Evolution:

Seventeen year old Jade Sommers' life is turned upside down when a serious injury heals right before her eyes.

Jade thinks she is going insane, but her boyfriend, Aiden Scott, knows better. He knows what she is. And like him, she was born this way.

If finding out that people like her shouldn't exist isn't bad enough, Jade's best friend is kidnapped by a psycho who terrorises her dreams. She and Aiden have to figure out how to save her before it's too late.

Tormented:

Jade is only just coming to terms with her mother's murder when she discovers she is the centre of a sadistic game where the consequences will destroy the lives around her.

Someone will die.

Someone will live.

Who these will be will depend on Jade being able to figure out the cryptic messages before time runs out.

Someone will discover her secret.

Someone has been deceiving her.

And Jades life will once again be changed forever.

Wow, so appreciate receiving these books for free. Once I finished them, I was sorry that I was done and wished I had read them even sooner not to miss out. Jade and Aiden are quite special characters.

Great books

Nice writing, great characters, interesting plot and story line. I highly recommend This series of books. I'm getting # 4 today

Alex Puffer says

To start off with this book was not very well written. Redundant phrases and repeated words are found in clusters scattered throughout this series. It was either written by a novice or a just plain bad writer. The story wasn't bad, though when you get the end of the second book you find that it was all pointless and if Jade (or maybe the author) had just thought of it in the first book we could have skipped 300 pointless pages. But that's not the only reason the end was a disappointment. It felt very rushed and happened all within a single chapter (maybe two), leaving no room for explanation or emotion. Some of the profanity seemed a little stronger than necessary at times (if you would consider it necessary at all). And on a side note, this is not a complete series. There are still several other "series" that go along with this one. It's more like "series 1 of 8".

Amazing

I was enthralled and entertained with each page guessing at every turn. It was an exceptional literary piece of art

Tracey Billing says

I got these for free on Amazon and boy am I glad that I finally got around to reading them both. I did not realise that the story was based on the Gold Coast, but it was great, I have been to the places that are mentioned.

The relationship between Jade and Aiden is great and gets better the more that Jade comes in to her powers.

Great immortal tale

This series was a good read. It kept me in suspense right from the start. Learning new powers along the way kept this story interesting.

Riveting

Jade's mother is dead. Aiden takes her away for her safety. Jade stops a manic from shooting a cafe full of people by somehow transporting them all to the beach. Now they need to leave again. This time they head to London by Anna and Dave. Then the impossible happens, Jade's mother is still alive but in the hands of a psychopath. The race is on to save her mother and everyone she loves. Who will be targeted and who will survive. A roller coaster ride has begun.

Diana says

So good

Jade finally knows what she is capable of and has to master her abilities. I love her strength and loyalty to her friends. Her life is a mystery and because of it everyone she knows is in danger. Fast paced story and amazing surprises. Could not put it down.

Teresa Hayes says

Excitingly Different

The characters come to life and you know how they feel. The plot has twists & turns to keep you guessing. Now I'll have to have the rest of the set go know how it all turns out!

Jonette says

It was a good book it just needed to be more descriptive.

Sarah Sutton says

Wasn't keen on these books. When you read the first you're thrown in the story, no character building. When her bbf gets kidnapped I didn't really care because there just wasn't enough to really care about in any of the characters. You form no emotional attachment to any of them and the main girl just whines throughout the whole thing. No one likes a whiney heroine who is meant to be kick ass.

Really struggled to finish it. Put it down a number of times and I'm pleased I didn't pay for it as I think it would've been a waste of my money. Won't be continuing with the series.

Amy says

Great

Drew me right in. Kept me up late reading. Very well written. I loved every bit of this book. Great.

Cara Ward II says

Good one

I read to fist two in the series. There did to a little slow at times however, it was a good read.

Ima says

Was ok

Nice easy read that wasn't quite there for me. I didn't feel any connection with characters but I suppose it builds up in the remaining books.
