Desire: Gabby & Daniel Lilia Moon

Gabby's friends know she's getting curious - and there's just no way they're going to leave that alone...

Gabby is a sweet, cookie-baking forty-three old receptionist, mother to three grown girls and deeply in love with her two granddaughters. She's never felt the tiniest bit kinky - but the deep happiness in her office is contagious, and it's doing some strange things to her very private daydreams.

Ten years ago, Daniel had subs lining up for miles to submit to his inventive skills. These days he's looking for something different - but even he can't imagine a forty-three-year-old grandmother is the answer.

Until he meets her...

*****5 Very Worthy Stars!*****

MINOR SPOILER WARNING: As this is book 3 in the series there may be minor spoilers or previous plot references below.

What woman hasn't had to learn how to get out of her own way? It can be hard to measure up to the pressure we put on ourselves. Now, imagine those pressures in a Dominant/submissive (D/s) relationship. Giving yourself over to another person isn't easy in a vanilla relationship. Putting your insecurities and trust into a Doms (D) hands can be overwhelming and terrifying. Desire, Lila Moon's third entry in the Fettered series, handles the delicate task of teaching aspiring submissive (s) Gabby her worth through the eyes of her Dominant.

"Truth, freely offered, is the most powerful aphrodisiac there is. I just wish I knew how to share it with those pernicious doubts of hers."

You don't often find a 43 year old grandmother the heroine of a BDSM novel – or many others for that matter. Gabby Mitchell, cookie baker and cooking class instructor to the members of Fettered, has been a little envious of her co-workers' new D/s relationships. Seeing Emily and Scorpio so head over heels deliriously in love with their respective Dom's is unleashing a kink curiosity in Gabby. She's ready to explore her urge to submit. Identifying herself only as a single mother and grandmother, Gabby's not sure there's a place for her in the D/s lifestyle. Lucky for Gabby she's got friends in just the right places to help disabuse her of that notion.

"My students scramble for ingredients, and I take a minute to try to get myself back under control, or at least back into the grandmother persona that seems to help navigate best here."

Daniel Jardins, founding member of Fettered along with Damon Black, left the club and the lifestyle years ago. Searching for more than a play partner and 'hot Dom' status, Daniel's still drifting and wondering what went wrong. Longing for the comfort and intimacy a lover provides, without the distractions of equipment and sceneing, this semi-retired Dom has no idea how Gabby is going to rock his world. An invitation from Damon to come to the club's cooking class has him fascinated with the sexy sweet grandmother. He quickly decides he wants to sample more than Gabby's cookies.

"This cookie baking grandmother, whoever she is, has apparently unmanned a whole sex club."

Cutting right to the heart of the matter, Daniel steps in and begins instructing Gabby all about her beauty, worth and kinky desires. Although Gabby's got some reservations she's ready, willing and able. Or so she thinks. If only she could silence the doubting voices in her head. An intuitive and wise Dom, Daniel uses every trick in his extensive Dom bag to help Gabby stop the negativity...even if it leaves her butt a little sore.

"I don't walk in world where handsome, confident, charismatic men drop into my kitchen and ask me out to dinner. I grew out of fairytales a long time ago."

The care and compassion Daniel gives to Gabby is breathtaking in its devotion to the woman he is quickly falling for. Daniel is easily the sweetest and most demonstratively affectionate Dom we've met so far. His

reflections of his life and the lifestyle enable him to have a perspective that most of the younger Doms have not achieved.

“Beautiful, baby.” He kisses my forehead, my cheek, my ear. ‘So far out of your comfort zone.’”

Desire centers on self-confidence and worth in the guise of a middle aged grandmother and it is easy for the reader to see the parallels all women struggle with in the current societal environment. Gabby’s battle with her inner demons takes the majority of the novel to resolve. Her feelings of inadequacy do not disappear overnight – and they shouldn’t. The plotting of her eventual acceptance and embrace of her self-worth are realistic and paced well.

“To feel, most moments of most days, like a woman worthy of that kind of love.”

The sensuality and eroticism are somewhat softer in Desire. Make no mistake – the schmexy times are plentiful. ‘Baby kink’, the lighter side of D/s, is displayed in the majority of the intimate moments, but made no less powerful in their message of mental and emotional surrender – in fact, some of them are made more powerful for their simplicity.

“The soft moan as she tips over the edge as gently as I can take her is the best gift I’ve gotten in a really long time.”

As we’ve come to expect from previous books in the series, the Fettered and Your Perfect Moment crews are back and supportive as ever. Desire maintains its focus on the core of Daniel and Gabby’s relationship, but the side trips to see their friends and family rally around them provide insight, humor and loyal affection. These are the friends everyone wants to have – their genuine care and consideration is another lovely theme that runs throughout the series.

