fiore

=> Monster risk a lot when he decides to move Fiore from Colombia to New Orleans. Will Monster grow to regret his decision?

=> I wanted to personally kill Tony from the first book, after what he did this time , now I just wish Katherine or Arsen would just kill him already...

? I really enjoyed reading Katherine & Arsen & I am excited to see what Olivia Ryann will come up next for thee two

I love the Lil twist & turns... it's thrilling watching these two together. I not fan of cliffhanger, but Olivia Ryann Left on a cliffhanger, but what a cliffhanger... I can't wait to read book Cherish to find out what happens to these two.

Books should be read in order:

1- Capture

- 2- Control
- 3- Covet
- 4- Cherish

? Hope you enjoy this read & also always keep in mind this is just my opinion & my honest review ?

? I received an EXCLUSIVE copy of this book in exchange for my honest review of it. ?

? . . **This has not influenced my review. * **

Happy Reading

We!!!!!!!!!!!!

Once again this is dark. It's not romantic really. It's just a dark relationship, probably 95% Stockholm syndrome and 5% lust, but if you're into that dynamic it's a great read! The cliffhangers kill me, and I can't wait for the next book to come out in November even though I'll probably be in a mood until then. GIVE ME CHERISH NOWWWWWWW!

Teresa Juckett says

Omg what a story!!

I've read all these stories in this series and each freaking one get's only better and better. I don't think I ever want this series to stop I'd be happy if it just kept right on going. Although, I think Olivia might get a little bit tired lol. This picks up from when Fiore is trying to get away from "monster" only to realize there's no getting away and boy is she in serious trouble. I want to think this is when his feelings have changed towards her, but time will tell hopefully it won't be too late. That ending though I kinda knew something was going to happen but juuusst didn't know when and how. I can't wait for the next book to come out and see just what happens.

This is just my opinion and my voluntary review

There are boundaries for every reader. Covet managed to cross them for me. I like stories with dark themes. But this was undesirable, all this humiliation that Fiore went through, flipped me out! But she's not blameless though.

There was one scene where Arsen - the Monster summoned her in the conference room, where six men were also attending, and she entered on all fours, naked, being led by his guard on a metal chain dog leash attached to a metal chain collar.

In another, he instructed her not to talk or communicate while he would watch a stranger eating out her pussy.

And later in the story we see her brother forcing himself on her.

Apart from the above, Fiore's character really infuriated me with her (spiritless and impassive) behaviour and actions, as well as Arsen's. I didn't like them at all.

Patty says

Fiore thought she died, but that can't be right. She is in too much pain to be dead.

When Fiore wakes she is right back where she started.....with *Monster*. She does not know how she survived that fall, but as fate would have it she did. Now she must make the best of the situation. Monster has made it clear, she is *his*. She will not get away again.

Monster forces Fiore's hand and she signs over her soul to the devil himself...*Monster*. Now he owns her body, soul and even her mind. When an agreement between the two is reached there is a change in him. But only she can see it. A puppy, New Orleans, thenher brother. The cards are lined up and they don't lie ever. But what happens when the cards fall?

I have to start off saying that WTF Vivian?!? Another cliff hanger.....ugghhhh. Vivian sure knows how to get you hooked and leave you hanging with your mouth wide open screaming WTF!?! You can't stop now! We need more. Any who! Since I got my silent screams out the way

This book is better than the last in my opinion. And **NO** it cannot be read as a standalone. You need to read *Control* first. This second book in the series is a lot darker than the first. Monster really humiliates and degrades her in this book. Which I have to say Bravo Olivia!! That scene with the dog collar was perfect! Way better than my suggestion.

The chemistry between Fiore and Monster is freaking off the charts. She may be his captive/possession, but their sex scenes are so damn hot. That is some erotic mess right there. No wonder she is allowing him to possess her. He can play her body like a fine tuned instrument.

Overall this book is amazing. It is full of lust, darkness, abuse, and power. If you are a bit squeamish, then this book might not be your cup of tea. It is like a fine whiskey that will burn going down. It has many BDSM style scenes and is a dark read. And if you don't like cliff hangers, then you are out of luck, because the cliff hanger at the end of this book is more of a free fall from 12 billion feet! This book will grab your attention from the very first page and leave you begging for more.

