The Lust List - Take Your Pick

Hayley Wade's rock star dad just partied himself into an early grave and left Hayley with a pile of dangerous debt. She plans to pay it off, but her drug-addled father wrote an impossible task into his will: to inherit his wealth, Hayley must steal back a family heirloom he lost to a gold digger.

Kaidan Stone grew up surrounded by the world's biggest stars, but never wanted to be in the limelight. When he makes The Lust List, he becomes America's newest celebrity obsession overnight.

After Kaidan saves Hayley from a run-in with the aggressive paparazzi, sparks fly, and she discovers the heirloom is in his California mansion. It's the answer to all her problems...but she'll have to betray Kaidan to get it.

ButtonsMom2003 says

A good serial; keeps me wanting more.

When I read and reviewed the first installment of this serial, One Condition, I wasn't sure how I would feel about reading a serial. Well now I understand a little better how readers can crave these things. I really got into this second installment and eagerly await the next one.

There are still a lot of unanswered questions about Hayley's and Kaidan's pasts, and their relationship, but that is to be expected since there are two more installments left in the serial. This story explored their continuing relationship with each other and Kaidan's past with Peyton MacKenzie. There is quite a blow-up between Hayley and Peyton at a public event.

Once again, if you enjoy serial books with hot, young characters you should enjoy this one.

ARC received from author in exchange for an honest review and because of that I must say that I'm not sure how I would feel about paying \$2.99 for this installment even though I really liked it a lot.

Kay says

Hayley is on her quest to retrieve the family heirloom lost to one of her Dads lovers. She discovers it in Kaiden Stones mansion, worn by Serena. When Kaiden and Hayley meet sparks fly. As time goes by her situation becomes dire and Hayley finds she's falling in love with Kaiden!

Tangled Trust picks up where one Condition ends. Nova's writing style flows across the page, its smooth and so easy to get into to the story, the plot flows effortlessly and its very hard to put down once you start reading. Once again Hayley meets with her lawyer whom I have to admit that there's something off with him, he comes across as a slimeball. A revelation from her brother just adds to my suspicions. Hayley's brother doesn't come across very well and is the product of his father, no matter how much he tries to distance himself from all that was once his Dad. Their relationship is strained and I have to say I didn't take to him well but would love to see the relationship mended and Rowan eat humble pie! As Hayley's relationship progresses, Peyton's behaviour unravels, I cannot wait until Hayley gives this book bitch what for!

As before we are left on a cliffhanger, desperately wanting to know what's next. I'm personally hoping Hayley opens up and confides in Kaiden. What secret is Kaiden keeping as well? I desperately hope KaiHay get their HEA. Normally a book split into numerous smaller parts as this one is would be a big turn off for me but I find myself loving this story so much I cannot let it go, my usual annoyances go ignored. I cannot wait for Stolen Desire to be released. Well done Nova, another gripping installment!

I fully recommend this series to anyone who loves a great romance with a twist, a book boyfriend to dream of and a book bitch we'd all love to slap!

Beverly says

3.5 - 4 *Lust List Stars*

Okay, so I will start by saying this one seems to be going all over the place. But as someone who used to spend a lot time reading Us Weekly and watching reality television shows, I can't turn away from this story about a Hollywood heiress who has fallen. Since her father's death things have just gone from bad to worse.

In this installment, she is continued to be threatened by drug lords and struggle with being poor for the first time in her life.

Her attraction for Kaiden Stone is also growing, and he seems to be very interested in her as well, but are his feelings genuine?

We still have so many questions to have answered. I am really enjoying this one, my only complaint is Hayley. I wish she didn't put herself out there so much. My heart hurt for her at the restaurant.

I am excited to see what happens next with Hayley.

Lisa says

ALSO STILL NOT IMPRESSED WITH KAIDAN STONE.

Vem Night says

cringe

Claudia Cardoz says

This series just keeps on getting better and better and I'm devouring them like crazy. I love Kaihay.....Now onto the next book in the series..

Sarah says

I was kindly provided with a copy of Tangled Trust to read and review.

Everything's broken in L.A. Including me.

This is the second instalment of The Lust List: Kaiden Stone series giving us the continuation of Kaiden and Hayley as they struggle with their mutual attraction, debts to drug dealers and major family issues. I found this one to have much more depth and personality to all the characters but especially Hayley and I really did feel my heart go out to her more and more as she is seemingly being used or abandoned by just about everyone in her life. Sometimes I just want to yell at her and tell her to leave everything behind and never look back, sometimes people just aren't worth the heartbreak.

There are these fleeting moments with Kaiden, where I feel completely at ease and calm... but I have no idea how to capture them and keep them.

Rowan, Hayley's brother, was a very welcome new addition to the characters. He seems to have a very set opinion of her and I wonder if maybe their father was actually very manipulative with the truth when he was alive, I'm looking forward to getting to read more about their relationship in the next book. Charlotte, Hayley's best friend, pleasantly surprised me too as she had much more understanding and compassion than I had hoped for after meeting her in One Condition.

This was a short read but a great addition to the series and although it leaves you with more questions than answers and on another cliffhanger it draws you in and makes it very easy to care about Hayley and Kaiden. This is a series definitely worth giving a go, it gets better and better as it goes along and I can't wait for it to continue in Stolen Desire. Will Hayley find a way out of her predicament? Is Kaiden hiding something that will destroy things between him and Hayley? I can't wait to find out.

