Call of the Sea Michelle M. Pillow

Ian O'Connell, heir prince to his clan, has no plans to settle down even though his untamed nature keeps him on the prowl for female company. The only woman he could ever want saved him from a watery grave before disappearing from his life forever. But that was a long time ago, too long for a mortal woman to have survived. Though he searched for her, in the end it was in vain.

Cursed by the power of the Cancerian crab, Ceana is doomed to spend her eternity in the ocean as a mermaid. Her only relief is on a full moon, when she becomes human and must find shore. Centuries have passed and she's all but given up on the one who could save her. Brief passion is all she has and she's willing to take what she can get—especially if it's with an intriguing lycan who's untamed nature just might be her salvation.

Cheri says

The Mermaid and the Lycan—okay!

In his youth, Ian is rescued from the sea by a beautiful young woman—she was gone by morning and searching was useless, . He never forgot and no other woman ever measured up. As the Prince he needed to find the one to prepare to take his rightful place.

Ceana's cursed to be a mermaid except for one night under the full moon. She rescues Ian a second time centuries later. Is he the one to break the curse? Does he remember her and still have feelings? Does she remember him?

The answers are a fun trip with unlikely but memorable paranormals. The family reactions are a great set up to future stories. A keeper

Kimberly Walter says

Interesting and exciting

Call of sea was very interesting, different and exciting. Cerena was cursed to the sea with only the full moon respite until the day would come that the one man would break her curse.

Ian can't forget the woman that saved his life all those years ago but he knows she is long gone by now.

He didn't know how wrong he was until he was called to the sea and got swept up in the sea and almost drowned again only to have be rescued again by the woman of his dreams.

They found each other again and it may just break her curse for good.

Call of sea was awesome book to read. I enjoyed reading it. And I am looking forward to reading to more in this series.

Cheryl Drake johnson says

I received a copy for an honest review. This is a romantic paranormal short story Ian O'Connell the next king of his wolf pack he is lucky that he survived a watery grave thanks to a woman that he has not been able to find since that night and he knows that she must have been human because it has been over a century but he feels in his heart that she is still out there he seems to keep hearing her in his head certain times when there is a full moon he has been fooling around with one of his pack members Meghan he knows that she is not interested in him as much as she is his title and he knows that she will never be his queen but spends time with her anyway he has two brothers who keep reminding him she is no good for him but tonight is a full moon and he can hear the voice of the woman in his head clearer than it has ever been and he goes down to the sea and walks straight into the water just so happens that the woman that saved his life is Ceana who was also cursed that night she save his life by Urbana the Sea witch by the power of the Cancerian crab she is to spend eternity as a mermaid because she took her brothers place and s Urbana punished her that night and she has been with many men looking for the one that loves her and will break the curse she vaguely remembers the man she saved that night since it has been so long she spends a night in human form during a full moon she is so sick of men saying they love her and don't even know her but tonight she sees a man under water on her way to shore and she pulls him with her she is tiring and it is hard to pull this large man up to the surface they are far from shore but she persists and then she tells him to awake and save himself

and he does and they reach shore together. This is their story and it's a really good one.

Deidre says

Delicious & Perfect length for a quick lunch hour get away => I will definitely be looking for more books by this author.

Maria says

Hmm. This was a quickie (Oh no! Not what you have in mind), I meant a quick read. Very-very fast paced. You can actually finish it within an hour or two. I'm actually giving it 3.7 stars since I lurve lurve lurve Lycans. (super!)

I did enjoy reading this one, esp the convo of the three brothers (IAN, JAMES, and ROARK. Steamy-Hot-Scenes as to be expected in a PNR-Shifter-Erotica genre. ~

Fave convo:

James: For the love of dick!

Roark: Is there something you'd like to tell us?

James: You like that? I read it in a book where the author coined the phrase. I think it's going to catch on.

Ian: With women, maybe. I don't know if you should be repeating it in front of the guys.

Roark: What books are you reading?

James: Pisces Phenomenon by Mandy M. Roth.

-- I bet the reason he read that book because he's born under the zodiac sign Pisces. LOL. ~

Pam Louis says

just for saving her brother. She has spent centuries stuck in the ocean with the night of the full moon her only reprieve (she becomes Human) like the werewolves only in reverse lol. But after awhile it only reminds her of all she has lost.

I like this new twist on mermaids. I loved the story, well written. Fun to read.

great interaction with the characters (Love the brothers) can't wait to read more in the series!

Ronda Tutt says

Absolutely Positively Fantastic Read! HOT! HOT! HOT EROTICA!

I loved this book for many reasons. One, I have never read a lycan (were-wolf)book mixed with the myth of mermaids and the magic of a sea witch. It was totally awesome and so exciting.

A Sea Witch "Urbana" could call men to the sea and then kill them for her own pleasure but when Ceana rescue's her brother the witch curses her and takes her to the sea turning her into a mermaid to live beneath the waves except for the night of the full moon where she can go ashore. The curse can only be broke by a man from land, born under the cancer sign, of the Night, and ruled by the moon but his love must be pure.

