**The Dom's Bride** Penelope Bloom

**I won a date with a billionaire. He promised me three things:**

**A crash course in BDSM,**

**A toe curling night,**

**And then he'd show me the door.**

**End of story. Or is it?**

*Stephanie*

Maybe I was crazy for agreeing, but for once, I just wanted to feel something. *Anything*. I've spent my life running away from men who get too close. Call it a combination of emotional baggage and a fear of commitment. Either way, I'm a virgin who gets to have the night of my life with a billionaire dom. It's a dream come true, right?

If only.

I thought I could just forget it all when it was over. I'd throw it in with all the other crap in my past and move on. Except the dom isn't ready to move on.

*Tristan*

I had one rule: no attachments. One simple rule, and then *she* happened. Stephanie Holland. The one who decided to dump a big, flaming pile of complicated on my life and then disappear.

I shouldn't be surprised she ran off. I practically kicked her out the door, didn't I? Old habits die hard, I guess, but this time I haven't been able to get her off my mind. Month after month and it just gets worse.

Maybe I could break the rule just once. Hell, I don't even need to break it. I'll just give it a little bend for her and then she'll be off my mind.

One way or another, I'm going to wrap my tie around her perfect little wrists again. The only question is whether I'll have it in me to show her the door again.

\*As always, this is a totally SAFE, full length book with a happily ever after, no cheating, and **plenty** of steam.\*

A free copy of my books, *His: A Bad Boy Mafia Romance*, and *Mine: A Bad Boy Mafia Romance* are included with *The Dom's Bride*. *The Dom's Bride* is approximately 48,000 words and ends at about 27%.

## From Reader Review The Dom's Bride for online ebook

### Susan Foulkes says

Can two damaged people who fear commitment heal each other, and achieve a HEA that neither was expecting, or even looking for?

Stephanie and Tristan are well written characters with detailed back stories, and it is a pleasure to see their relationship develop.

The plot has twists, turns and surprises, and is evenly paced.

The BDSM scenes read as authentic (this is not BDSM lite), and add to the overall emotional arc of the story.

I voluntarily reviewed an ARC of this book, and can recommend it.

Penelope did a great job with this book. I loved the characters and their pasts. I was hooked on Tristan and Stephanie from the beginning. My only complaint was that I wish it was longer because I felt there was so much more story to tell. But it was a phenomenal read any way.

## **Di says**

Two people come together, Tristan and Stephanie, for one night when he asks her to do a favor for him. Their one night isn't enough for either of them and until they meet up again months later under sad circumstances, they can't help but want one more night. Once again that isn't enough but with both their pasts haunting them, neither of them can move forward till they come to terms with it. Can it be that easy ? A great steamy and at times sensual read about two people who are broken in their own way and have built up walls around them that no one seems to be able to penetrate. I enjoyed these two and the way they finally come together for a little boy but also how they both break down the walls in each other, little by little. I would have liked to have seen some justice for the people who hurt them in the past as I was a bit disappointed that it seemed like it was swept under the rug. Also what happened to Alice as it seemed like she wasn't going to stop, considering it was going on for years and then all of sudden it stopped ? I did enjoy when they finally admit what they feel and how they didn't beat around the bush when it finally came down to it.

Stephanie has issues to overcome in order to have a relationship, and when she is dragged out by her BF to an auction, she is not too happy. While she is sitting there alone she is approached by the billionaire who is to be auctioned off for a date, and he hands her a blank cheque and asks her to pay whatever she has to in order to win. No spoilers; this is a must read, you will not be disappointed! This is a well written, fast paced story, which is sexy, thrilling, gritty, and a powerful read. I was captivated and hooked throughout, and I highly recommend this authors' work for all readers, and look forward to reading more of her work!

### High Octane Heat With Heart Break Romance!

When Tristian, a man with the dark past and soul to match, picks Stephaine a Social Worker with plenty of darkness of her own and a gaping hole where her soul could be, to outbid everyone else at a Charity auction- he knew she was different. The instant effect he felt coming from her was different- eerily different. Stephaine could feel it too. One night, is all they want, all they can handle. No emotional attachment. Right? Or did these two beautifully broken people just find the one who'd climb each other's walls, and put them back together making them whole?

Talk about bringing the heat and emotions together in one explosive lovefest!

I am thrilled when a faced paced story like this changes my mind about it and its characters so quickly- because honestly, I was not the biggest fan, in the beginning.

I have started to stray from books that are about the man's supposed need for "control" for particular reasons.

But, the characters in this one seemed unique in a fun and almost peculiar way- so it heightened my interest to find out more about the two destined to be souls.

Then there is the author, Ms. Bloom has on several occasions surprised me with some twisted, hearty romanced funny storylines that I ended up falling for so with those two things weighing heavily in the back of my mind I carried on.

Thank the fictional book Gods I did! What a ride! A humorous, heartfelt, dominatingly delicious speeding bullet of insta-awe ride!

