Renegade

Heather Dahlgren

Renegade Heather Dahlgren

Brooklyn Adler has the life she's planned for.

Job, house, and boyfriend – in that order. It's a boring, routine life where there are no surprises and nothing is spontaneous. It's safe, it's mundane and she's fine with that.

Crosby Fitzgerald, better known as Fitz from the band Renegade, has a life he never planned for.

Popularity, women and success – not always in that order. Everything he does is spontaneous and exciting, because life is worth living to the fullest.

A chance meeting with Brooklyn and Fitz alters both of their worlds – ensuring neither will ever be the same.

*Renegade is a full-length standalone novel about a sexy rocker, with no cheating, no cliffhanger and a HEA.

From Reader Review Renegade for online ebook

Jackie Wright says

Heather Dahlgren is fast becoming a go to author for me. If you love Rock Star books this is a must read. Crosby Fitzgerald is better known as Fitz lead singer with the band Renegade, he lives life to the fullest not ready to settle down, but there is another side to this singer and it takes the quiet shy friend of the bands manager to bring out the real Crosby Fitzgerald.

Brooklyn Adler has the life she always thought was for her, a mundane job, a house and a boyfriend who just wants to watch the world go by , all in all a pretty boring life, so when her best friend Poppy (manager of Renegade) sends her flight and concert tickets she decides it's time to live a bit.

Fitz and Brooklyn are perfect for each other and the chemistry is sizzling hot but I do have to say there are some heartbreaking moments and at times I wanted to scream at Brooklyn. The rest of the characters in this book all contribute to a great read and I hope we get more from the rest of the band. This book was written beautifully and it was read in one sitting. I loved it

I received this book for an honest review

Arica Shupe says

Although slow in the first chapter you truly fall in love with Brooklyn and fitz you feel the awkwardness and how she truly doesn't understand why anyone would pay attention to her you feel his shock at finding happiness at a smile you connect with the characters feel part of them and don't want the book to end so worth the read and you will have a smile but feel sad when the book ends and its time to get back to real life

Gypsy Soul Korina says

Renegade is totally 5 rocking' stars.

So, this is the first book I've read from Heather Dahlgren and I must admit that I am already eager to read more of her novels. She brings to life the story of a shy girl who hasn't found herself until she meets a rock star who was losing himself.

Fitz is the lead singer of a famous rock band based in New York City.

Brooklyn is the shy best friend of Poppy, the band's manager and one of their dearest friends. She lives in California doing the same thing day in and day out.

Fitz and Brooklyn are both on self destructive paths without fully realizing it.

Poppy flies Brooklyn out to NYC and the minute Fitz sees her, he wants her. Brooklyn maintains her stance as having a boyfriend but is swooning over Fitz. He shows her, Poppy, and the rest of his childhood friend who make up the band another side of him as his friendship with Brooklyn grows.

Fitz is not ready for Brooklyn to go back to California and he tries to stop her but she goes. What will happen when she does?

I was thoroughly enchanted with this book. Brooklyn was someone that I could relate to and I am positive that did not bias my opinion of the overall storyline. Mrs. Dahlgren has a witty way of bringing out the best of the characters with their playful bantering and subtle (sometimes not so subtle) flirting.

Some of my favorite lines or passages are:

"Brooklyn, you need to get rid of that forest," she says, starting to really laugh now.

"I don't know what it is. It's nothing and it's everything," I say in all honesty.

It's eerily peaceful being up this high, almost like flying while standing still."

The city is alive, with the amount of people rushing about. The buildings are so tall they block out the sun's rays making it appear darker in some places than it really is. The different buildings, some old, some new, some brick, some seem to have all windows, is just stunning. I turn my attention back to Poppy and smile. "It's so beautiful here. Crazy busy, but it's really amazing. I can't wait to explore. {This passage made me want to go visit NYC sooner than later}

Ida Jolley says

My first book by this author and it was pretty book. It was really interesting. Great story out line, sexy, funny, sad in parts, but everything worked out the way I thought it should. Brooklyn lead a very boring life and her boyfriend was worse. It took one week for her to realize her boyfriend was no fun at all and she needed a change. I am glad she finally got the chance to see some part of the world and kicked her dumb lady ass boyfriend out. Live with Fitz was so much more for her. And she was treated a whole lot better too. It was a hot ????read once you got started and then you couldn't put it now. Loved it ❤️?

Sandy Pavao says

Loved it

I loved this book from beginning to end. I could not put it down. I would most definitely reread it again and again.

Angel says

Dirty Rocker!!!!

Oh my hot dirty mouth rocker God!!!!!!!!!!

Talk about a rocker getting your panties all wet. Wow

Heather definitely hit the mark with this guy. I loved this story, I mean what's not to love about Rockstars.

Especially when they have a dirty mouth.

I am going to have to say I was not crazy about Brooklyn.

I actually really love Poppy , I Adore the secondary characters. And I'm hoping Poppy gets her story.

