Absolute bore. It was really slow and not interesting. The only thing of slight interest was the s*x and that was barely interesting. Nothing special.

i really did enjoy this short story but i'd have preferred it much more as a proper book or short novella xox

Karen Davis says

If you're looking for a "time filler" with a little fun, then go for it. A deep soul searching and meaningful story...then keep moving. It was fun and like I said, a good "time filler."

Heidi Hurt says

Short. Not much of a storyline at all.

Black Butterfly says

A VERY EROTIC ROMANCE FILLED BOOK TASTEFULLY DONE. I ENJOYED IT. I LIKED THE COVER IT WAS THE REASON I WANTED TO READ THE BOOK.

Karry says

Beautiful story of reconnection!! I thought it was a breath of fresh air!! Most erotica novellas are young 20 something's with no actual connection past sex. This was a reaffirmation of a deep loving marriage! I highly recommend it!!

Laura says

Good book. I enjoyed reading it.

Alisha says

I just did not like these characters! They were rich cry babies who didn't actually have any reason to feel sorry for themselves. They were just annoying and I couldn't enjoy the story around them. They would have been tolerable if they hadn't been rich snobs, a fact which is illustrated in every scene.

Esther Theodat says

Cute story

Cherryreads says

Yea for having a short sexy story about an older couple.

Felicia says

A short story I read on my ibooks (free) it was cute.

Dakota Storm says

Story line alittle lacking but premise a good idea. Trying to re kindle their love and passion for each other.

Beth is experiencing deep feelings of loss after attending her daughter's wedding. Her husband Sam is determined to cheer her up and relive the day they conceived their baby girl.

Love's Passion is by far the sweetest love story of Jade's erotic tales I've read so far. Beth and Sam have a powerful connection fueled by many years of marriage that is set ablaze after sending their daughter off to

her new life. The story line is a bit reminiscent of Love's Bite in that the couple sneak onto a stranger's property for their rendezvous. The idea doesn't seem as fresh after reading it twice, however the amazing love scene just about makes up for it. As a reviewer, it is my job to find these flaws, however I feel the casual reader will find a new and exciting experience with each of Mica Jade's stories.
