What can I say, this series is my addiction, my guilty pleasue. This is truly the best series ever, you can feel the emotions coming off of the pages. I cannot get enough of The Diaz-Giacanti family! each book reveals another layer of the clan that just sucks you in as a reader. I really hope HBO or some network turns these books into a series, It would be amazing to see!

I am so tempted to give this book a 2.5 because i am disappointed about the coupling and still mad about the progression of the storyline. I was also hoping the series would end with this one bc i dont want read anything about Geo and his new wife. i didnt like the way this storyline was handled and i never saw cause to why Shanda was kill just to make Geo move on in 7wks. What type of BS is that, Nico might have been a cheater but i dont think or Alfonzo wouldve moved on like that. Its disgusting.

Jessia stated it best,

Mo' money, mo' problems. This new family member has caused a lot of trouble. The fall out would be another series but I hope not. I've enjoyed the history woven into the stories and the growth of the major characters. I'm still team Nicolo & Ariana just be caused their relationship has no power issues.

SPOILERS*****

Before I get into the plot I have to get my views of the characters off my chest first.

I have been a fan of this series from the start having said that I still have mixed feelings when it comes to Solange and Shanda. Shanda I especially have never warmed up to. She's too abrasive and insecure. That bitch slap she got from Ari was a long time coming also Ari assessment of her was pretty accurate. I'm still trying to wrap my mind around Nico's need to continually cheat on his wife. I get why a man like him would be attracted to Bianca however he's married. One should seriously consider if such a man has earned the right to have his cake and eat it too. It's pretty ironic that a man who is so uncompromising when it comes to enemies of the family regarding loyalty, trust, and honour continually does the opposite when it comes to his personal life. Geo has come a long way from the dick swinging, gun toting, loud mouth from the first book. He's an ass but he continues to be my favorite character because unlike others in the family he doesn't try to front and be something he's not. Also he's shown growth by end of the book unfortunately it comes a too late. I've always liked the sculptor has a better match for him and I didn't like Solange's strong arm tactics when it is Geo who pursues her. Alfonzo is still my man but I found myself skimming through the pages with him and his Solange because it was way to sugary sweet for my tastes. Okay I would just like to say I love Sophie's story! It's not often an older woman gets much attention or an exciting story in most mafia books like this. Go on girl! Okay onto the plot.

Overall it's not my fav book in the series and overload of information regarding history and current affairs was too much. There's an assumption that the reader doesn't know what's going on or not enough. I get the need to inform people but too much of it will have the reader skipping through most of it wanting to get back to the story. It bogged down parts of the book and I was skimming through all of it whenever I came across the history lessons or the overly long inner monologues of the characters. A suspension of belief a given rule when reading fiction however the rescue in Africa was a bit too much and had me shaking my head and laughing.

I am still a fan of the series and will continue to read it up until the last book which I understand is coming soon :(

Back to the high packed action and this didn't let me down one bit. I can't get over how detailed and good these are, they stick to the story and the pieces come together more and more. Not surprised with Ari at all in this one but I was starting to wonder just where Sergio was. I thought Nico would have a fit and put hands on him but the boys seem to be coming into their own. After their go with Yosef I think they need a ton more training just in case they need to step in.

Hate the guy in the beginning was taken down, for them to face the darker side of Semira would've been great. Amelda and Sophia held it down and didn't need to hide behind the guys to do it. Hopefully Selange will take this as a wake up and stop trying to rescue everyone. Glad everyone made it through this one and hopefully more of the story will come out with a solution so they can have some sort of peace. With any luck whatever Bruno is up to is for the good of the family and not some backstabbing bs, as well as whatever Yosef is up to. I'm ready for the record to be set straight so they can deal with it upfront and it all be out for the world to know the truth.

Harrietta P says

As always, this installment was great. I have followed the Alfonzo series from the beginning, and this book was right on point with the rest. I love her character development and she always keeps it real to the character(s). I will continue to support this author, as I love all of her novels thus far.

Suited Up

This is one of the best in the series. It is packed full of intrigue, danger, betrayals, revenge and retaliation. Alfonzo has to deal with it all. It's difficult when family members become betrayers. Still, they must be dealt with as enemies.

How does Amelda deal with Matteo's cheating and betrayals? Is she furious because he cheated on her or because he's implicated in her father's death? Shockingly, like Alfonzo, she handles things herself. She's cold blooded. Are Sophia and Yosef guilty? Or does Sophia think Yosef is guilty of harming her family? If so, how does she handle him? If Geo believes both of them to be guilty, does he allow retribution for Yosef as well as his mother? Why would Teresa betray Alfonzo through Selange? Is Bruno a part of the attacks on the Giaccantis? If so, what does Maria do?

We know that Anna is pregnant by Darren. How does Ari and Nico deal with it? Does Ari find out that Bianca is pregnant by Nico? Does she accept that Nico was deceived by his mother into thinking he had to protect Bianca, thus she became pregnant? Is she that weak for Nico or does she trust his word. Does Tony tell Tiffany what he really does for Alfonzo? Is Geo and Nicole developing a relationship? Who is Lorenzo and what part will be play in the family? Is Sergio maturing or he as foolish as ever?

From the Prologue to the Epilogue, this book keeps you breathless, shocked, amazed and even makes you laugh. On to Atavus!

Alfonzo???

I can't get enough of this series! The characters as whole are make up such a wonderful story. Can't wait to read the next

Mspraise50 says

Okay now we are talking. This book was action packed.

More Betrayal by family members no matter how caring Alfrozo and Selenge are to family they still end up betraying them.

Well Amelda shows us what happens when the Donnas in the family discover betrayal they will take out the very people they love. The ladies showed us what they were made of in this book.

It looks like Geo has found his match in Nicole. Glad to see him finally learning how to treat a woman he says that he loves.

5 STARS out of 5

Genre: Suspenseful Romance

Reflection..Family...Death...Love...Revelation...Ancestry... W A R.

When a grown man cries it's because there's something pulling so hard on him, and he feels either helpless or too damn angry to do anything else. The glistening of Alfonso's eyes were brilliant blue crystals on a bitter face. He didn't have any words; famiglia was falling, one by one like leaves on an autumn tree. The invisible fingers gripping his throat, choking and shaking him were not as injurious as the emotional blow he dealt himself.'

As I finished this book the first thing I thought was **DAMN that was G O O D**. The second thing I thought was **Alfonzo is one bad MOTHERFU**ER!**

I devoured this book in **one day**. And not just on any day mind you, nope, I did it on Christmas Eve the busiest day of the year. WHY? Because I had to know what happens next silly!

In Armored, love and family is put to the test and the result was **UTTER DEVASTATION**. Every character

has a platform in this story and you must read carefully to see who they really are. S.W. Frank delivered a jaw dropping book where you question everything you think you know about these characters.

I give Armored 5 STARS because it kept me on the edge of my seat from beginning to end with twists and turns that seem to either jack up your heart rate in anticipation. Or bring tears to your eyes due to the treacherous implications. The writing is top notch with an eloquent prose that can easily trip up a person who is not well versed in art, history and music **clears throat** REAL MUSIC aka classical music. (NOTE: that statement was not meant to put down other music genres, I consider classical music real music because it is done with live instruments not a sound board in a studio. It consists of stages, tempo changes and can be felt with no words telling you what or how to feel)

Unfortunately I can not expand further without spoiling the book so I will say this. READ THE BOOK!!!
