Faded: The Trillest Kind Of Love K.C. Mills

Samiq “Shooter” Young learned at an early age that love doesn’t make you responsible. His parents chose their vices over him, and although they were there, they fell short when it came to providing him with the things he needed.

That deficit forced him into the streets and into a different type of family where he had to do whatever necessary to survive. Years passed, and he built a one-man operation that was just enough to provide him with a good life but kept him under the radar. However, as a man, he once again learns that love doesn’t make you responsible. When one of his transactions are interrupted by his ex, who chose her vices over raising the daughter that the two of them created—a daughter that Shooter wasn’t aware existed—he’s left once again to pick up where someone else fell short.

Refusing to be a mirror image of his parents, he had some tough choices to make, which meant rearranging his priorities enough to be a father to his daughter.

He walks away from everything and grinds in any way possible to make sure they both have what they need. That left little to no room in his life for anything other than being on his grind and raising his daughter, until her...

Unfortunately, Shooter finds himself stuck between what his heart is being pulled to and what his mind is fighting against. Once you’re faded off of love, you no longer have control, no matter how hard you fight to maintain it.

Good Read

I enjoyed this book. It moved at a slower pace just like the author said it would, but it was not boring at all. I like how the characters are in their late 20's and early 30's. There is definitely chemistry between Samiq and Nomi which in my opinion is very important in a story. Anyway, it was something different, but I liked it. I look forward to reading part 2. Good job, K.C. Mills.

??????????

Never disappointed when I read K.C. Mills books. This had just the right amount of drama. I liked Nomi and Shooter for each other. I also loved how protective Shooter was with his daughter, he didn't play any games when it came to Ari. Rivica and Dreek are also a good couple, I can't wait to see how things play out. That ending though ?? oh I'm ready to jump in the book and punch that lady dead in her face???

Cliffhanger!!!!

Although nothing showed that this could be a cliffhanger (had I known I would not have read it until I hear the second one was out) I am still giving it a 5 stars because it was that good. The story line was very good, with no grammatical errors as well as no confused sentences.

Samiq "shooter" was so alpha and badass yet a sweet teddy bear that I kept a smile on my face whenever it was his turn in the story. He was just that good. Ari, man she was sooo cute...

Nomi, strange name for a girl, was really perfect for him besides being a little bit naive, childish; but still a very good person at the end.

This story was truly the epitome of what goes on in everyday life, every seconds, in one part of the USA. Drug use (in any form is a non negotiable aspect for me but this story was perfect), black lives, drug dealers, pushers, sellers are all part of our society and this author bought it out, discussed it and spoke about it.

I must say, I am more a interracial romance kind of reader, but every now and then I would look into a strictly African American romance, new author or not, and see what I could spark with and this one did. I hope I don't get disappointed with any other stories from this author and even with the second book of this story.

MS. Mills you have done this story and I am already a close follower if any other work you have done or will do. Thank for helping me get out of my comfort zone!

Nomi & Ari are the life of the book

Nomi personality is what pulled me in. Samiq was going over board with his protection of keeping his daughter so secluded. I feel like he had the right mind set but he went about it the wrong way in some situations. But I respect him for protecting her. And keeping her from women like Evie. I was so excited seeing him look past Nomi and her small habit and baggage that her lose created. Dreek met his match with Riv but Yahma is going to mess it up if he don't get a handle on her salty self. His secret he is protecting his mom from is going to bite him in the you know what, not if, but when she finds out. Nomi father is sad sack of potatoes and her sister isn't no better. She may not have known in the beginning that was her half sister man. Yet when she found out she disregarded that info and carried in her relationship with him. That there shows she will NEVER have a relationship with Nomi. The story was cool but had it not been for me wanting to see how Nomi makes out with this charge I wouldn't bother with book 2. The sex scenes where boring to say the least. I didn't agree with the way Samiq handled his parents but to each their own. He did what he thought was best. I love the fact that his mom wanted better for herself. His father on the other hand needs to grow some balls and move padt his junky mentality. And want better for himself as he should want for himself. Whatever lead to his craving can be overcome but only if he wants it. Which based off his character he doesn't. And really why should he when his son has him living and getting high like a King. I feel like there was many questions I had while reading this story that wasn't answered but just maybe they will be in book 2.

