The Beast's Bride

Jill Myles

The Beast's Bride Jill Myles

When an unfortunate crash down the stairs takes Pippa's life, her fairy godmother steps in and offers her an otherworldly task. If she can convince the Beast of another magical reality to marry his Beauty, Pippa will have a new life and won't spend eternity haunting a parking garage. Sounds easy, right?

Of course, any task assigned by fairy godmother Muffin has its challenges. Belle's kind of a dunce, and the Beast isn't exactly the cute and cuddly Beast of the movies. But the more time Pippa spends with him? The more she sees that maybe he's not so beastly on the inside...

How's Pippa supposed to convince Belle to marry the Beast when she wants him for herself?

This fairy tale retelling of Beauty and the Beast contains a fairy godmother named Muffin, a beast in an enchanted castle, some sexy chess games, and a stepsister who's wicked in all the right ways.

Elaine says

[H is virgin, haven't even kissed anyone. h is not. I wouldn't call "o/w drama" because technically Duncan (the H/beast) wanted Pippa (the h) since almost the beginning. The h did push the H away until the end tho. But the H was so perfect IMO. (hide spoiler)]

Shawny J says

Cute easy read. It's not like you didn't know where it was going to go. There were some editing flaws that kept me from giving it 4 stars but I would definitely look up a few of the other books in the series the next time I'm looking for something fun on the weekend.

Katie Reus says

Such a fun read and good way to kick off 2015!

Ana Perkins says

This is not your average beauty and the beast story witch was a plus but with some small negative for me. I'll love retellings of this story and I try to read as many different versions as I can to help other like me try to find a good quality version. Please note my review will probably spoilers.

What drew my attention to this book was the fact that I saw the set up as completely original and quiet brilliant, in the first chapter we learn that our heroin (Pippa) is dead and not only that but if she does not solve a fairy tale case by the end of the month, she will spend all eternity haunting a parking garage. I found myself feeling bad for Pippa because not only is she staring at herself dead on the floor but people are walking over her corpse or admiring her underwear.

She takes the case and discovers she most take over the role as the wicked stepsister of the beautiful but stubborn air headed Belle, who has a warm personality but is a total brat. I love this sort of Belle because I have never seen this side of before and I hope to see one day see it again because you either love her or you don't.

This book as mentions the Disney version of this story often which I find hilarious and ironic. this is due to the fact that it reminds me how often I have read version of the same characters based on that movie, which this not. at least for the most part.

I will leave the rest up to you to read because I want you to read it but here is some warning that I completely missed and I want you to know so you want be as shocked and uncomfortable as I was. I thought this was a teen lite, this is definitely not. I nearly took of stars due to this but I realized that, that would be unfair due to fact their were signs but I was to excited to read it to notices It can be quite graphic and detailed, I guess you can say, in a few scene especially the night before the wedding due to me feeling uncomfortable about reading these due to my age and uncomfortablness over the issue Ignored it and continued reading were it left off because the book is good and cheap on the kindle. I'm I angry or disappointed in those scenes

because I feel that should not be added, no because it is a romance novel and I'm okay with the authors choice due to the fact that I am okay with skipping a chapter or two because I can still get the story. Do I recommend this under the age of 18, no just because I know that it should be read with caution due to those scenes. Will I probably read more of her books in the future yes because now I know what to expect and I can avoid certain scenes.

In the end the wrighting is good and the characters can be funny and creative and if you don't want to take my word for it read it yourself and form your own opinions about it.

Dawn says

Note to self: Trusted friend stated heroine is annoying and ruined the book.

Mel says

Beauty and the Beast is my favorite fairy tale so when Jill Myles did a re-write of the fairy tale, I had to read it. The Beast's Bride is a quick read and I enjoyed it, but it is not Jill's best work. I do, however, recommend the book for anyone who loves happily ever after books or Beauty and the Beast. I truly believe you will enjoy the read.

