The Dom with a Safeword Sorcha Black , Leia Shaw , Cari Silverwood

Late at night, on an amateur ghost hunt, Sabrina and her best friend Q are caught trespassing by the gorgeous, blonde Jude. The embers of attraction between them sizzle when they discover Jude's kinks match their own.

Jude is a Dom on his last summer of freedom before starting the prison sentence that is med school. Q is a bad-ass bi switch who knows what she wants, and for years it's been her cute, doe-eyed straight friend Sabrina. But the only way into Sabrina's heart and panties may be with Jude's fist wrapped in her hair.

Domming the bratty Q and mischievous Sabrina isn't going to be easy but Jude relishes the challenge. At the end of the summer, will they find a way to stay together when everything is tearing them apart?

TheMadHatter says

I usually read anything that Leia Shaw publishes. I like her writing style. I love her dialogue. I enjoy her characters. However, when I saw this book I decided against reading it as the idea of three authors working on one book sounded like a disaster and I didn't like the previous book she co-authored in the same genre as this one.

However, a few people recommended it and I wanted a light book to end my year's reading challenge (especially as the previous book I read was a bit depressing). Unfortunately, this book was not for me. The ratings of this book are really odd. A few 2 star ratings and lots of 5 star ratings. It is quite bizarre the polarity that exists.

So why didn't it work for me? It actually had nothing to do with three authors writing it. It read as if there was only one author and flowed quite smoothly. What didn't work for me was the following:

1) The title. It is dreadful. I mean DREADFUL (and yes that is IMO). There is that whole issue with wanting a bit of privacy in your reading and I usually am reading while I am looking after my kids and don't want to get into the whole "What does that mean mummy". Thank-god for Kindle! But mainly, it is just cheesy. It makes me grimace and think they are trying too hard with that title. Eeek. Again - most people seem not to mind it.

2) The characters. Sabrina was beyond painful. Seriously bad character. Was she over legal age? I tell you what....she was mentally and emotionally delayed if she was. Sorry. Some of the stuff she said and did just makes me wanted to throw the book (again...kindle ensured that did not happen). The dialogue she was involved in was just cheesy and so so so not what I expect when I pick up a Leia Shaw book. Where is that witty, MATURE sarcasm gone.....:-(. Jude was average - but an overall weak lead. Q was probably the most interesting - but maybe I just thought she was the saving grace in a lot of cheesiness. I tell you though, as much as I like Q, if I hear the word "Little Girl" one more time - AHHHHH. Again. Bad bad dialogue.

3) Sabrina being a Ghost Hunter.....hmm. Don't get me started on that one. I get it. This book was suppose to be light and cheesy and poking fun at itself. It just could have been so much more. It could have been edgy

and ground breaking....why bring this in?

4) It had an unfinished feel to it. For example:

"She changed her settings so she appeared offline to him. It was either that or they'd keep chatting all day".....ONLY THREE SENTENCES LATER....."She thought of ignoring him, but he could see she was online". Is it just me that finds that confusing? There are a few of these that just give it a bit of an unpolished feel.

5) I hate the term BRAT. I know this is now the name of the series - but it just has that teenage, UNDERAGE feel. So actually it probably works with Sabrina. And yes, I know that is terminology relevant to the genre (well I didn't know it when reading it, but looked it up as it was annoying the crap out of me and realised that it has a set meaning - see...I learnt something ;-). Just annoyed me.

Given the very high rating this book has received, I would say I am in a minority with this one. I just can't do cute and fluffy and silly. Congrats though on a great group effort. It really did seem like one author. I have been meaning to track down some of Cari's work as I have heard good things - so feel free to recommend a starting point with her work).

Oh and thanks for being the book that completes my reading challenge :-)

Silent_count says

If there's something strange in your neighbourhood, who 'ya gonna call?

How could you not love a book which opens with a quote from the title song from Ghostbusters? That little, seemingly inconsequential quote serves well to set the tone for the proceedings because this book is a curious creature. It's giddy and exuberant... and it's contagious.