Okay back to the Cocky dirty mouth rock God. Lol ahhh he's hot ladies that's all I can say. His mouth is my favorite part of the book lol

Melissa Ann PA says

Have you ever read a book and knew from the beginning that the character was going to be your next book crush? Well in Renegade by Heather Dahlgren I knew that Fitz was going to be that character. I love him from the moment he met Brooklyn to the moment she was finally his he did nothing but protect her, stand up for her and be whatever she needed him to be even if it broke his heart. Just let me tell you there are quite a few heartbreaking moments for Fitz where you just want to reach into the book and shake Brooklyn and be like what are you thinking. Besides for Brooklyn and Fitz you have a great group of characters that surround them from the comedic relief of Ethan, to the best friends Poppy and Nate this book was really just truly written well that you are just reading along and before you know it you are done and you are wondering where your day went.

Ruth McDonnell says

I love Brooklyn!

Brooklyn Adler lives a boring life in California. Her friend Poppy invites her to New York for a week to hang with her and Renegade, the rock band she manages. Fresh out of her comfort zone, she meets Fitz. Except who she sees is Crosby Fitzgerald. Can they overcome the obstacles and find their happily ever after? Loved this rocker love story!

Susan Trewick says

I'll start by saying I don't normally read books about rock stars, not my cup of tea, but I was so pleased I gave this book a go as I was blown away! I loved Fitz, he was so unexpected. Yes he was cocky and arrogant but when he was with Brooklyn he was so vulnerable and tried so hard to be the man she needed. There were times I wanted to hug Fitz and tell him to hang on as the wait would be worth it. The chemistry between Fitz and Brooklyn nearly melted my kindle! The rest of the band were just as amazing as Fitz and provide some light moments. The story draws you in and spits you out at the end leaving you with one hell of a book hangover and a new book boyfriend!

Robin Parrish says

It is no lie that I love rock stars. And this book is all about the rock stars of the band Renegade. Fitz is the talented, womanizing, and gorgeous lead singer. Fitz meets Brooklyn who is the best friends with the band's manager. Fitz leads the lifestyle that we all are so envious of when it comes to reading about rock stars. Brooklyn, on the other hand, is leading the life that 98% of us lead in comparison. When Fitz and Brooklyn meet while she is visiting New York, sparks fly. There is just one little problem. Brooklyn has a boyfriend, Hank. And while he isn't Fitz, Hank is what Brooklyn has settled for. Fitz takes a huge leap of faith and this novel tells the story of the fallout.

This novel is hot. You cannot read it a work or when this kids are around. This is one you have to read privately. I am not trying to imply that the entire book is sex, sex and more sex. It actually isn't but when it happens, hold on! What I enjoyed most about this book is that the author did not shy away from the details of each characters life when they weren't together. This gives the reader ample time to get to know the character and their intentions. Books and the characters inside of them are so much more than love stories.

It is the writers duty to introduce to the characters and make us understand them, believe them and want to be part of them. Ms. Dahlgren does it. She makes the reader feel like the characters are real and the feelings are real. This novel is well written and I can't wait to get my hands on more by her!

Cora Kenborn says

Since rock romance is my thing, I eat these books up like starvin' girl at an all you can eat buffet.

Finally, I received got my hands on Renegade, and thought, I'll start this tonight—tonight being around 2am—and finish it tomorrow. Fast forward to 8am, I sat with red-rimmed eyes as my whole house woke up refreshed, and I was frozen in a Fitz-hangover. Let's make that a hashtag, shall we? #fitzhangover. It's a real thing, and it's brutal.

I have a new book boyfriend, and Fitz be thy name. Holy guitar strings, Dahlgren sank her hooks in me from Chapter One and I flipped those pretend electronic pages until I was all but licking the screen at the end. If you're looking for a new rock star to electrify your world, look no further than Crosby Fitzgerald.

Dahlgren flawlessly tells the story in a fast-paced dual POV, starting with the perspective of Brooklyn Adler, a self-conscious, mundane woman who lives for routine and complacency. *yawn* But, don't feel sorry for her. She's okay with her humdrum life as a bank manager and doesn't mind going home to her wet noodle of a boyfriend, Hank. Her life is safe, and that's just the way she's always envisioned it.

Until she gets a call from childhood friend, Poppy. Poppy is the outgoing manager for the insanely popular band, Renegade, and she wants Brooklyn to come to New York to visit her for the week. After multiple rejections from her friend, Poppy refuses to take no for an answer and Brooklyn finds herself Big Apple bound.

Fitz is the lead singer of Renegade and a dirty dog of a womanizer. Yet, underneath he is a good guy. He's the male version of the proverbial "hooker with a heart of gold." Only it takes a chance meeting with Brooklyn to bring out that side of him. Sparks fly during their initial meeting and from that moment on, Fitz knows, no woman will ever compare to the petite, shy brunette who has captivated him. Brooklyn falls for Fitz as well. There's only one problem. Brooklyn has a boyfriend and a life she's returning to at the end of the week.

