### **Majestic Twelve Minus One** Lance Moore

In MAJESTIC TWELVE MINUS ONE, acclaimed author Lance Moore (also the author of Killing JFK: 50 Years, 50 Lies) spins a riveting tale from the longstanding cover-up of UFOs. The greatest conspiracy of silence since the JFK assassination unfolds around the family of one honest scientist caught in a life-and-death ethical dilemma. Will Dr. “Blue” Bellew steal alien technology to keep his daughter alive, or will he honor his patriotic pledge of confidentiality? Will desperation and curiosity lead Jessica Bellew to dark and dangerous alliances? Palindromes, numerology and subterfuge... all underground, all awaiting the light of day.

“A gripping tale, cleverly and masterfully crafted.” ~G.K. Robinson

### **Darcee Kraus says**

I have worked closely with several conspiracy theorists and this book put me right back into conversations I have had. I was so excited to win this novel and it definitely did not disappoint.

### **Melissa says**

I never considered myself a conspiracy theorist but this book almost made me one. Mixing a hidden world of government cover ups and a plot interwoven with questionable allegiances, the book is a mystery unfolding. I was on the edge of my seat the whole time, waiting for one of the characters to get caught or their plan to foil. A very good book with a good ending and a cast of characters all believing their actions are in the best interest of the country.

I won this book through Good reads First Reads.
