**Out of the Grave** Burke Fitzpatrick  
A Reluctant Villain Saves An Empress

Demonic armies hold an empress prisoner, and one man will provoke their wrath to save her. The nations of the west struggle to unite against a common enemy while a dark sorcerer summons new horrors from the Nine Hells.

Tyrus of Kelnor finds himself in a strange land where angry nobles want his head and a devious sorceress plots to use him against his homeland. Escaping the demons of the Nine Hells cost him dearly, but he risk their anger once again to save the woman he left behind. Plagued by regrets, bad memories, and nightmares, he fights his way into a dark city to match wits with the most powerful sorcerer of the age.

## From Reader Review Out of the Grave for online ebook

### John Maynard says

Ok

Not as good as the first book. The change from perspective to perspective was not needed, focus on the main character and it would have been better. I don't care about the others as much.

---

### J. Tim Willis says

Nicely done

A really fun read. Good stuff here, well done. Keep up the good work, Burke! I look forward to the next one!

---

### Tara says

4 1/2 stars

I received an e copy of Out of the Grave from storycartel.com in exchange for an honest review. All opinions are my own.

Great continuation to the series. This story showed more of the strengths and weaknesses in Tyrus and Azmon. The author did a great job with Azmon. I have a love/hate relationship with his character. I'm glad the author showed Azmon's vulnerable side. The strength of Tyrus is tempered by his love for the Empress. The growing friendship between Tyrus and Klay enhanced the story. There were some fascinating aspects to Princess Merah and I look forward to reading more about her. There was enough action in the story to maintain the flow. This was a very enjoyable read.

I would highly recommend this story and will definitely read book 3.

I posted this review on other sites.

---

### Beverly says

This second book was a little slower and less action packed than the first but it is no less interesting because we get to know the characters and their pasts better and we get more involvement by the Shedim and Seraphim. It is a good second book.

---

### Glen says

I won this novel in a goodreads drawing.

This second book in the Shedim Rebellion series is a superior dark fantasy.

The forces of good and evil collide. The evil emperor, Asmon has created a new bone beast out of a powerful sorceress, who can take on the likeness of other people. He uses her to try to kill the good sorceress, Dara, and to steal back his daughter, the ReBorn Marah.

Things don't go so well for our chief fighter.

Looking forward to reading the third book in the series, which I also got as part of the drawing.

---

### **Tara says**

Still loving this series!

---

### **Christine J Randall says**

I received 'Out of the Grave' from Story Cartel in return for an unbiased review.

I love how this is a fully contained story (397 real pages) even though there is more to come. Like the first novel, the main characters reveal more about themselves as the story advances. Justification aplenty is given for their various traits: I even felt sorry for Azmon. I'm looking forward to the next novel, perhaps the little Princess will reveal more of her powers and what is going on inside her head. I really hope Tyrus gets his redemption by series end. Please, Mr Fitzpatrick, don't kill him off!

---

### **Blind\_guardian says**

The second part of the Shedim rebellion is the height of apocalyptic fantasy; we've already seen what's become of Elves and Men in this dark land, and now we finally get to see the Dwarves, first through Tyrus' memories, and then in action, as Azmon, the Emperor who would challenge the gods themselves, and make angels and demons his pawns, finds his efforts foiled again and again. First by Tyrus, the Damned, who true to his legend, is nearly impossible to kill.

Then by the Father of Lies himself ... the Black Gate is already open, and the White Gate is under seige. But the Light has weaponry even Azmon can not predict, and the Third War of Creation promises to be a harsh one indeed. Into this rises Lilith, an undead abomination that threatens to upset the balance entirely ...

Looking forward to reading Book 3!

---

### **Kevin Harrington says**

Wow what a great read. If you like fantasy at all you will love these 3 books. I am not a writer so I cant write 14 paragraphs on the pros and cons and dissect the authors failures or triumphs. Again, simple review is read these books and I will definitely be adding them to my favorites shelf.

### **Elizabeth Harris says**

Out of the Grave is an excellent continuation of the series. The writing is superb and the story is captivating. The characters are intriguing because of their imperfections, and I can't wait to read more.

---

### **Milan says**

Nice sequel to a good first novel. Didn't expect Einin to die even if she was a silly character. Tyrus is a complex character and I hope he gets reunited with Ishma, but I would have liked it better if he stayed with Marah.

Overall a pretty good book but there are still some issues.