K.C. Mills I truly admire your work absolutely love your style. Not the grimy drug dealer meets girl story. Samiq was a great guy and became an even amazing father he grew up hard and was afraid to give his heart away. The only women he loved was his mom and daughter Ari until he met Nomi and she changed how he viewed his happiness. Dreek is samiq best friend and he doesn't know how to love until he meets Riv and she steal his heart. Samiq can't get rid of evie she is jealous of nomi and wants answers why she wasn't good enough. Hurry up part 2!!!#143

Nomi & Shooter

That ending was crazy as hell, I'm so happy shooter stop playing games & finally accepted her. I want to know how Evie going to get mad at shooter for not wanting her when she in the club getting fingered by a whole dude then there is Dreek & Riv he need to handle Yawana crazy self how you mad he don't want you more & Riv need to trust him more if she gon be with him she can't keep holding everything over his head then jumping to conclusions can't wait until part 2

Great book

Ms. Mills you never disappoint. Samiq is a no nonsense type of man and he doesn't play about Ari. Nomi is a loving and caring person put into a situation that is messed up and because of it she walks around with the weight of the world on her shoulders until Samiq comes in and removes that weight from her shoulders. Riv is exactly what Dreek needs. I hope he uses this second chance and lives up to it. Yawna and Evie need to kick rocks because what they had with Dreek and Shooter was never that deep and they'll never be what or who they want. Counting down the days til book 2 is released

Must read!

I soo was not ready for that ending! I got a gut feeling that evie had something to do with that with her salty butt. I love the relationship that samiq and nomi is building but hopefully this bump in the road wont stop it. Hopefully dreek will get it together so he wont lose rivica because she good for him and i hope she can get him to kick his little habit. I loved loved loved this book and i cant wait to read part 2!

Awesome

I love this story. Not every man is like Shooter. I love his character for stepping up doing doing what a man is supposed to do. Nomi is timid and scared sometimes to me. She overcame a tragedy and slowly picking up the pieces. Helaing goes both ways for Samiq and Nomi. They made for each other and balance each other out. Baggage yes but with love it will make that baggage that much lighter. Dreek and Riv story is a work in progress. 2 strong willed people bound to bump head but they gonna make it. They good for each other Loved this book.. Can't wait for part 2

Good Stuff!

Whenever I read this writer's work I know that it is going to be an adventure and I have to say that I wasn't disappointed.This is a well crafted story from beginning to the very end.The writer weaves a good story that is so solid that you are totally stunned when it comes to an end.This is good solid writing and really solid character development.Look forward to the next installment.

That ending was petty

I love the way kc take you on a rollercoaster as she explains the reason why each character how the became who they are. The fact she leaves mystery to the story all the while making you fall in love with each character. This was a little different a love story with two of the main characters using drugs. But I fell in love with both of the storylines samiq is the alpha male who just wants to protect who he loves. Naomi can't get over her past and guilt but with samiq help manages to do it slowly. Dreek the ultimate ladies man with a small habit and a lot on his shoulders. Finally finds himself in love for the first time and with a firecracker name rivica. How you going leave me with that ending after I was getting happy for naomi get something good happening in her life. Can't wait for part two

Siobhan

Great book. I love how you let us discover the characters in this book great job with that i now understand them better. I'm mad that that lady went after Nomi like that when she know her husband was drinking i feel bad for Samiq i hope he don't walk away from Nomi when she need him the most they make a good couple i love his daughter Ari, i wonder if the mother going to come back in the second part. dreek and Riv are good together she just have to always stop jumping to conclusions and let him explain things to her i can't wait for part 2

?????????

This book was different from what I usually like because it focused more on building the relationships then gun slinging and drugs drama but it still kept my interest. I love nomi she was dealt a bad hand but she's still trying to push through. Riv she's a no nonsense chick and I like her character. Dreek and Shooter I definitely book baes. I don't even understand why evie is still here go away.

GREAT BOOK!!!

I really enjoyed this story...it held my attention from the beginning to the end. I expected nothing less than the best from KC. She never disappoints me. I love Nomi and Shooter together. Nomi is good for Lil Ari...Evie and Tawana needs to go away. Dreek and Riv are good for each other.. Now that ended I definitely didn't see coming...this is definitely a must read. I can't wait to read part 2...great job as usual#143
