## From Reader Review The Witches of Santa Anna for online ebook

### Christyn says

A waste of 99cents. Honestly, I read all the books in the volume I got and I refused to read the rest. don't know which particular part it was that turned me off but just everything about it seemed..... i don't even know. I wouldn't recommend this series to anyone.

### Ejmayes3 says

At best this could have been 1 book, but to say books 1-13 is a little disappointing. A book is more than 20 pages. I was definately expecting more.

### Kae Villar says

It's okay. Kept me entertained. Though it never really moved me. Creeps me out a bit with those butterflies. And makes me think, "When will this end?" "where is this going?". Each book is like a script for an episode on a tv series than an actual book.

### Tracy says

very short read. It was ok definitely worth reading.

---

### Christa says

Great author. Can't wait for the next series.

---

### Jamie Tran says

This book is unbelievably amazing. The development of character and plot was well thought out and I couldn't put the book down! It is a short read and I read it straight for 3 days until I finished it!

### Crystal says

Short books. NOVELLAS, I didn't know this when I purchased them. Heads up to those that are interested. I recommend getting these books at a library if you can. I personally don't think they're worth \$2-\$3 per small book.