Most of the intimate things we do are, at best, a tangential to procreation. We kiss, hold hands and make out because they're fun. Sadly, somewhere between real life and the written page, that understanding gets lost. Most books treat us to descriptions of acts and arousal and orgasms, but what's lost among the sea of words is the feeling that the characters are enjoying what they're doing - that they're actually having fun. That is something which this book gets oh-so right. There's kink and steamy sex aplenty but never any doubt that the characters are enjoying themselves, and each other. And it's that atmosphere which makes this book a joy to read.

I usually like to counterbalance the 'niceness' by telling you what's wrong with a book. Well, I don't like the title (yeah, that's about all I've got). The notion of a dom needing a safe-word is imposing and intimidating. The title is scary but, rest assured, this bunny doesn't have fangs.

You know the fluffy rom-com you won't admit to liking but secretly love to pieces? That's this book. I'd say it's a guilty pleasure read but to hell with that! Sometimes it's good to relax, take a deep breath, and smile. :)

Cari Silverwood is one of my favourite writers. This one is a little lighter than her other works (possibly as it is co-authored) but I still devoured it in one sitting. I loved all of the separate characters but I adored Jude for allowing these two women to finally allow themselves to express their feelings for each other. Yes there is FF contact in this book, in fact there is a lot of it, but the emotions that are apparent in every word, make these scenes incredibly hot. It is clear that they are all exactly where they want to be.

Q is probably the character that I liked the most in this. Both Sabrina and Jude had a definite end point for the relationship in their head but she was truly dreading it. Just out of an abusive relationship, Q is a Switch who has to be Dominated roughly. She has to be chased down, has to be pinned and had to be beaten; Jude stepped up to the plate in this book. The other side of her wants to Dominate Sabrina. For a while, I hated Sabrina. She knew about Q's feelings and really did little to discourage them. It was selfish behaviour towards someone that she counted on as her best friend and it truly pissed me off. It never deterred Q though, and she saw her opportunity with Jude and grabbed onto it with both desperate fists. It was she who instigated the IM chats, she who instigated all of the meetings and she who was the driving force of the direction that it took. She had so many emotions riding on this relationship, I knew that she was going to take their end badly. It was like watching a disaster unfurl on the pages in front of me. On a side note her ex is a douche. Like a horrible character to read about....I really wanted someone to kick his ass.

Jude doesn't want to give up being a Dom but he feels that he should to be a Doctor. Someone needs to sit that man down and tell him how kinky Doctors can be. When he meets the two girls, he feels all his Christmas's have come at one (a FFM ménage with whips, handcuffs and fetish wear? It's like it was written by a man!!). He is so considerate to both of their needs, so conscious of pleasing them both that he is truly awesome to read about. He didn't balk at the lengths he would have to go to Dominate Q but also was a conduit for the girls to be with each other like they really wanted. He was just *swwooon*. I laughed out loud at the scene where they are all at the club and someone wants to take a picture of Jude proclaiming him his hero; men are crazy creatures! Sabrina was the character I had the most problems with. I understood her reasoning, but it made her selfish. The only time I truly liked her was towards the end of the book. She kept it together in the face of pure craziness from everyone else...she grew stronger and it made me a happy bunny.

The sex scenes in this book are of the standard that I expect From Cari. They are emotive, tense and panty-drenchingly hot ... I fucking loved them. I've read enough GLBT erotic fiction to know that the FF scenes were not going to bother me and they were some of the hottest in the book; the forbidden love that exists between these two is so beautiful to read about.

This book is fun, captivating and hot, hot, hot! With a Dom strong to take on two subs and a pair of subs who love to sass their Master, it's exactly the kind of read I was looking for. Well done Cari, Leia and Sorcha....you've wrote a blinder J

Nerine Dorman says

I'll come clean from the start and say that I was a beta-reader for this novel, and loved every minute of it. Three authors might seem like a bit of a handful when it comes to writing one story, but Leia Shaw, Cari Silverwood and Sorcha Black certainly have chemistry and sparks in all the right places.