The erotica romance is so hot and you know when a were-wolf is involved, they can go on forever - LOL Ian (were-wolf) and his brothers were comical and I burst out laughing at many of their comments. I just can't say enough good things about this book. It is a must read and a keeper for the book shelves.

It is a short book of about 75 pages but it is fantastic. I wanted more.

The BookChick says

I love shifter stories and stories containing magic and legend. Call of the Sea was a perfect pairing of both. The story was short, sweet, and sexy. I always enjoyed *love conquers all* tales and Ian and Ceana definitely faced those, along with a jealous harpy of a woman scorned and an evil witch hell bent on having her way. Call of the Sea would have been 5 solid ?'s for me if it was longer but I greatly enjoyed the spicy little bite that it was.

Netanella says

3 stars because this book treated me better than I expected - surprisingly intelligent and well written, despite the crazy set up - a werewolf prince is rescued from drowning under a full moon by a cursed mermaid. The ending, however, was just too rushed and not satisfying at all.

Laurielu Bona Fide Reflections says

This was a nice quick read that delivered a good paranormal romance between a mermaid and a Lycan. The story was well-paced, well thought out, sexy, and fun. Ms. Pillow was able to deliver a good plot in short amount of page time. Can't wait to read the rest in the series.

Nareh says

This is the first book in the series. While I did enjoy the story, it was too short for my liking. It seemed more short story than anything else. The heroine, Ceana, was cursed to live forever as a mermaid; only being allowed to walk on land on the nights of the full moon. Ian, the hero, is a lycan prince. The interesting thing about lycans is that they live forever, literally. It is very rare for them to die. Ceana makes it a habit of saving hapless swimmers who almost drown. Ian was one of these centuries ago and still remembers her, although he has a hard time remembering her specific features. Ceana goes to land again and Ian finds her. They have a great night, then she wakes up still on land. She thinks he is breaking the curse but he only delays it as there are very specific conditions to be met. There is the obligatory jealous ex-lover. Then they have their own HEA.

Diane says

Good read

Interesting little read and liked the two pronged approach with the mermaid and the wolf. Sexy and quick, but hey it's a short read. Good.

Margaret says

Ian O'Connell, heir prince to his clan, has no plans to settle down even though his untamed nature keeps him on the prowl for female company. The only woman he could ever want saved him from a watery grave before disappearing from his life forever. But that was a long time ago, too long for a mortal woman to have survived. Though he searched for her, in the end it was in vain.

Cursed by the power of the Cancerian crab, Ceana is doomed to spend her eternity in the ocean as a mermaid. Her only relief is on a full moon, when she becomes human and must find shore. Release Date: 27th April 2011

Challenges: Winter COYER (Free at time of purchase)

Links: Goodreads - amazon

Ian is the Prince of his people, wolf shifters, and is expected to marry someone worthy of becoming his Queen. But he is enraptured with a mysterious woman that saved him from the sea years past, a woman whose face he can't recall but whose presence calls to him. Ceana was cursed for stealing her brother back from the Sea Witch, to be a mermaid except for on the night of a full moon. There's only one rare set of conditions that can break her curse...so what are the chances that those can be met with Ian?

Wolf shifters AND mermaids? What more could you want! The mythologies presented in this universe for both species was interesting and well woven. I particularly liked the reasoning behind mermaids and their existence, it made a change as well as being somewhat interestingly crossed with Sirens, though that was just what people believed. I also really liked the fact that some of the shifters doubted the existence of mermaids, it made them much more human than before.

The love story was fast moving, and there wasn't that much build up to it, but it did involve the mystery of who Ceana was and why she was calling to Ian. I'll be honest, sometimes I look for love stories that are fairly predictable and the ending a guaranteed easy happily ever after, those books are easy reading to me and sometimes I need that. To me that was what Call of the Sea was. It was always going to be a quick and happy read, along with the characters getting it on a bit of course, and that was what I wanted when I read it!

I also really enjoyed the banter that was happening between the three brothers, it felt natural and made me laugh aloud in a couple of places. This also managed to make me intrigued for the other two brothers' stories (though I would quite like to know the true pronunciation of Rourik, cause I'm sure it's not what I'm reading!)

Sally says

Call of the Sea is the first part of a trilogy about three brothers, the Lycan Princes of the O'Connell clan.

Ceana was cursed centuries ago by the Sea Witch and was made into a mermaid and once every full moon

Ceana can walk on land to try and find the one who can break the curse. Ian O'Connell almost drowned once and a female saved him, having spent years trying to find her without success he assumed her dead. When history repeats itself and Ian is saved by a woman again, he can't not believe it is the same woman. When Ceana realises that she is still human after the breaking of dawn and almost drowns, she wonders if Ian is the one that is supposed to be impossible to find.

This book is seriously hot, with the passion between Ceana and Ian, the tension mounts when time runs out and Ian has to decide what his true feelings are because if he is too late, the Sea Witch will claim Ceana and the curse will not be broken.

I really enjoyed the book, even though it was an extremely quick read, there was enough to keep you entertained. There were comical moments between the three brothers as well as the super steamy sex scenes – it had everything that you would expect from a Lycan tale. I was not disappointed.
