At first I thought this book was going to have a predictable outcome , boy was I very mistaken! When I read crime books I always like to try to guess or figure out who done it. This book had me changing my mind so many times it was crazy. I loved the fact that this book had a totally unpredictable story . As soon as I think I have it figured out BAM! I was wrong way wrong. Great story lots and lots of twists and turns I really enjoyed it. I could compare this book with ones written by John Grisham who has very shocking and unexpected plot twists. I will definitely recommend this book to crime drama fans.

I won this book on Goodreads and didn't know what to expect since I wasn't familiar with the writer. I was pleasantly surprised to find that this story had very interesting characters and plot. I liked the juxtaposition of two very different lawyers and their courtroom drama.

CRIED FOR NO ONE is a great read. The book cover was all about a body stolen from a grave and placed in a defaced church, but the book was more about drama in the courtroom. Jace Forman is a lawyer for the funeral home being sued by the parents of the deceased. The parents are being represented by Cal Conners, an unscrupulous lawyer who is not above breaking the law.

This book kept me on my toes for the entire read! However, I was very disappointed when I got to the end. I discovered that there is a sequel, and there are a couple of unresolved issues. All in all, I recommend this novel. I received this book for an honest review.

## **Maggie says**

This was a first novel/book from the author who was a well-known, successful lawyer in Texas. I'm honored to have known him during his law years. So enjoyed reading his first novel Cried For No One which is a story based on a real life story although this is fiction. It was fast faced and kept me guessing. I think I read this one in record time. It was hard to put down.

Couldn't get into this one, so I put it aside.

Although this book was well written, I found it hard to stay focused on the story. It lacked the amount of suspense that I was hoping for, yet it had a good, unexpected twist to the end. I received this book as a Goodreads first reads giveaway, in exchange for my honest review.

## **Mike Douglas says**

Hubert Crouch is a very good writer. This story is based on one of the cases he handled years ago. He had the ability to keep me interested in each of the characters. The book shows that the criminal justice system has its faults, but sometimes the good guys win. This was an easy read and I enjoyed all of the characters. Jace Forman fights against a successful attorney named Cal Connors and his daughter Christine. There are lots of twists and turns throughout the story as Jace deals with a case unlike any others he has tried. Towards the end of the book, some loose ends are not explained. One dealing with the senator and the other with Cal Connors daughter who hired a person to keep a reporter named Leah Rosen quiet. We can only assume what happens at the end, but we are not told exactly. It would have been nice to know, but many mysteries end the same way. I rate this book as a 5 because it was very entertaining and enjoyable to read. Make sure you give this book a read. If you like mysteries, you will like "Cried for No One".

"Crouch spins a compelling courtroom drama...a fast-moving narrative which, interestingly, hinges not on a guilt-or-innocence criminal trial, but on a big-money civil case. He's created colorful characters by splicing together a motley assortment of tics and traits he's observed during his 40-plus years of litigating toxic tort, commercial, and personal injury cases." - Pursuit Magazine

"Characters are well-defined to the point where the reader can begin to imagine actual public figures on which they might be based. Their intriguing relations intertwine with startling twists of events that keep the pages turning straight to a powerhouse Texas size finale. ...Well worth the read." - The Islander Magazine, Galveston, Texas

"As a former state district judge, I was riveted to the book. I know Hubert as a top-of-his-class trial lawyer -- now I know him as a top-of-his-class author. Just as he could effectively present his case in a winning manner to persuade a court or jury, he has used these same accomplished skills on his reader -- he captivates, holds our attention and, with all the flair of great suspense writers, weaves a story that you can't put down. Well worth the read!" – The Honorable Alvin Zimmerman, Former Texas State District Judge

"No doubt about it - Cried For No One is a good old-fashioned page turner." - Clay Small, Esq., Dallas, TX

"Suspenseful legal thriller with well-developed, compelling characters, riveting plot that hooks the reader immediately, fast-paced, entertaining story with the right balance of detailed description and quick, realistic dialogue....This well-written novel was interesting, entertaining, and hard to set down." - Merrie Clark, Nashville, TN

What? No second book by this author?

I don't know whether this is even a word but 'Cried For No One' was unputdownable. I was thrilled to read a book which held my interest throughout.

Could things get any worse for the defense? Not only was a popular figure involved with the deceased college student but also someone very close to one of the key characters.

What I'd like to know is: What happened to the Senator? What happened to some of the others?

### **Nice try**

Not bad for an author's first novel but three stars overall. The plot was okay but the characters were stereotypes. And they were all either good guys or bad guys, either all black or all white with no shades gray. This made the story very two dimensional, flat. There was no depth to anyone and no style in the writing or atmosphere. I will read the next book in the series hoping that the author has found his sea legs. And that, as he develops from experience, his writing grows and improves. We'll see.
