## **Texas Curves** Christa Wick

Virginia Kelly is a real girl, with real curves and real problems. The last thing she needs is New Yorker Hawk McKinley pulling every trick in his billionaire playbook to get her into his bed. Certain Hawk wants nothing more than to make her a one-night stand or the double-wide butt of a cruel joke, Ginny is about to teach him no one messes with this West Texas girl.

From the moment Ginny rescues him on the side of the road on a hot day, Hawk can't get the woman out of his mind. With her southern sass and lush body perfect for sin, she's everything he wants and everything he intends to have.

In a game of North versus South, can two hearts win?

## From Reader Review Texas Curves for online ebook

### Tia says

I actually thought the chemistry and passion between the hero and heroine was quite good. It was well written and the feistiness and passion of the heroines could set anyones heart pitter patterring. It was a good read for sure.

---

### Diana Rising says

This is a fun book. The curvy lady has been made fun of for her curviness in high school, which makes her lack confidence in her books. She has confidence in her intelligence and skills and family, though. She meets the billionaire when his car breaks down near her home. She treats him like he's an idiot, but he doesn't seem to mind a lot. He pursues her, but she keeps shutting him down. Even when they start a relationship, she makes him keep it a secret. She is afraid what everyone says will change how they both see each other. Finally, something brings everything into focus. It is a very romantic story, and there are even some good sexy times.

---

### Nikole says

Not a bad story but for once I'd like the bbw heroine to be confident instead of overly insecure.

---

### Amanda R says

Quick hot read.

---

### Krissy says

*In kindle library under Big Like Texas*

---

### Shauna says

This is my own fault, I didn't realize this was a novella and I never like those. That said the character development made no sense.

---

### Eya says

Most of Wick's books have this specific effect on me: Up to about half the story, I love what I'm reading. On

---

paper, I like the overbearing, somewhat macho type of guy she likes to use, and I like the quirky female protagonist she uses as her staple. What I don't like is how halfway in the women turn into immature, whimpering idiots in almost every story, how they lose all semblance of strength and character. The only ones who retain some backbone are the ones in the non-HEA stories, as if the existence of strength and personality precluded a happy ending. And so my appreciation changes from excitement to eyeroll, pretty much every time. Which is a shame since Wick's writing style is quite engaging.

---

### ? Rhiannon ☆ Mistwalker ? says

Barely makes it to the angst shelf, but definitely what I'm looking for in my chubby heroine tropes.

---

### Monika says

I liked the ending of this story. Most of Christa Wicks short ones don't have a "happy ever after ", this one does - and i liked it.

What i didn't like? Virginia! I understand she was bullied for being big, so was I , but it doesn't mean she has to be so...so...annoying! She is a grown woman now , not a scared teenager! Grow some balls girl !!!

The other problem- Hawk McKinley, Hawk McKinley ,Hawk McKinley ,Hawk McKinley ,Hawk McKinley ...You get my point ? Who uses name with surname all the time? Seriously annoying!!!

Rant over ;)