The phone call that once again denies her of the one thing she wants most in this world just happened. Tonight she is to attend an auction, but her heart just really isn't into it. Stephanie decides it best to sit in the

back and away from people. Things seemed to be fine until HE sat down next to her. Out of all the available seats, why did he have to choose this one. Then as the bachelors who are to be bid on are called to come to the stage, this stranger hands something to Stephanie and gives her specific instructions. Okay, a bit pushy and arrogant. As the bidding happens, Stephanie sees this stranger's reaction to the only other person bidding, she has to help.

Being one of the bachelors to be bid on for a date for this auction was his way in basically, and his way out of the claws of someone he doesn't want bothering him anymore. He spots a woman sitting alone and away from all the others, and something strikes Tristan hard and instantly. He sits next to her and takes in what she is up to and her reaction....perfect. He hands her something and gives her instructions, then Tristan makes her a promise. A promise that he intends to keep.

Tristan's instructions were followed just like he told her to, and now he is going to keep his promise. There is something different about Stephanie and Tristan is fully aware of that. Starting to realize that he can read her is just another thing he recognizes that is different. Stephanie is very inexperienced in all of this, she is still a virgin, but the feelings she seems to get around Tristan is not to be ignored. They end up getting extremely "fulfilled" on their date night. Tristan has a dark side to him, and Stephanie fills his need. Just like that he asks her to leave. No thank you, no emotions, just empty all but angry words of get out.

Four months later, Tristan is going to face his troubled past, aka his father. When he gets there the scene is what he expects. Only the reason for his dark side and the images that haunt him all the time is not the woman passed out next to his father, no this is a new one. A sudden movement and person emerges as well, this person is about 4 years old. Already aware of the situation, Tristan asks a couple of questions, and then sees something he recognizes. That is all he can take, he proceeds to do something very unlike himself, and yet something selfless. Tristan and Cole (the 4 year old) end up at Stephanie's office.

Once there Tristan will deal with no one but Stephanie. She is, to say the least, baffled at his sudden reappearance and bossy arrogance. Once she asks about Cole, and answers are given, it is all Stephanie can do to not pose the idea of him pretending to be together with her so she has the upper hand in the permanent solution for Cole, and her for that matter. Agreements made, and put into place. Stephanie and Tristan become more than acquaintances now, she is a roommate. Only Tristan and Stephanie know that this situation may lead to a slippery and at the end painful relationship, however they both put those feelings aside for Cole's sake.

A visit in a cafe with his father sets Tristan in a little drama, a surprise visit from a social worker who announces what happened, when no one else would know. The secret of how the social worker finds out of an "concerned person tip" leads to Tristan finally coming clean with Stephanie about what happened and why Cole is with him now. Tristan is asking for "dates" with Stephanie, and they indulge each other. The tip source is confronted, the truth of about why Stephanie wants Cole in her life so bad is told, and things keep progressing between these two.

On one date night, something different and special happens and then something gets said, catching both off guard, but both state it and show it towards each other. A court date, an awarding of the one thing so precious to both Tristan and Stephanie happen. Seeds of doubt fill Stephanie's mind, due to things said at the beginning of this bargain. A surprise change of how their future ends up going also happens. Fast forward into their happy ever after and another surprise is given, and this time Stephanie is the one able to grant the surprise that helps advance their happy ending.

### Another great dom book!

The BDSM queen has another hit on her hands. I really loved this story. Two people with histories that are messing up their futures. Tristan uses BDSM as a way to control, Stephanie is a virgin that hasn't found anyone she wants to have sex with.

So when Stephanie and Tristan find themselves together for a common goal she finds she likes being his submissive.

Stephanie is a social worker she became one because of a tragic loss as a child.

Tristan also has a heartbreaking past he is jaded from. They both need each other to heal their broken souls.

Tristan and Stephanie both had horrific childhoods and neither have dealt with the effects of the abuse as adults. They have both developed coping strategies that start to crumble the minute they meet each other.

Tristan finds out he has a three year old brother Cole who is living the same childhood he had and decides to take him and find him a good home. Stephanie works for Social services and wants nothing more than to adopt a child who needs her. They work out what they believe to be the perfect plan but love somehow has a way of laying waste to the best made plans

I great story with some heart. The blurb is a little off, as she did not win a date with a billionaire - he was saving himself from a bad date and that doesn't even cover more than a fraction of what this book is about.

The story is so much more than a date with a billionaire. Two people with tragic pasts come together to keep another from tragedy is a more accurate description. The story unfolds fairly rapidly with only one small glitch that is an

obsessed blonde witch. Some parts of the story are a little thin (involving the third person in the story) and

---

lack the depth to make this a truly awesome book. It's not a hardcore BDSM story (no whips or chains) just a dom needing control.

I received a copy from the author and voluntarily reviewed this book. Note - If I don't receive a copy of a book from this author, I always borrow with my Kindle Unlimited subscription and have enjoyed every book she has written.

### **Leslie Ooten says**

This was okay. I thought the writing was good, and flowed well. My problem came in the relationship with Tristan and Stephanie. He treated her like crap after their first time together, and never really apologized to her. She kept doing as he wanted, and kept going back for more. It was hard for me to like him and connect to him after that. He never really had a redemption moment in my mind.
