## From Reader Review Brightest Day, Vol. 2 for online ebook

### Malum says

The further adventures of DC's B roster (and Aquaman. I consider him an A lister). This is an ok event, but it's not that much more than ok. There are just too many storylines and, 16 issues in, they have yet to really link any of them together.

### Anne says

I'm really impressed with this! I was afraid that Blackest Night (and all of it's tie-ins) had pretty much bled all of the good stories out of the Green Lanterns. Quite honestly, by the end of it, I was getting a little restless.

So, it makes me extremely happy to say that (in my opinion) **Brightest Day** is the *perfect* name for this arc.

The story centers on Deadman...who is *not* so dead anymore. It's his job to find the new protector of the White Lantern, but can he get past his selfishness and do the job right?

All of the resurrected heroes (and villains) are slated to play a part in this, but with the confusing visions being sent by the mysterious White Lantern, no one is quite sure what anything means.

Almost every character that is featured in this volume had some cool side story going that kept me on the edge of my seat (through this volume and volume 1)! I'm not sure if these are actual spoilers, but I'm going to play it safe for those of you who care.

### Arturo says

Deadman meets up with Batman, that's Bruce Wayne who has just returned from the "dead", to see how he fares with the white ring. A great Deadman origin included.

5/5

Martian Manhunter heads to the forest in Star City and meets up with Green Arrow, then heads over to Mars for more craziness.

4/5

Aqualad and Black Manta story.

3.5/5

Firestorm vs Black Lanterns.

2.5/5

Hawkman and Hawkgirl in Hawkworld vs Hath-Set and the queen of the Manhawks. War heads to Zamoran with the Star Sapphires.

---

3/5

And the art gets even better.

### **Edward Davies says**

This was pretty interesting, though disjointed at times. It was interesting focussing on those heroes who have returned from the dead and I look forward to the conclusion.

---

### **Francisca says**

can't stop picturing aquaman summoning dead creatures and getting like a half-eaten fish and staring into the distance

---

### **Mohammad Aboomar says**

More of the same. The white ring sure too talkative for a ring!

---

### **Gavin says**

Continuing from Volume 1, we follow the heroes on their paths to achieve whatever it is that the White Lantern wants them to do.

Hawkman and Hawkgirl face Hath-Set, the man who cursed them thousands of years ago; Aquaman faces off against Black Manta and Siren (sister of Mera) and in the process, finds a new partner/sidekick in the battle from an unlikely source; J'onn J'onzz faces off against the only other living Green Martian, who has been hidden from him since his arrival on Earth; Firestorm faces off against Deathstorm (The Black Lantern Firestorm).

Deadman continues to act as the point through which the White Ring directs events, and alongside him are Hawk and Dove.

At one point, he finds that the ring is looking for the Champion of Earth, and he thinks he knows who it is, and seeks him out.

This is a great job of building up the intensity of the story and really getting us involved with the characters, who are all so well written and interesting, it's a joy to read.

The conclusion should be something...!

### **Peter says**

The second part of the brightest day comic event. And the story gets a bit better then in the first volume. this comes close to a three star book, but just falls short, but it is definitely beter than a 2 star book. The story

enfolds, some backstory gets fleshed out, and some motivations become clearer.

If book 3 has a worthwhile finale, than I might upgrade the score for this.

---

### **Will says**

I don't know all the history with the Green Lanterns, but still found this an enjoyable story.

---

### **Eric says**

I love this story arc. Really looking forward to reading the final book after finishing this.

---

### **The Hudson says**

Para entender la historia central se requiere leer los tie-ins y son muchos !!

---

### **Bradley says**

Deadman's quest continues as planned, but the white ring is still being pretty mysterious. It's more of the same of Vol 1, with some higher stakes for Aquaman, Firestorm, Martian Manhunter, and Hawkman & Hawkgirl, all of whom are trying to figure out why they're corrupted and trying to tie up the loose ends of their lives.

It's okay. I think I like Firestorm's story best, with Aquaman coming in a close second. JJ has some pretty interesting minfuqry going on. The hawklovers probably has the weirdest story that required me to get off my butt and look up their gold and silver ages and try to reconcile the shit out of them on the fly, and I did it, but wth I'm still not overly impressed.

I like the idea that Firestorm can potentially stop or restart the freaking universe. It kinda puts things in perspective. :)

So here's for the White Hats and the Black Hats out there... it's all Tao, dude. :)

### **Quentin Wallace says**

This series is taking the B Roster of the DCU and showing just how cool they are. Aquaman, Hawkman, Martian Manhunter, Deadman, and many others are all showcased in their own individual stories, but they are linked together by the white lantern and the fact these are all resurrected heroes. I think my favorite storyline is Aquaman but all of the stories are interesting and the art is top notch. This is really an underrated series.

**Snow Wolf says**

All I have to say is about the ending of the book, and that is 'oops'.

---

**Perry Gough says**

Just not good for an event at all.