Although there were a few times where I did notice a bit of an unevenness in style, the ladies hold everything together masterfully. What I especially appreciated was the authenticity of the characters' voices. Each has a history, has hopes, aspirations. As readers, we walk with them on a path of self-discovery.

Jude must decide whether to follow in the footsteps of his father, and study medicine – and put an end to his somewhat bohemian lifestyle of renovating houses. Sabrina learns to step beyond her somewhat conservative upbringing and taste forbidden pleasures. Q's dark past casts a shadow on her future happiness.

If you thought a couple had its complications, try a threesome – but this combination also tantalises the senses, and Jude, Sabrina and Q create a beautiful dynamic as they explore the boundaries of their relationship. Their interaction is an absolute treat to experience, and this is tempered also by a touching romantic subplot. The ladies have paid attention to detail to their setting and the support characters – and these small details help to cast their world into three dimensions.

I must make mention of the dialogue, and the instances where the characters to-and-fro comments made me smile. Another added quirk was Sabrina's obsession with paranormal investigating, which added a fun, light-hearted angle, especially in the séance scene. I almost wanted there to be more of a mystery theme to the story, and further development of a narrative, but that would have driven this into the realms of a doorstopper, and not the hot, tasty bite this novel is.

The Dom with a Safeword is a sweet yet kinky read, and if this sort of stuff blows your hair back then I recommend this title whole-heartedly. Scorching hot at times, yet with a gentle touch. Perhaps what I appreciated about the novel in its totality is that the ladies kept it real. Jude, Sabrina and Q could be that curious trio living next door to you, while you had absolutely no idea what goes on behind closed doors.

5 out of 5 Licks

If you are a fan of BDSM or Ménage books I recommend checking out these three authors because you won't be disappointed.

Sabrina and her best friend Q are out ghost hunting and happen to end up at what they think is a deserted house. They are surprised to find Jude is living there and spending the summer fixing it up before he goes to medical school. Jude is a Dom and worried medical school will get in the way of his kinky side. Q is bisexual and a switch and secretly in love with Sabrina. Sabrina is scared and confused about her feelings for Q and curious about the lifestyle. With all of the obstacles they have to overcome can these three find love

together?

I loved this story, it has a bit of everything, it is sweet, funny (love the brats) and all three characters have scars that make loving each other hard and scary. Oh and trust me you won't forget the super-hot sex! If the weather is cold where you are this book will keep you nice and hot. Looking forward to starting the next in this series. Enjoy.

Cor Cordium says

4 1/2 STARS...rounded up to 5

SOME SPOILERS

I really like this...a lot! I'm not really a fan of BDSM books, mainly because most, in my opinion aren't well written or I can't get into the characters heads.

In Dom with A Safeword, I really enjoyed the characters. At first, I was a little uncomfortable with the relationship between Q and Sabrina. I'm not particularly a fan of FF type stories - because like many BDSM stories, I don't find them to be well written or relatable. But any awkwardness I felt melted away when Jude entered the picture.

Ahhh, Jude...I loved him. I loved how he explained everything to Sabrina and with each step, reminded her that it was okay for her to stop. Also, that he was very perceptive to Q's need to control and feel needed by both he and Sabrina. He was very loving, careful and sensitive to both of the girls desires and needs.

Other similar themed stories just seemed dark in comparison. He was the complete antithesis to what I've experienced in the genre. I loved when Q called him Sunshine. To her that is what he was because she had only experience darkness in any of her previous relationships. He was aware of this and wanted her to feel beautiful and loved.

Although there were definitely moments that I was completely annoyed by Sabrina and the story was very slow in the beginning, there was more right than wrong.

Well done!

Marisella says

This is an incredibly written story about two girls; one bi, the other is convinced that she is not only straight but hates sex. They fall in love, with sweet perfectly hot and Dom-y Jude and each other. Just a great story, and a wonderful read. I would recommend this to anyone, and will be looking for more like this

Brandy says

I loved it! Talk about hot....damn I need a fan lol

Rosebud says

Jude just wants to spend a relaxing summer by himself before he has to start med school when he discovers two girls trespassing on his property in the middle of the night. Doesn't anyone understand that he just wants to be left alone?

