Blood Border (A Radio Detective Novel) M.H. Vesseur

The inhumanity of human trafficking is forcing the radio detective to make a stand. So in the midst of politics and public outrage, Carl Pappas and his team — producer Hitomi Sakamoto and sound engineer Don Wozniak — infiltrate in the trafficking cartel of a man known as The Clown.

But there is nothing funny about it, for the radio detective soon finds himself in the lion’s den, a place crowded with former narcotics traffickers and their violent ways. Will they be able to do something about the screaming injustice of immigration or will they become prey themselves?

BLOOD BORDER is an independent novel in the series by M.H. Vesseur about the business radio “detective” who is both feared and adored by the worldwide business community.