I admire how easily he masks his true feelings, but it's a little disturbing at the same time. Because... how can you trust someone who can hide how they really feel so easily?

Keya says

Okay, so Peyton I really don't like you. And Also, Hayley's brother Rowan is kind of a dick. There's a different side to Kaidan in this book but Peyton just slipped that he's hiding something. And the mystery that is Kaidan Stone continues. Overall, this is getting very interesting. I hope Hayley figures things out!

Review forthcoming on <http://a-reader-lives-a-thousand-live...>

I received a copy of Tangled Trust in exchange for my review.

Having been left feeling alone and rejected after Kaidan called her the wrong name, Hayley can't seem to avoid him and his unnerving gaze. Agreeing to go to lunch with him doesn't sound like a good idea, but before Hayley knows it she's agreeing, and finding herself once more entwined with Kaidan Stone. But playing on the back of her mind is the fact that she is broke, until she can fulfill the condition to her father's will and steal back the diamond that he gave an ex-girlfriend, the same woman who is currently dating Kaidan's father...

[Link to amazon](#)

Tangled Trust takes you right into the lives of the rich and famous...or in Hayley's case she could be rich and famous. Everything seems to be going wrong for poor Hayley, and I can't help but feel sorry for her, especially as she does the very human thing of keeping it all to herself, and even more than that, she actually has no idea what she's going to do to solve the problem. It makes her incredibly human, which I think is necessary when faced with the world of award ceremonies, paparazzi and incredibly attractive men!

The chemistry between Kaidan and Hayley is off the scale, and even though they keep having blips in their budding relationship, both in the previous book and in this one, there is potential for them there. In fact it is these blips that make them more grounded as a couple and more believable to the reader.

I really like the inside look into the lifestyle that Kaidan and Hayley are living. Especially as Hayley is only famous (well half-famous) because of who her parents were, something that does seem to bother her to some extent, and has had an affect on her brother, Rowan, who is quite dismissive of her. Kaidan on the other hand seems to have a lot of expectations on him as the son of a famous record label owner, and the nuances of how they're dealing with it make the story.

I'm still not sure what to make of some of the side characters, they're certainly well written that's not an issue, it is just whether to like them or not. So many of the characters that have appeared in The Lust List aren't black and white, whether they're main characters like Hayley, or side characters like Charlotte or Calvin Stone.

I remain completely intrigued as to what is going on with the necklace now!

This book counts towards Winter COYER

Teri says

I received an advanced review copy from the author for a honest review.

This is such a wonderfully written series!!! I close my eyes and I feel like I'm in KaiHay land!!!

Hmmm.... I really don't think all is what it seems. Kiadan always had the right things to say. His actions at times are very suspicious. I'm hooked.

Her dress... it sounded beautiful. I'm thinking a flapper girl perhaps??

Rowan... love that he's a man whore ;) Hope we get more of him!!

The ending didn't pack the punch that I was hoping for. Regardless, this was a great follow up to One condition!!!

Komal Chandwani says

~Trouble, trouble 'round the house!~

In this second book we see that the book has progressed and something I didn't expect. It was a good surprise to know that this time the attraction was truly from both side. Our main characters want each other so much.

This time Kaidan stands up for Hayley. And she no longer feels like a doppelganger. She feels empowered for some reason and keep her head held high. This is one part of the story.

On the other hand, she has a brother who just got into some deep mess. We see that Hayley visits her brother here and how he brushes her off. The gang is still behind her for money and since she is unable able to pay, they take a turn and cause harm to her dear one. (I won't reveal who. To find out, kindly read the book).

Tangled Trust has got me further hooked and curious. I sincerely hope that Nova releases the third book soon <3

Dianne says

2.5 stars. :-/ I read it all at once so I'm gonna review it all at once. The plot points in this book were resolved WAY too easy and predictable. It lacked the angst I was looking for. Then the story became a repetitive cycle. They get together, Kaidan treats Hayley like crap, then Hayley threatens to walk away, then Kaidan sort of apologizes for being an ass, then they make up, and finally Hayley feels guilty for not telling Kaidan her secret, and the cycle repeats over and over. It did become dull. But what I did like was when Kaidan and Hayley did finally become a couple they were sweet together...well for the most part.

Janice says

Review of Tangled Trust: Kaidan Stone #2 (The Lust List: Kaidan Stone) by Nova Raines

Things are heating up for KaiHay

In this second book, Hayley is still smarting from what happened with her and Kaidan at his Father's party. She is even more depressed over her financial situation and frustrated with her brother not responding to her calls. She has been called to her lawyer's office and while trying to lose the SUV following her, she ends up getting a ticket for speeding and her broken window.

Kaidan has an office in the same building and when she tells the receptionist that she has an appointment with her lawyer, she is led to Kaidan's office instead. He tries to apologize and asks her to go to lunch with him, which she refuses. She goes on to see her lawyer, just to learn that a fourth of her inheritance has been lost. I don't know that I trust this lawyer - I think he is trying to rob her blind and that he might be in cahoots

with someone else.

Hayley has so many problems in connection to her Father and her brother, but she is trying to make it on her own. Her trust issues are not calmed down by Kaidan and his ex, which leads to further hurt and pain by the paps for ScandalLust. Again, most of this book is told from Hayley's POV. There is still a lot to learn about Kaidan and what he may be hiding, so I will be waiting anxiously for the next book in the series.

Remember, this is a serial, so you might want to wait until all of the books have been released, but I would definitely recommend this series from Nova and Mira.
