Protecting Faith

Lynne St. James

Protecting Faith Lynne St. James

Will he be able to keep her safe?

After he had finished a job in San Diego, Ex-SEAL Chase “Frost” Brennan stopped by to see old friends. Meeting up with Wolf and the rest of his team at their old hangout, the last person he expected to see was the only woman he’d ever loved and the only one he couldn’t have. But maybe this was his second chance.

Faith Murdock was a civilian psychologist for the Navy by day and burlesque dancer by night. Dancing was her release. It kept her sane and helped her forget the one patient she couldn’t help—a Navy SEAL who’d stolen her heart.

When she started receiving anonymous notes, she thought it was nothing. Then they became threatening, and she knew she had to ask for help. There were only a few people she trusted, and Wolf and Caroline were two of them. The other was Frost, but that was a long time ago. Seeing him at her show was like a dream come true. But she still wondered if it was a coincidence or was he her stalker?

Faith wasn’t the same woman he’d lost three years ago, and Frost had his work cut out for him. But with the help of Wolf’s team, he’d do what it took to catch the stalker and save his woman. Because whether she knew it or not, she was his and this time she wasn’t getting away.

Marie Brown (Marie's Tempting Reads) says

Marie's Tempting Reads ARC Review:

Eeeep! Another super great book in Susan Stoker's Kindle World series, this time from Lynne St. James! Protecting Faith had loads of suspense, mixed with unforgettable characters, including our favorites from Susan Stoker's SEALs of Protection and we get Lynne's brand of writing that drew me in immediately. I freaking fell hard for Faith and Chase! I loved how they got their second chance, even if it was because of a crazy stalker following Faith. The suspense had me on the edge as I followed Wolf and Caroline, Faith, and Chase as they worked together to find out who the stalker was.

In between the mystery, we get romance and second chance love that had my heart fluttering. Miss St. James never ceases to amaze me with her knack of creating a story with a plot that can steal my breath and keep me guessing. Her characters I always seem to fall in love with. They are charming, fierce, sweet, loyal, and full of compassion. And protecting Faith may very well have my two favorite characters of all time! I loved having a heroine who was a psychologist in the AM and a Burlesque dancer by night. I am so fascinated with her being a burlesque dancer and the scene that played out was so...enchanting. I loved it!

Protecting Faith gets a SERIOUSLY AMAZING FIVE SHOOTING STARS! This may very well be one of my FAVORITES in Susan Stoker's Kindle World so far. Great Job Lynne St. James...Great job!

Terra Oenning says

Wow great story!

Holy smokes such a great read and it was such a fast read. I absolutely loved it. Can't wait to read more of this series and author.

Alyssa Bailey says

Nice visit

It was a nice visit with the gang but too short. The plot was good, the characters likeable, but the telling was too short. I had hope for more fleshing out of the characters. And my recommendation would be a good second reader or editor. Otherwise. A good read overall.

Sandie Grise says

Author Lynne St James is an author that you want to have on your MUST READ list in the contemporary military romance genre- she's certainly on mine! If I could give this book a higher rating I would, but alas all we get is 5 stars.

This novella is part of author Susan Stoker's Kindle World- which already has a reputation for excellence. Each author that "I have read" that has participated has kept up to the quality of book that Ms. Stoker has put out in her own writing, this book is no different.

Ms. St James writes our wounded warrior Chase with self doubts, not of his ability of protecting people but of the love he left behind...

Faith wonders about that "what if's" almost daily about the one patient she ever had feelings for and if she was truly honest with herself, the one she fell in love with but never said a word about.

From the first page this book will grab your attention and hold it until the last page! Novellas are short which poses a challenge to for authors to get as many details in a book but also write in a manner that they can convey a story that's well written not to mention to capture the readers attention and deliver a Wow factor that's found in full length novels- I feel that Ms. St James has delivered that to us in spades. I was amazed at the attention to detail in the back story between the two main characters while also incorporating Ms Stoker's characters from her military series. The twists and turns in this book drew me in like a moth to a flame. I devoured this book in one sitting and sat back in awe at the complexity of topics that were covered in this book. Each topic was well addressed and the reader as the reader is immersed into life the lives of the characters.

Buy this book- you will be glad that you did!

Buy it, Read It, Write a Review and Share it with your friends!

I received this book as an ARC of this book and these are my personal thoughts of what I read.

Ps- I liked it so much that I bought it too!

Patricia Mattingly says

Special Forces: Operation Alpha: Protecting Faith

Read this book everyday life that happens when you have a creepy stalker. I loved this book and I cried for what he did to her but like Faith said I am still alive read it.

