Tina Selena Kitt

Selena Kitt's *Daddy's Favorites*—where naughty thoughts and wicked temptations bring taboo fantasy to life.

Chubby Tina thinks she couldn't hate herself any more than she already does, when she overhears her skinny mother telling a friend, "We're going to be stuck with Tina forever. No guy is ever going to want her." Even though it's her freshman year in college, she vows to quit school and run away. That is, until her stepfather catches her with going out the door in the middle of the night with a suitcase. Tina finally, tearfully, confesses, and is surprised by her stepfather's insight and perspective—and how willing he is to show her just how beautiful and loveable he thinks she really is.

Tabooish...pseudo incest about a step-father/daughter relationship. the girl is a BBW... not consistent with the cover shot, but whatever. Good quick read!

Selena Kitt is my favourite erotica author. I love most of her books so far. This book was no different, it could have been longer, probably needed to be really. It is not her best work, but it is still worth the read!

I hated Tina with a passion and from page 1, her stepfather wasn't much better - this is one Ms Kitt could have really done without. The characters, unlikeable - the message, downright offensive.

Hot quick read. Psuedo-incest so not too taboo and she's over 18. I agree with Bookie that the girl on the cover is not how the girl is depicted in the book. But, she is more voluptuous than a lot of cover models so that's something...

OOOhhhhh....

Daddy likes what Daddy likes and he likes Tina.. in all her not stick thin glory. She has curves that are kicking and Daddy is all about stickin...teeheehee..

He is all about proving to Tina that her breasts, hips, and ass should be cherished instead of shunned.

And Prove to her he does ;)

Selena Kitt's "Tina" is a sexy read! It's smokin' hot and I love the BBW aspects. I love the desk scene! So, so hot. I will definitely be reading more by this author!

I liked this better than "Darla", another book from this series. I still think it's annoying that a female over the age of 12, who isn't mentally challenged, would call her father or step-father "Daddy". Even worse, is when she says it every time she opens her mouth. I get it. The word daddy drives the point home that this is some naughty, taboo material. But when the girl is a moron and a grown man thinks that is sexy, then they're both characters I can't like or care about....and that's a serious turn off.

The best thing about this book is the BBW aspect as it allows this book to take at least one original and unexpected departure from the other pseudo taboo step father books. A refreshing addition that sets it slightly apart from what is quickly becoming a tired, predictable and intellectually insulting sub theme in erotica.

This review is from: Little Brats: Tina: Forbidden Taboo Erotica (Kindle Edition)

I enjoyed this book very much. As a BBW, this is a positive look at the person beneath the skin. Every one has a heart and an innate need to be loved. It hurts when you are surrounded by people who constantly put you down, forgetting about the person within.

There have been pushes celebrating whatever size you may be. Sexuality is each person's right. Every person has the right to feel wanted, desired and to explore what some say is taboo. This book rocked! I loved the storyline and the lesson. The sex was flaming hot! My body was in tune with every word I read. It's amazing to have something feel so real that you orgasm by yourself!

Thank you Author Kitt for a great read! I hope you enjoy. I certainly did!

### **Isabeau Delaunay says**

While I appreciate the BBW main character and the struggles she has with her body - and how verbal and um, tangible appreciation from a lover can positively impact that - I was a little bit about the evil mom vibe. Why does every pseudo-incest stepfather-daughter seem to have to include this trope? There's some nice tension built up around the forbidden / spying aspect, and the sex scenes play up the size thing effectively, but for me this entry in the Daddy's Favorite shorts series was just okay.

Hot read.

Tina has what real men want, the curves and the body, and step Daddy is all for that! if you like the pseudo incest, this will get your motor running!

### **Jessica Gomez says**

The story was nice. The sex was nice too. The mother was a nightmare. The stepfather was a hottie. I would do him too. The ending was bland. It could grow more. what happens when the wicked witch I mean the mother finds out?
