Hollywood Enemy M.Z. Kelly

HOLLYWOOD ENEMY: A Hollywood Alphabet Series Thriller

So you think you've got problems, meet LAPD Detective Kate Sexton and her canine partner, Bernie. Thirty years after Kate's father was murdered in cold blood his killer is back and he's coming for her. After the department decides to temporarily assign her to work with the FBI to get her out of harms way, Kate soon learns that things have gone from bad to worse when she's assigned to help track down, The Artist, one of the most deranged and sadistic serial killers in the history of the agency. As The Artist's killing cycle approaches, Kate teams with hard-headed FBI agent Joe Dawson who has recently come out of retirement to work the case.

As Kate and Joe track the killer, things take an unexpected turn. The Artist returns to the place where his killing cycle began, at the same time Kate herself is stalked by the deranged mad man who shattered her family by killing her father when she was a little girl.

Packed with fast-paced action, loads of laugh-out-loud humor, a crazy cast of new and returning characters, and edge-of-your-seat suspense, Hollywood Enemy is a not to be missed thrill ride.

WARNING: The Hollywood Alphabet Series Thrillers contain adult language and laugh out loud situations that are not for the faint of heart! If you think you can handle Kate Sexton's crazy life order Hollywood Enemy today.

Note: Each book in this series is written so that it can be read without any prior knowledge of any of the others. If you want to start on the last book and work backwards, or start in the middle, you can still enjoy the series without missing anything!

Other books in the Hollywood Alphabet Series Thrillers include, Hollywood Assassin, Hollywood Blood, Hollywood Crazy, Hollywood Dirty, and coming soon, Hollywood Forbidden.

Teri Bogan says

Addictive Reads

This author is fantastic. The stories are original and the characters are deep, realistic, sometimes funny and unforgettable. Try his books, they are a good addiction to have.

Pat Byrnes says

Have you enjoyed the Hollywood Alphabet Series by MZ Kelly??? Then Hollywood Enemy is another Masterpiece by Mr. Kelly. If you've never read a book in the series, you can't go wrong with this one or any of the previous ones either. MZ has a knack for writing a true gumshoe novel, with a sprinkle of LOL humor.

While the humor is not as intense in this novel, you will still smile at what Kate's roommates Mo & Nat think up during this adventure. Hollywood Enemy centers more on Kate and her life. 'Enemy' ties up a few loose ends that have been developing through the Alphabet Series in a thrilling conclusion, with a surprise or two.

MZ likes his humor in his novels, which is why I like reading them. But MZ has some deep thoughts about life which he has incorporated into this novel, which makes reading that much more enjoyable. We are the Dance, not the Dancer, will probably stick with me for a while. Wondering what I'm talking about, well you'll just have to read Hollywood Enemy to find out. You will not be disappointed.

Subhajit Das says

The element I loved about this story is suspense. The intense unpredictability of the twisting plot is the main strength that will make the reader (like me) hooked with the book till the end. Compact storyline and picturesque scenes made this book a pleasing and fast read. Definitely recommendable this one I can say. Thank you.

Gwen Lester-Cunningham says

An interesting story and a good read. It kept me intrigued.

Kathleen J Kunkle says

M z Kelly does it again. Excellent read!!!!

I love this author and her writing style. I have read several of her other books in the series and I've the

characters. There is murder, mayhem, madness and humor and a great story. Can't wait to read more.

Joyce McKune says

Emotional ups and downs.

Kate's life seems to get on track only to be kicked back down. Working two hard core murder cases at the same time. One for the LAPD and one for the FBI.

Sharon Kennedy says

This was better than the last story, as there wasn't as much contribution from the roommates in this story. I also liked the introduction of the abrasive FBI agent, and feel he will become an interesting recurring character. I do feel that the author underused a perfectly good character by killing him off before fully developing him - I have read one of the later books and understand how the story pans out, but do feel disappointed.

Another thing which is starting to annoy as well is this author's continued misuse of the words "discrete" - which means separate - and "discreet" - which means careful or cautious. For those people who know the difference, rather than just thinking it is a spelling mistake, it is very annoying!

Roger says

A good book, the series has been good. Recommend consideration.

Donna says

Murder Extraordinary

A particularly gritty murder suspense story with a lot of twist and turns. A great plot with unforgettable characters whom you might believe you'd see in the headlines. I didn't read this author's bio, but am not surprised he's former law enforcement. A well written story I would recommend to those you like mysteries with a big dose of reality, some humour, and a page turning ride!

Steven L Richardson says

Best yet.

While Kate's sidekicks are funny, this was the first of the series to really have developed characters, plot and dialogue. Very much enjoyed this one and plan to keep on with the series!

Linda says

Hollywood Enemy

I always enjoy reading about Kate and her merry band of crazy friends. They are always entertaining. I especially love Bernie as I am an animal lover.

Sharon Henson Huffaker says

Another one that was hard to put down

Margaret Jensen says

Why I gave the rating I did.

I would have to say that I gave this book such a high rating because of the believable characters and plot line. The thing I liked best about it was not everyone got his or her happily ever after. I think crime fiction and thrillers need to keep that in mind. Not everyone is going to be happy in the end.

Forindiebyindie says

Hollywood Enemy by M.Z. Kelly is the fifth installment of the Hollywood Alphabet Series. Though part of a series, the book could easily stand on its own, but having prior experience with Kelly's work will enhance your understanding of Kate and her friends. I personally have only read this installment and had no trouble picking up on the characters and relationships.

Hollywood Enemy follows the heroine, Kate, who is a detective on the Hollywood Police Force. Kate has her hands full with not one, but two, mysteries to solve. She is up against a bizarre and demented serial killer who is targeting wholesome young women in the name of art. As if that weren't enough, she is also being stalked by the man who killed her father. Each chapter contains some new twist or action scene. The ending of the story may surprise you.

Kate does an admirable job of maintaining her sanity throughout all the plot twists. However, the double-mystery plotline does cause some confusion as the story progresses. At times, it feels as if each individual case she is working isn't given the attention it deserves. There is just so much going on that the personal moments in Kate's life seem glossed over and we don't get to experience her personality or life on a deep level. Personally, I would rather have seen a deeper connection created between the characters and skipped the excessive sexual humor and wisecracks that pervade the book.

Still, Kate herself is a likable and interesting heroine. She is surprisingly normal compared to her wild and crazy roommates and her new case partner, Joe. Only in a book could a man like Joe exist, as he is an insulting, obnoxious, stubborn FBI agent. His creative name-calling was distracting, rather than amusing.

All in all, Hollywood Enemy is a book that makes an interesting light read, in spite of having a few idiosyncrasies that hold the book back from being a well-written mystery. I wouldn't give the book my highest rating, yet I also think it deserves a read. Enjoy!

Linda says

I'm happy to have finally found this series. It offers an entertaining respite in reading. It offers a fun cast of characters, great location, and some interesting mystery elements. Kate Sexton makes a great foil for her crazy roommates. Hope the series doesn't lose its momentum!