Merle says

From the Special Forces: Operation Alpha Kindle World. I was pleasantly surprised to see that SEAL of Protection had crossed with Beyond Valor and Eagle Security and Protection. Faith and Chase are a cute couple and have to face some trials before their HEA. When they first met, Faith was treating Chase for his post-service trauma, having lost his entire team except for one other man.

She moved away from him in order to maintain her professional demeanor but missed this big, troubled guy. He thought she was the one for him but was so messed up after his disastrous last tour that he needed to find himself first. Only in books can these two meet up in a huge coincidence, and it's a great meeting. Unfortunately, Faith is in trouble and needs the help of Wolf's team. as well as Chase to make it through.

They have a trial by fire to pass through and you just know they will. This one could actually have been a little longer, with some more of the aftermath reflected in their HEA.

Pet says

There were elements of this story I absolutely loved, and parts that I didn't, but what got me was the lack of real sparks between the characters. They had all the makings of heat and fire, but somehow it just fizzled a little. I got why she cut him off, I mean truly she had no busyness getting emotionally involved with a patient, big no no, and it's that for a very good reason.

But honestly if he really was that in love with her, three years is a bit much to waffle about without going after her, which made his feelings feel a shallow and not real.

But I did enjoy the story overall and it's a nice light read.

S. R. Lewis says

Suspense and love

This book has the usual great characters who are strong and loyal and the story has great suspense! I really enjoy the writing. I do wish the ending had a few more pages and was tied up a bit more. A very enjoyable book.

Tina says

Faith helps others but finds her release in burlesque. But she has picked up a stalker. Is it her day job or her release where she has crossed paths with her stalker? Can old friends help Faith before her stalker goes too far?

Protecting Faith by Lynne St. James is pulling double duty. It is part of Susan Stoker's kindle world and fourth in Ms. St. James Beyond Valor series.

I enjoyed Ms. St. James story. I loved that she didn't limit her entrance into Ms. Stoker's world strictly with her men. We got to revisit their better halves as well. And Faith fit in well with the crew. She is a strong woman who isn't used to depending on anyone for help, but she is out of her league with the stalker. It doesn't help that her past, in the form of Chase, appears just as the stalker is escalating. And Chase is facing his past in more ways than one. I love how decisive he is. He knows that Faith means something to him and is in a better frame of mind to fight for her heart.

Ms. St. James does a wonderful job of combining her world with Ms. Stokers. It is well written and fits both worlds. Faith is determined not to be a victim and with the help of friends, she is ready to make a stand. I thoroughly enjoyed Ms. St. James story and look forward to reading more from her in future.

Five Shooting Stars

Melenia says

I enjoyed this short and sweet read.

Rebecca Warner says

Faith is a psychiatrist by day and a burlesque dancer by night. She started dancing as a way to clear her mind and refresh her spirit after a particularly trying case involving a Seal named Frost. She couldn't stop thinking about him and the one kiss that they shared.

Chase, formerly Frost with the Seal teams, left three years ago after looking most of his team mates. He moved to Florida to be closer to his brother and started a security service called ESP. When a case brings him back to San Diego, he decides to look up some old friends including a doctor that he still loves.

Faith has a stalker who has been leaving her notes for the past several weeks, but the dead robin was the last straw. Her friend, Caroline, convinces her to talk to husband who has just reunited with Chase. The stalker has decided that Faith is the one and its time for them to begin their happy ever after by killing them both.

Can Chase and the Seals find the stalker before it's too late?

Izzie d says

A second chance romance.

The characters have met before so their feelings are pretty fast but as 'she's the one that got away' it works. Great to read it as part of Susan Stoker Kindle World. Wolf and gang are there.

Vickie Chaisson says

St. James has a hit on her hands!

I love second chance at love stories and St. James really pulls this one off. Chase and Faith are the perfect couple. All the reasons why they couldn't be together no longer apply and it's nice how this story comes together and they get their HEA ending. The secondary characters are two of my favorite people Wolf and Carolyn and the Seal Team from Coronado. With a serial stalker who is escalating his threats Chase and Faith must work through past issues and current problems to stay alive. This book is a quick read and very enjoyable.

Lisa B. Lovely says

I loved this book. Chase and Faith , whew! There is so much history and love between them. Second chances don't come around for everyone but it sure worked out for these two. The story kept me enthralled from page one. The writing is great, the plot was fantastic and I loved these characters. Great job Lynne St. James!!

Alznuthouse says

Not so great

I understand that there are a lot of different authors to this series. The problem is they don't add the points of those books I like. I like great authors who make sure there is mystery, action, a seal if possible and great hot sex. Rethought all of those in a book, to me, it will always fall flat. If your gonna try to write like Susan Stoker than at least make sure all the necessary elements are in these books