So don't be shy my pretties! Pick up and start at the beginning! You will be glad you did.

Rachel says

that girl has no backbone, he humiliates her in the worst ways possible and she doesn't even put up a fight, no silent treatment, no nothing, just one pathetic rug under his legs, and then her brother shows actual threats of sexual assault and she keeps her mouth shut? how f*** is that? everything about the heroine is WRONG.

Madeleine East says

So dark and so page turning good. Fiore is starting to develop feelings for Monster aka Arsen and that can't be good for either of them. This series has my head spinning and I can not get enough of it. Be aware there is a cliffhanger which makes the anticipation all that much better.

Maria says

Fiore survive her jump from the cliff and wake up in Monster's bed and he is so mad. Over time she developed feelings for him. She is still his slave and he still own her but sometimes he is sweet and carrying and she fantasies of a normal life with him. But the one day she has a choice will she save him or family? This is the third book in the series and they just getting better and better. I can't wait for the next book in the series. I love these books

Amy says

“He’s just...like he is. Passionate, enraging, and completely fucking insane. And me? I’m just the naive little girl who happens to be owned by him.”

Covet is the third book in Olivia Ryann’s dark mafia captive romance series. This book continues the saga of Katherine Carolla (Fiore) and Arsen (“Monster”). At the conclusion of Ryann’s last book, Control, Fiore has fallen from a cliff. We are literally with a cliffhanger. This book begins where that left off. It isn’t a spoiler, per se, that Fiore has survived her fall, but the question remains whether Arsen will kill her or keep her captive. In this third book, we find the two grow closer, mostly due to their sexual chemistry. In fact, Fiore’s captivity becomes more muddled, and the two, Arsen and Fiore, struggle to understand their respective connection. Neither of them fully trusts the other, but they are connected to each other in ways that make both of them uncomfortable. Like Control, this book also ends with a cliffhanger, and the reader is left to the fourth book in the series, Cherish, to find out the resolution.

For me, this is the strongest book in the series to date. While Katherine/Fiore is a slave to Arsen/Monster,

she has more power over him than previously thought. The more he connects with her sexually, the more she casts a spell over him, and we see their relationship become more complicated. Even more, we find more humanity in Arsen than previously thought. He is still, however, borderline psychotic, but there is a part of the reader who believes he might find some redemption if he simply chooses Fiore to be his “queen.” This is my main reason for reading dark erotica: to read the anti-hero’s redemption. It is never fully realized in the traditional sense of the hero, but it’s exciting and sexy and allows the reader to accept the former “bad boy” (think Meghan March’s Lachlan Mount). Arsen is no different, and I look forward to reading Cherish for more of his change.

Overall, I am enjoying this series and its darkness. This book definitely lightened up quite a bit, but it’s still shadowy beneath the surface. Just when you think Arsen is more human than “monster,” the more you realize he is still very much Katherine’s captor.

Overall: 5 Star Read

Teresa Lara says

OMG this series is epic crazy intense beautiful heartwrenching.I so love Fiore and Monster give me more.....

THALL says

good

Kira says

3.5 stars

Missy Brown says

I am loving this series so much. I love dark romance, and Olivia Ryann aka Vivian Wood has become a favorite author of mine. She is pretty much a one click author. She just knows how to lure a reader in with how she creates these worlds, and characters that just hook you.

That being said, Covet picks up where book two leaves off. Did Fiore finally get away from Monster? Is it possible for their relationship to go darker? There is this dark side to Arsen that I admit lures me in. He can be so dark and cold, yet capable of tenderness for Fiore. I am wondering about his brothers, what parts they play. I would love to know their stories as well. Fiore goes with so many emotions and a contrast of strong to weak. She is just as much of a puzzle as Monster. Their journey just pulls me in, I need to know what happens! That ending left me going WTH!!! But it was so good. Overall, this is a must have for the dark romance fan!
