The Womanist Reader: The First Quarter Century of Womanist Thought Layli Phillips Maparyan (Editor)

Comprehensive in its coverage, *The Womanist Reader* is the first volume to anthologize the major works of womanist scholarship. Charting the course of womanist theory from its genesis as Alice Walker's African-American feminism, through Chikwenye Okonjo Ogunyemi's African womanism and Clenora Hudson-Weems' Africana womanism, to its present-day expression as a global, anti-oppressionist perspective rooted in the praxis of everyday women of color, this interdisciplinary reader traces the rich and diverse history of a quarter century of womanist thought. Featuring selections from over a dozen disciplines by top womanist scholars from around the world, plus several critiques of womanism, an extensive bibliography of womanist sources, and the first ever systematic treatment of womanist thought on its own terms, Layli Phillips has assembled a unique and groundbreaking compilation.

Yakut Melikzadeh Akbay says

A perfect compilation of female writers offering a broad range of approaches and ideas on vernacular African concept of womanism.

Sumayyah says

An excellent book with a wealth of information. My only quibble is how academic the writing is. The average lay person may have a difficult time wading through the reports and essays contained in this book.
