Alpha Knows Best Starla Silver

Charlie Howard is one pent up werewolf! Fortunately, his summer fling is back on The Demon Isle. Unfortunately, playtime is cut short when supernatural trouble arises, making other plans for Charlie's off time.

He suddenly finds himself in a dangerous race against the rising of the full moon after the body of a tourist is discovered, and the cause of death: werewolf attack!

Charlie must face a terrible truth, the wolf that bit him ten years ago is back! And hell bent on wreaking havoc.

Its return forces Charlie to reveal a terrifying secret. One only his mentor, the vampire, William Wakefield, is aware of, one he's been hiding from his friends and siblings, for years.

A secret that threatens Charlie's life. The safety of the entire island he's charged to protect. And puts the future of the Howard Witches in the hands of fate...

C.D. Gorri says

Fun read!

I enjoyed learning more about the three Howard siblings and the creatures on the Isle! This series has it all! Muster, action, romance, and humor. Recommended for paranormal lovers everywhere. ♥?

Teresa S says

Great read!

Debbie Chittenden says

Definitely more action this book and mainly targets Charlie. His story is intense, bright, and mysterious. It sucks he's going through this, meets how possible mature and she's got her own agenda. We shall see where the Demon Isle takes us!

Mel says

Good read

Have enjoyed the second one in this series. I found it a lot more informative than the first one. The conversations are good and gives you the insight on what's going on. The only things I didn't like that the books are very short I would buy the next one if it have more pages for this price. But the price is to high for only 155 pages. Sorry!

Sadie Forsythe says

Things I found to be true about all three books I read: simplistic writing, stilted dialogue, names used too frequently to be natural, frequent drastic and disruptive shifts in POV (I don't think the author actually payed any attention to POV consistency), schmaltziness, cheesy language used during sex scenes, and men tend toward action while girls primarily agonize over love/sex. Lastly, none of the books stand on their own. They are closer to long serial installments than books in a series.

My opinion of Melinda did not improve in this book. She just keeps getting weaker and weaker in my mind. She's had a mental breakdown, been a recluse for four years, trips and falls repeatedly (caught by man, of course), can't decide on her love, lets one man's mild possible criticism and poor sex destroy her sense of self-esteem and can't have sex without felling ashamed and guilty. She's just broken in a way her brothers aren't, despite similar circumstances. She is a cliched romance heroine.

Here, in this book, we got much more of a sex scene than the last one and the use of descriptors like, "lustful flesh"(hers) and "lustful throb" (his) to describe genitalia just cheesed me out. Plus the lack of condoms was distracting. I'm not usually someone who insists on condom usage. Fantasy is fantasy, but here I kept getting distracted by, "Doesn't anyone worry about getting pregnant?"

Plus, we have the establishment of a love triangle. Why? Isn't it bad enough that the female character is too wrapped up in her own head and thoughts of sex to be concerned with the safety of her brother? Do we have to make her incapable of deciding on a man too? Do we have to add the unnecessary angst of a triangle too?

Then there are the brothers. One is extraneous to the plot, never really doing much of anything and the other seems to be an idiot. The villain is so obvious it felt like the characters had to be being purposefully obtuse not to see it.

Like in the first book though, it manages to skirt by without ever falling into truly bad territory, annoying and trite, but not all out bad. I think there are those who like this sort of writing and story-line and I did really appreciate that Charlie was into full-figured women and it wasn't made out to be anything special.

Coco.V says

?FREE on Amazon & on iBooks today (6/4/2018)!?

Blurb:

For the Howard Witches, life, love, and duty isn't getting any easier! And things are about to get even harder with the return of an old enemy—one from Charlie's past who wants to steal his future—the werewolf that bit him.

Return to The Demon Isle as the Howard's race against the rising full moon to solve the mystery of this shifty menace before Charlie is lost as a witch and a Howard, forever.

Donna Hokanson says

Wow, just wow

I am so loving this series. This book is self-contained and yet part of a series. This is about two brothers and a sister, all Howard's that are witches meant to protect Demon Isle. You get a lot about each sibling in this book and know there is more to come.

Very entertaining to read.

Donna says

This was a nice continuation of book 1. It picks up where book 1 left off. I love the Howard witches and, of course, William. I love that there are still unsolved mysteries and questions, even though Charlie's is under better control. I can't wait to read book 3 to find out what other trouble the guardians of Demon Isle get into.

Beth Wilson says

Decent

Decent book. Fewer storyline arcs this time to trip up unsuspecting readers! It made it a much clearer and less confusing read.

Michelle says

This is the second book of this series. It is a good read, but I would like to take this time to mention that the first book had very little towards sex. Then all the sudden everyone is getting it on. I love my romance, but it felt like the writer either has no sex or too much. LOL. Anyway, my other negative comment would be that the first and second (probably the third book) could all be one.

I am excited to read the next book in the series and see where the characters go and how that evolve.

Overall, I like the story and I think the character have good potential for even more interesting story lines.

Anita Hargreaves says

Good series

Shame cliff hanger but got 3 free on Amazon. So looking forward to reading more of these witches, a vampire and werewolves.

Kevin says

This is book two of a series and I didn't read book one. Nothing in this book makes me want to read the rest.

Cat says

Excellent paranormal series! I have read books 1-3 but I want to read every book in the series.

Heidi says

Another fantastic read

I am quickly falling in love with this author her words are refreshing and draw me in I look forward to continuing the series but this book definitely took on a sexier tone. The plot definitely deepens at the End of This Book and I can't wait to see what happens

Michelle says

Just part of a book not a complete story - I hate serials esp when they aren't noted as such. Most likely why the first two "books" in the series were free to get you to buy the next in the series to finish the story. However since the characters & storyline is so bad I have no problem at all with just dumping the series and author. Do yourself a favor and skip it.
