## **Boiling Point** Mia Watts

Fauna Harper's cursed with the ability to randomly disappear. The faeries have given her nothing but trouble, and she refuses to invite supernatural trickery into her personal life. Assigned to work with a sexy new hire, she's grateful to leave an office full of half-faery siblings and faery reminders behind. Besides, Cooper's slow smile promises romance, and a whole lot of heat. He's just what she needs to have a little fun and finally learn to loosen up.

Cooper Blank's mission to guard research for the council of elementals gets sweeter when he's assigned to work with Fauna. She's sexy as hell, and now that she's agreed to no strings sex, Cooper only needs to convince her that he's the elemental for her.

Their relationship reaches a boiling point, and time is running out for Cooper as Fauna discovers what Cooper is. Will he convince her to give them a chance at love, or will his heart be lost in the wake of interspecies warfare?

## From Reader Review Boiling Point for online ebook

### CoffeeTimeRomance andMore says

I really liked how Ms. Watts has included the element of prejudice within the pages. Fauna is shown as a woman used to being put down because of her ineptitude when it comes to her faery powers. Cooper is a man who is keeping a major secret from his lover about who he is. You also have the danger that is spattered throughout the novel which gives the plot an adventurous feel. Boiling Point mixes fantasy with erotica making this an enticing tale.

### Lidia says

With this fourth book ,the author writes more about the faery world,in fact ,the male protagonist Cooper is an elemental and works with Fauna on issue very important that involves humans and faery. I liked very much the character of Cooper and the beautiful couple that do with Fauna. I imagine her invisible but lighted with heat and him that see her ,sharing love and warm, really poetic

### Kimberly says

Fauna Harper and her four siblings are all half-breed faeries which means that, as a minus, their “gifts” are all “faerily imperfect.” Fauna’s power is the ability to disappear, which always happens when she doesn’t want it to, including when she meets Cooper Blank, Harper Security’s newest hire, and the man she has to work with. Cooper sets Fauna’s blood to boiling, and the fact that he’s not magical makes things even better.

Only Cooper is magical. He’s a salamander (a fire elemental) on a secret mission to make sure certain government research is protected. Working with the sexy Fauna is just a bonus, but her dislike of all things magical and insistence on no-strings-attached sex complicates things. Can Cooper convince Fauna that she could use a little elemental magic in her life?

It’s no surprise that when Mia Watts creates a salamander hero, scorching hot sex ensues. Boiling Point is an erotic, fun read the likes of which I’ve come to expect from the Faerily Imperfect series. Fauna’s dislike of faeries and other magical beings is understandable given the gifts/curses she and her siblings bear. However, it was fun to see Cooper try to win her over, even as he (understandably) attempts to hide his own abilities. Fauna and Cooper were a fantastic fit and I avidly read Boiling Point, delightedly watching the sparks fly

between them.

Each Faerily Imperfect story stands on its own and Boiling Point is no exception. Still, fans of the first three books (Mind F\*cked, Faery Surprising, and Freeze Frame) will delight in revisiting the Harper siblings and their partners again. I finished Boiling Point a well-satisfied reader and I can't wait for the final Harper, Willow, to get her story.

### **blub says**

I thought the plot line was too simple and went too smoothly. The relationship between Fauna and Cooper got overly sappy at times. It was a nice read but just didn't do it for me.

eeeeng... entah kenapa... gw ga dapet ceritanya...

mungkin karna masih berasa euforia dari cerita Dill Harper sebelumnya... hahahaha