Sabrina and Q, roommates and best of friends, are searching for concrete evidence of ghosts when they're caught trespassing and sent on their way. Q doesn't want to disappoint Sabrina so she finds a way for them to get back into Jude's home only to discover that he's a real life BDSM Dom who doesn't have any problems handling two bratty girls who want to explore a D/s relationship with him and each other.

This light hearted but highly erotic tale with a mff theme was just what I needed right now. I have been reading some intense, complicated, and emotionally draining reads lately so just letting a story take me away and experience the journey surrounding the three central characters was so refreshing yet stimulating enough that I was never bored. It was interesting to see how each role in this relationship developed over the course of the story and how that affected the climatic ending.

The only letdown I had was that parts of the story were not developed enough to suit me. First, the girls were amateur paranormal investigators yet when actual evidence is obtained this part of the story dropped off. And I did have concerns with the way that was addressed. Then there was a bad guy slant in the story which really irked me. I soooooo wanted to see more to highlight this part of the story too but, alas, I didn't get my wish. Sure the erotic BDSM action had me taking a few convenient breaks to cool off but I am one who wants the plot to also shine.

Overall this book was a success with the authors putting out a book that had laughs, sexual tension, awesome mild/medium intensity BDSM play between a Dom, switch, and sub, and a story that will appeal to both women and men readers.

carol says

I quite liked this story, light hearted at times, serious at others, romance and bratty subs and a Dom with amazing tolerance and a sense of humour.

It is a ménage story with supposedly straight, Sabrina, encouraged into her submission by bi switch, Q, and an adorable Dom to both girls, Jude.

Needed a light BDSM and a HEA end read right now, yet still with some angst, and this has these elements. It also reflects what for some is a difficult step...coming out of the closet to close and extended family, and also reflects two views...the intolerance and prejudices of Sabrina's family and the unexpected acceptance by Jude's mother. I like how this was portrayed.

I know some dislike bratty subs, but the quick witted comments and actions of Sabrina and at times Q was refreshingly different. It also has a scene that shows the need for safety when playing scenes with unknown people and how some claim they are BDSM practitioners but are abusers hiding behind the BDSM umbrella and give real caring BDSM practitioners bad press.

There are a few typos and I rate this as borderline 3/4 stars as stands, and I will get the rest of the series.

Guilty Pleasures Book Reviews says

Angeline's review posted on Guilty Pleasures Book Reviews

5 Stars

The collaboration of authors Cari Silverwood, Leia Shaw, and Sorcha Black is a three-some made in literary heaven. They do a fantastic job telling a great story that I loved.

Best friends and roommates, Q and Sabrina, constantly live with their attraction for one another. The two, sexy women meet Jude during a night of ghost hunting. Jude is only in town for the summer. A friendship begins and the three quickly agree to explore a BDSM, three-some relationship (FFM). Can they keep their hearts out of the mix? Or will someone get hurt at the end of summer?

The three main characters (Jude, Q, and Sabrina) are wonderfully written. I cared about them all, yet felt an extra connection with Sabrina. Her antics and humor had me laughing throughout the entire book.

Q was funny in her own right. She was also a tortured soul and my heart still breaks for her. When I began the story, I questioned her knowledge of the lifestyle. As I learned more about Q, her behavior made perfect sense. I cried for this tough and lovely woman. At times she was self-destructive and others she was gentle and loving.

Through most of the story, I felt like I knew Q and Sabrina quite well. Although I really adore Jude, he seemed to be the third. Kind of just there. Oh, he was a very active participant in the smokin' hot sex scenes. I knew he was a great guy throughout. I never questioned that. I was so happy when we learned more about him. However, I do wish it would have been a little sooner.

The three weather many ups and downs – together and apart. Abuse that will make you cringe and seemed all too real. Questionable choices, self-destructive behavior, beautiful friendship, off the charts sex and, finally, love. I will be waiting impatiently for the next book these three fabulous authors are currently writing.

Dom with a Safeword is a fun, sexy read that will make you laugh, cry and need a cold shower... all at the same time!!
