Closer is the ultimate!! It is my favorite book.. I compare all to this one. I don;t even want to write more because there is no way I could do it justice. The intensity between them.. Ungh!! THE BEST BOOK EVER

Mistress says

"Beautifully tragic, beautifully crazy, beautifully mine..."

Wow, this book... I experienced so many intense emotions while reading this roller coaster of a book that it caused me very real, physical, chest pains. This is another great story by TeamBella23/Mary Elizabeth, who is one of my most favorite authors. She has a way of making you feel every word she writes in your soul. Closer is a story about a compulsive, destructive, addictive, all-consuming, forever love. The amount of grief and tragedy in this book is staggering. I could not put this story down; I devoured every word. When I was unable to read, the story stayed with me, it consumed my every thought. I can't start the next book, California Waiting, fast enough. That ending was shocking. I have to know what happens next! I would highly recommend this intensely drama packed book!

"He turns his head in my direction and opens his eyes. They were beautiful, my light at the end of a dark, never ending tunnel."

"I could hear her steady breathing beside me, it was like a song that sang me right to sleep."

"I cannot lose him because without him there is no me."

*"Bella and I are completely wrong, and f*ucked up for each other, but we are too far in to ever back out... we will kill each other trying to make this work."*

"We are anything but normal, we are addicted, obsessed, but we are in love."

"I may not deserve her, but there isn't a chance in hell I am letting her go now, she's officially mine and I have always been hers."

"Every time he kisses me he does it with such conviction that it makes me feel like it's our last one."

"Seven years of blood, sweat, and tears got us where we are now completely devoted, desperate, and irrevocably in love."

"I see you Edward; you are all I ever see."

*"Her touch alone screams at me that it is all worth it... I will take on all the pain in the world for her. I will fight to make her happy and kill to keep her that way. After everything... all the bullsh*t; obsession, desperation, jealousy, spite, there is pure unadulterated love. Just love."*

"I will walk to the end of the earth for her; I would die for her... all she has to do is ask."

"I'm disturbingly in love."

This song is absolutely perfect for this book. I have listened to it more times than I could count while crying, thinking of Edward and Bella. <http://m.youtube.com/watch?v=j9Furrb3CI0>

Mindy says

I really liked this book. This author has a way of making you feel the raw emotion. B&E are both a little f'd

up and I think that makes for a better story than just the one-sided issues.

It was a little long but not boring. I wasn't skimming over any parts. I'm just now starting California Waiting so I can't wait to see how it turns out.

Teambella23 has a way of making me lose myself when shes writing. From Closer to Revelry to her team up with Yellowglue and giving me Dusty. Once I started Closer I was lost. I don't cry during books Ever and I felt so emotionally connected to them I was a sobbing mess. My husband thought I was insane. Any thing Teambella23 writes I will read no if and or buts about it.

It's just me Shelly B says

I just cant get enough of these two Edward and Bella and all of the gang. The love between them is so intense and passionate, but in such a loving way. I love the way they talk to each other and the fact they can't live without each other.

This book broke my heart at the ending and had to put the other books aside that I was reading so I could see whether my broken heart would get mended again.

So on to California Waiting and I Love it.