Dahlgren is masterful at creating tension and the push and pull effect of the "will they or won't they" excitement. The reader feels deeply for both characters, understanding their reluctance to commit, yet hoping beyond reason that they give into what they (and everyone reading) wants. The build-up to the big moment is monumental. And when it does happen, (wipes drool off of chin) it's one to go back and re-read about seventeen times. Not that I did that. (I totally did that.)

Dahlgren's knowledge of the music industry is on point, and the reader feels like they are at a Renegade concert. The story is fast-paced, the characters all have their own personalities and the dialogue is poignant, hysterical, hot and swoon-worthy all at the same time. Fair warning, Renegade has some pretty intense sex

scenes, so if you are easily offended, well, you've been warned.

Basically, Renegade is everything anyone could ever want in a rock star romance novel. If you haven't bought it—what are you waiting for? Run, do not walk and download now! And after your #Fitzhangover, just take two aspirin. But don't call Fitz in the morning. He's otherwise occupied.

Kathy Aronoff says

I would like to sum up this review in one word FITZ - OMG this guy is seriously hot. Ok so he is the lead singer in Renegade and he and his band members are everything bad boy rockstars should be, hard drinking, hard partying, hard.....well you get the idea, all except Bass Player Nate, he is committed to Poppy the band's outrageous, no holds barred Manager and lets face it - with this group she does need to stay on top of things.

Now for Brook (lyn) here is Poppy's BFF from school days who lives clear across the country and is the POLAR opposite of Poppy. Brook and Poppy do the long distance friendship thing and what Poppy truly hates about Brook not being around, is her so called boyfriend Hank - OK this is where we get into 4 star territory - This guy has absolutely NO redeeming qualities. Brook & Hank live together for about a year and WHY?? Everything they do & I mean everything is by schedule and if Brook veers off by the tiniest bit - well Hank just cancels whatever they were going to do. So after a phone call from Brook Poppy insists she gets her ass on a plane and goes to New York where the band resides after finishing their current tour, needless to say Brook (lyn) does not want to go but finally says screw it and gets on the plane thinking her and Poppy are going to have real BFF time, ah no. Poppy is going to give her a mini makeover (the bathroom scene between these 2 is a laugh riot) and shove her in the direction of super stud Fitz and let me tell you, it works - Brooklyn is her name and although Hank refused to call her that, Fitz makes no bones about using her real name. He is so smitten that even when she "friend zones" him - he takes her on a non date that most of us would have died for. Ok more reasons why I didn't give this 5 stars, Brooklyn's constant habit of lip biting started to drive me nuts - it occurs almost on every page she is involved in and even though Fitz loved it - me not so much. The other reason is towards the end of the book, Brooklyn does something that Poppy never knew about - which I kinda thought was strange being they are bff's and all. Lastly it does not appear this is a series and not getting more of Ethen is kinda of a downer, he really puts the Bad in Bad boy rocker.

Tricia says

Love this book

It's a must read. If you love rock star romance this book is for you. Fitz is the perfect rock star and swoon worthy. Brooklyn is the perfect girl for him. I can wait for the next book.

Caryn says

LOVED IT!!

This was such a good story and I read it in one sitting! This was Heather's first rock star book and I say she hit it out of the ball park! It is the love story of the lead singer, Fitz, a strong and very confident man and Brooklyn, a shy introverted woman with almost no self esteem. When they meet, thanks to Poppy,

Brooklyn's best friend from highschool, both of them feel an electric jolt like never before. Fitz has always been the bachelor who is into one night stands and certainly isn't looking for love. Brooklyn lives with her boyfriend, a very dull man who needs a set schedule...even for when to have sex!
The week Brooklyn visits in New York is the week that changes her life. Fitz makes sure of that!

BRAVO...a very good story!!

Jennifer Pierson says

Brooklyn Adler has what she believes is the perfect life that she planned, with job, house, and boyfriend all checked off. She's told herself that a routine life is ok, but lately, she finds herself questioning everything. When her best friend offers her a trip to come and visit, Brooklyn decides to go for it, even though her bestie is the manager of a wild rock band. Crosby "Fitz" Fitzgerald is the lead singer of the famous rock band, Renegade, and living a life he never planned on. He lives for excitement, and is always spontaneous. Fitz meets Brooklyn, and knows they're complete opposites, but they have a strong connection anyway, and life will never be the same. Will Fitz be able to show Brooklyn that living life to the fullest is the best way to go?

WOW! I loved this story so much that I devoured it in one sitting. The character development is great, with a hilarious cast of secondaries. Flammable chemistry tried to melt my kindle, and finally ignites into fiery flames of panty meltin' sexy scene goodness. Heather Dahlgren's talented writing style made it impossible to put this book down for any reason, and I didn't want it to ever end. Her witty dialogue had me laughing until my sides hurt, and there were some emotional moments that had me a bit sad, but thank goodness this wasn't a cliff hanger book. I really want the author to write all the band members a story, as they were ALL AWESOME! So I cannot HIGHLY HIGHLY HIGHLY RECOMMEND Renegade enough!