Susani says

2.5 stars

Natasha says

Such a sweet and beautiful story.

Nina says

I gotta bow down for Jill Myles for this one.
Sick of the stepsister got the end of the stick?

Well then, you won't be disapointed reading this one!

Pippa was one wicked stepsister who saw the Beast for what he was. A lonely man rather than the voracious beast who ate raw meat. He was also liked chess and always beat her ass on that game.

I've cheered for this pair since the beginning, and I was really sad because I wished the story was longer.

When I finished reading it,I was like...Hell Nawwwww!!

This is what a good book should be.

Celestine says

I'm a big fan of Beauty and the Beast adult fairy tales, but this time/dimension travel version just wasn't my favorite. Pippa is crass and casual, and I just couldn't connect with her or the relationship between her and the Beast (Duncan). The twist is that to avoid eternity as a ghost, Pippa is supposed to facilitate a relationship between gorgeous airhead Belle and furry and furious beast Duncan. She is aided in this venture by the extremely annoying fairy godmother, Muffin. Anytime Muffin was on the page, I skimmed.

We're told Pippa and Duncan grow closer over time, but the evolving relationship had an unreal, narrating quality to it, and this keeps the reader feeling distant from the couple except when they are macking on one another. (Macking is a word Pippa would have used). Sadly, we don't even get to see Duncan act like a hero except one time scaring off some giant rats. Pippa is wordly and experienced next to the virgin prince, but he has nice woo. Of course they fall in love, and the tension builds as to how Pippa will manage to accomplish her mission without leaving all parties heartbroken. Myles kept me turning the pages because I wasn't sure how she was going to accomplish a HEA, and as you know, many traditional fairy tales end far from happily.

SY says

3.75 stars. I was grossed out that she had sexual feelings for him. I thought that would come later after he was not a beast. I've read beauty and the beast adaptations before so thought maybe he'd be scared or would have a 'beastly' attitude. nope, he's a beast. Other than that the book was funny and interesting.

Dotti Elrick says

A quirky twist to the Beauty and the Beast fairy tale. It was fun, a bit different, and very sexy.

When Pippa's life comes to an early and unexpected end, her Fairy Godmother, Muffin, gives her a choice; stay a ghost and haunt the Volvos in the parking garage, or take an active role in seeing a fairy tale to its happily ever after conclusion. She has thirty days to get Belle to marry the Beast and break his curse. Sounds like a no-brainer, right? Little did she know she would be stuck with a Belle who is beautiful, but also bit dim-witted, very conceited, and self-centered. And a beast that is straight out of a nightmare. This is definitely not Disney's Beauty and the Beast.

This was a very quick read. Funny and sexy.

Brittany says

For readers of P.C. Cast you really need to give this series a shot. This is book 2 in the once upon a time series. This one takes on the tale of beauty and the beast. The main character Pippa was kind of awesome. I

really could not stand Belle at all but this was a great take on one of my favorite fairy tales. Looking forward to the next one!

Melindeeloo says

Well, I wrote a nice review and lost my edits- and don't feel up to fighting with my fire keyboard to reproduce it - so, here's the bottom line... I liked this twist on Beauty and the Beast, once the obligatory setup with the annoying fairy godmother, Muffin, is finished - can't stand her.

The relationship with the Beast is well done from simple kindness to friendship to more and is by turns sweet, steamy, sad and satisfying. The fact that the Beast doesn't always get a HEA in his fairytale plays a definite part in the story. As a warning, there are intimate moments for the Beast when he's furry, I mention it because it does put some people off.

So, I liked this enough that I am tempted to give Myle's Little Mermaid twist another chance and hope that the ending of that one makes me happy too, since I liked her Scarecrow King too.

Melanie says

The "Beauty and the Beast" fairy-tale trope is one I always enjoy and this is definitely a unique take on it.

Sexy, funny and very cute, this is by far my favorite of the fluffy 'Once Upon a Time-Travel' series.
