Fire and Ice

Dustin Stevens

Fire and Ice Dustin Stevens

In the middle of a rare mid-April blizzard in eastern Montana, young emergency room doctor Yvonne Endicott steps outside to help a truck that arrives in the middle of night, the occupants appearing desperate, in dire need of aid. Only once she is too far removed from the safety of the building does she realize their true intentions, the entire incident just beyond the scope of the front door cameras, everybody disappearing into a swirling storm of wind and snow.

Fielding the call for help is local sheriff Rake Ferris, a man so ingrained in the small community that he knows every person by their first name, takes every offense under his watch as a personal slight. Compounding the effect for him is a personal connection to the young doctor, forcing him to accept that the storm prevents any outside help from arriving and that the only aid he could possibly enlist comes in the form of Hawk Tate, the former DEA agent in town that has been the subject of widespread speculation since his arrival some years before.

Both men acting against their better judgment, Ferris and Hawk form an uneasy alliance, digging into the abduction to find a plot that runs much deeper than a simple kidnapping. Fighting against time, the elements, and even each other, they begin a chase that leads them through the booming eastern Montana oil fields, the blossoming drug trade that has taken hold there, and ultimately the power players behind all of it.

Connie Hamby says

A great book

If you haven't read any Dustin Stevens books now is the time to start he writes great books I love the the Hawk Tate books a lot of action and twist and turns

Robert G. Schultz says

Well the third book, was great just as the the first two

O guess I will settle for Five stars if that's all there is.
I will be letting friends and family know they need to get
All Dustin Stevens books o read.

Sharron Netzer says

Book 3 of Hawk Tate

All three books that I have read in the Hawk Tate series, have been an excellent read; each read keeping my attention and not wanting me to put the read down until it was finished. I adore how good Hawk is at catching the bad guys! Also the details in your writing are excellent, not that I am an expert but I have just gotten back into reading again over the past year and I really like your writing.

Jacquelin Davis says

Great read!

I have yet to read a Dustin Stevens book I didn't like. But I think this may be my favorite!

Kath says

I dont write reviews with the diligence this young man deserves. This time I not only have become wrapped up in the characters as I did with Reid and Billy, but I live withing 130 miles of the region this story took place. I love the writing style, characters and solid story arc Mr. Stevens writes. If you're a high stakes mystery and action buff, you will enjoy his work!

joy akin says

Good read

I enjoyed this one just as much as the others. Again, there were the typos. What's up with that? I will watch for a sequel to this one.

juneil says

Started slow but wow what a finish. And all the while developing. Memorable chapters the story progresses, thank you for the exciting read!MC Mathis

I did. Thanks.Dustin your work,story and chactere development gave me several hours of first class reading.Again I to thank you,I'm a fan!

Elisa Hordon says

Fire and Ice was a great title...lol, Hawke was called in by the Sheriff to assist in finding a local Dr who had been abducted from the local hospital, the Dr was also his niece so to say this was personal for the Sheriff was an understatement.

This was another explosive, action-filled adventure for Hawke with a drug side angle for the ex-DEA agent to puzzle out.

The beginning of the story was a bit jumpy from one part to the next but once I got into it I couldn't put it down.

I really like the way Hawke gets things done.

Hawke is courageous, dangerous and probably needs to be committed...lol, but he gets the job done.

joan barnes says

I liked it all. Joan barnes barb barnes bob Chupp I do not like being trapped and not being able to get out of this

Masina Lane says

One Against Many

Hawk agrees to help a sheriff retrieve a young doctor abducted by a drug cartel. Another tense, fast moving novel from the first few pages. I highly recommend this author.

Barbara Borrer says

Slow

This book was very slow compared to the other Hawk books I've read and the even better Reed and Billie books. The author did have a bit about snowmobiles in this which I liked but talked about the characters having cold fingers while riding. I know snowmobiles have had hand warmers in the handlebars for about the last 20 or so years. Why didn't they use them? Read this if you want and don't have anything else to do as I did, but I did skip a lot of the boring part.

bonnie kirchner says

Fire and Ice

Great book great series. This is a must read series. It has lots of thrills and suspense. This is a book that you don't want to put down . I recommend this book and series.

Pamela Lukat says

Great !!

Great reading couldn't put it down till finished. First time reading Dustin Stevens I will read the other series. Hawk love him. He is here hopefully him and Diaz will book up ?

Lynn Dunn says

Fun

A slow start but picked up in the end. I enjoyed reading this book. This author writes exciting enjoyable books.

Sherron L Pace says

Exciting kidnapping

This is an excellent series, I would like to read more of this series if or when it is added to. It's difficult to put

down any of the books in this series. I spent most of the night up reading this book the same with each of the other two previous books in this series.

This book could benefit from better proof reading as some of the words in sentences seem to be reversed.

I would highly recommend to anyone to read this book. Thank you to Dustin Stevens for his visual descriptions it allows you to see the country and the people as well as knowing their personality.

EXCELLENT writing.