“Damon and Harlan might not appreciate being called fairy godmothers, but I’m pretty sure they’re mine.”

I love returning to the Fettered world. With each book, Ms. Moon takes the reader on an emotionally packed fantasy into the core of BDSM. Here this community welcomes everyone no matter their kink - heavy or light. Emotions and vulnerabilities are explored in a loving and forthright manner, fears laid to rest. A place where BDSM will turn your head inside out and make your heart beat faster. Where friendships are made and lovers are discovered. Kink may be Fettered’s trademark, but its heart and soul are the people and the trust, loyalty and love they build. Bravo, Ms. Moon. I can’t wait to see where you take us next.

“To do that is to doubt the truth that lived in every single one of those moments.”

Thinking of you Daniel...

I wanted so much to be with Daniel the love and kindness he had was so nice that all I can think about is falling in love with him and making everything work the way it was supposed to. I will be forever be dreaming of you Daniel and wishing to be held and loved by you like a Dom and Sub should be...DOUBLE_G_N_DRP 4REAL4EVER

Who knew older people could be so hot. Even though Gabby and Daniel are in their 40s they show just how hot it can be when the kids are no longer at home. Gabby is a wonderful mother, grandmother, and cook. However she doesn't see herself as a sexual being. Daniel has been a Dom for a long time but has been missing something in his life. He finds it in Gabby. I think it's so sweet to see Gabby opening up with Daniel. She is so amazing and deserves some TLC which Daniel enjoys giving her. I also like that he allows her to give back. Got teary eyed towards the end too. I really want to know what's in the box at the end. I received this book for an honest review.

I think this one might be by favourite one in the series so far.

I picked this up because it was in \$0.99 box set and because the words "43 year-old grandma" did me in. And oh my gosh was it awesome. Gabby is a single mother with an empty nest and a mile-wide caretaker streak. She's entered the periphery of a BDSM club and the members adore her so much that they decide to set her up with a long-time semi-retired member. Daniel is so sweet and off-the-charts sexy and I don't know that I've ever seen a cinnamon-roll Dom hero before but I would definitely like to see more.

I'm going to copy/paste the same review for each book in this series since there aren't many variations. No spoilers

2.5*

Different cast but the script follows the exact same plot scheme in each of the seven books: two characters we barely know meets for the first time and pair up for casual kinky sex that suddenly becomes very serious, monogamous, almost vanilla happily ever after love relationship.

Everyone is quite anonymous: the differences in personality and physical appearance are just skin-deep, and everyone acts in similar ways. Even age and social status - as it was supposedly intended for this book -, or past experiences, when mentioned, aren't more than just a number or a tag, rather than a way to better detail the person.

Book 6 and 7 are slightly better because main characters have a bit more in-depth and nuances: Chloe and Eli - and their relationship - are managed quite well as characters (probably thanks to them being childhood friends) while Meghan's character and storyline in book 5 are the ones worst managed.

They still are a fast, light, easy reading anyway.

This series is funny, sexy and hot, hot, hot. Each book features my new favorite couple. Read in order or you may get confused. I have read them all and would highly recommend. PS Shouldn't be any "triggers".

What a fantastic book. So refreshing to read a book with the H/h in their 40's. The story was character driven with steamy sessions handled with heat and sensitivity. I thoroughly endorse this book. Read it, it's great!

OOOOOMMMMMGGGGGG (yes I am that kind of woman LOL) I cannot begin to tell you how much I LOVE THIS BOOK (yes I'm screaming that). It was full of characters I love from previous books, full of heat and immediate connection and love and the HEA I enjoy! Definitely a must read book. So glad I found Lilia Moon and cannot wait to read more of her books. I love that Gabby takes care of everyone else and now Daniel is here to take care of her. I love that she gives cooking glasses (so funny) to the Doms. This book is definitely a KEEPER and a re-read waiting to happen LOL.

Fantastic

Couldn't put this book down as with the other 2 books. Can't wait for more. Write faster Lilia! Please. Must read

I'm in love with this series. I get lost in this world of wedding planners and Doms. It's my kind of blend between soft and spank.

Kate says

I love this series!! The characters are wonderful, this book has 2 older main characters and the love is wonderful!!

Vanessa says

My only problem with this book, is why are a 43 and 45 year adult considered old? Why is Gabby described like she is an 80 year old woman who coddles people and bakes them cookies? And why is Daniel described like he is on his last leg? That is what I got from it and let me just say, I'm a 47 year old woman with 4 adult children between the ages of 20 and 26, and I'm not old.

Is the author 19 or something?
