A Nonfiction Companion to Magic Tree House #16: Hour of the Olympics

Magic Tree House Research Guides are now Magic Tree House Fact Trackers! Track the facts with Jack and Annie!

When Jack and Annie got back from their adventure in *Magic Tree House #16: Hour of the Olympics*, they had lots of questions. What did the ancient Greeks wear? What did they do for fun? Where were the very first Olympics held? How are our modern Olympics similar to the ancient Olympics? Find out the answers to these questions and more as Jack and Annie track the facts. Filled with up-to-date information, photos, illustrations, and fun tidbits from Jack and Annie, the Magic Tree House Fact Trackers are the perfect way for kids to find out more about the topics they discovered in their favorite Magic Tree House adventures.

From Reader Review Ancient Greece and the Olympics for online ebook

Angela says

Well, I liked this book alot. It was really cool telling me about some of the gods. I also liked it because it told me some of the things they do during the olimpics. It was really good.

Tara says

I love all the facts about the ancient olympics. I love the olympics and I didn't know a lot of them. These books are my favorite non-fiction books.

Marya says

Actually, this was a pretty well written, condensed summary of what we mean when we say "Ancient Greece". Great job, Magic Tree House! Sadly, the Olympic part seemed to do nothing so much as make the audience squirm, wiggle, and romp. Maybe they felt the need to act out the scenes?

Steve says

I really liked lerning about Anchen Greser.

Alex says

I didn't like this book because I don't like fact trackers. I enjoyed this book because I like Magic Tree House Books.

Jonnathan Ortiz says

This was a good book to read for several reasons! I loved MTH books. They were my favorite books to read. This books gives lots of information on the Greeks and their history. I could use this book in my class when im talking about Greece or the Olympics!

Ladystyx says

I and My Boys loved this series of books.

i will admit that I "missed" the age where they would have read the entire series.

I did find however the Research Guides to be my favorite part.

Chocked full of info. easily accessable and fun. we kept these long after rehomng the original books. to use in our HSing journey.

Nicole says

I always learn something new from these research guides- and they are a good companion to the novels. I use them to elaborate on the book during library book discussions.

Keshia says

This had some cool information I didn't know about. I wish there was a little more about the ancient Olympics. That part was pretty fascinating!

Chelle Thompson says

This was our first time reading one of the MTH Research Guides. It was a fantastic supplement to our Ancient Greece studies. The book was full of great info. We will definitely read more of these guides.

Charissa Sophia de la Rosa says

This is one of my most favorite fact-trackers from the MTH series! It is very informative and I learned a lot of things. My mom bought it to me when I was seven years old and at that time I wasn't interested in mythologies. But now, thanks to *Percy Jackson and the Olympians* series, I became interested in mythologies, mostly in Greek and when I read this, I almost knew everything in it!

Dolly says

This is another fantastic book in the series of Research Guides, companion books to the Magic Tree House stories. We have loved these books and read as many as we can get at our local library. Our oldest is fascinated with all things pertaining to ancient Greece, especially the mythology, so she was thrilled when we found this one. It provides lots of interesting information about ancient Greece as well as the Olympic games. We enjoyed reading this one together.

Kayla says

I read this series in elementary school

Lierin Patterson says

I love learning about ancient Greece and this book had so many interesting facts and details. This is a great companion to *Hour of the Olympics* because it goes into greater detail of events and day-to-day life in Greece. At the end of the book, the author invites you to do further research and gives multiple reference points, which I think is awesome for kids to further explore.

Teri says

Our school curriculum *Story of the World (WONDERFUL)* didn't offer a lot in the way of the Olympics in Ancient Greece, so we supplemented with this book (the 2nd half only) and it was GREAT--for a reference book mind you. Then we had our own Olympics and ran races and made winners "wreaths" out of willow boughs. Fun.
