# Reach for the Sky

*Gwen Knight*

## **Reach for the Sky** Gwen Knight

*She is his one desire...*

Werewolf Skylar Callahan turned her back on everything she held dear in search of a career. Now a public advocate for her own kind, her political ambitions have shot her straight to the top. But amidst the glitz and glamour lurks a dark presence, one who is obsessed with claiming Skylar as his own. To survive, she must rely on Wyatt Turner—a sexy, albeit lethal, alpha who insists everything be done his way.

*He is the only one who can love her...*

Wyatt is always looking to stir up trouble, and Skylar is trouble with a capital T. Not only has his wolf chosen her as his intended mate, but she also comes with her very own stalker. Consumed by his need to protect her, Wyatt doesn't care that she's determined to keep him at arm's length. It's his job to keep her safe, which means getting close to the stubborn she-wolf...just the way he wants it.

## From Reader Review Reach for the Sky for online ebook

### Lynn's books says

#### Grrrrr! Not continuing this series

Wyatt...alpha male, dominant, protective, strong, leader and tough. Perfect! Absolutely perfect. Exactly what an alpha is. Sky...hypocrite, whiny, needy, rude feminist. I get so tired of female authors writing female lead characters to be everything Sky is when writing wolf shifter books. Why? Glad you asked. If I'm to believe an alpha for all general reason and purpose is strong, a protector, dominant, ruling, heartless when necessary and etc... then why write in characters that disrespect the role and the alpha? Why must Sky constantly try to put his manly parts in a lock box? Why write about the importance of true mate and then completely utterly destroy this core meaning because our dear female lead wants to be sassy.? I thought Wyatt was perfect but the author didn't even let him bash the sheriffs head in when it was deserved. All of the above and then some lost total credibility with me. Total ridiculous hypocrisy. Too bad too because the basic storyline was interesting. Lack in character quality, too much testosterone and brainlessness in Sky (not to mention blatant disrespect for the position of alpha) ruined it for me. Shame. I really hoped for a manly alpha wolfy read true to the werewolf shifter nature. This was NOT it.

### JKAF says

This is the first books by Gwen Knight I have read and I have to say I love the way Sky put her alpha biker in his place! Awesome book!!!

---

### Lyn Mckenzie says

I am a huge huge fan of this author's work and this book is no exception to that, if anything it made me love her writing even more!!!

Reading this story is an addictive experience, not only are you compelled to keep on turning the pages but as soon as you have finished you need to get the next book! This is a quality I have found that all of her books have, its a talent that she has in spades. In this story you read about issues that can be hard, but I really applaud the author for writing about these issues and how the people involves feel and how they cope on a daily basis. This makes it extremely easy to relate to it as its something that many people go through. It is such a thrilling adventure that keeps you hooked!!!

One of the things I adored about this book was Skyler, I loved how independent she is, how strong willed and how she has followed her dreams no matter what tradition decreed. Even through everything that life has thrown at her she still remains strong, even though she is afraid inside. Now we come to Wyatt who is how entry awesome to read about!!! From the moment he enters the story you want to know more about him. I love how strong and commanding he is as an Alpha who cares deeply about all his people, then you see the man that he is with Skyler, two very different parts of him but as a whole it makes you want to read about him more!!!

I can't recommend this book and this author enough, she truly is an amazing writer and once readers have sampled her work, like me they will be a fan for life!!!

### **Nina says**

Another winner from Gwen! This story kept me engrossed throughout with the suspense, plot, wonderful characters and sexiness that was thrown in. Plus, there was never a slow moment in the book; the story flowed effortlessly.

I devoured this in one sitting and cannot wait to see what Gwen puts out next. I'll be impatiently waiting!!

---

### **Crystal says**

Wow. This is looking to be a fantastic new series! Wyatt is a strong, protective, and very alpha werewolf, but he is no match for female alpha wolf Sky. Sky is in terrible danger with a serial killing stalker, and needs protection in the form of Wyatt, even if she does not want it. Love the plot and the characters are very easy to like and fall in love with.

---

### **Ana says**

Great strong willed female and Big Bad Hot Alpha

Skye is very strong willed and independent even in the face of danger, a very deadly danger aimed at her and she is not about to let a Big Bad Alpha boss her around.

Wyatt is a Big Bad Alpha and he doesn't take anything from anyone and then along comes this little spitfire and she is not going to turn his well laid plans around. Or is she?

There is a very strong clash of wills, who will win?

Another great story by Gwen Knight.

I was given this book in exchange for an honest review.

### **Jori Dodge says**

Bam! Gwen Knight slam dunks with her third book! After my extreme enjoyment of her first two books, I've followed this author's career closely, and I'm happy to report that this latest offering is the best yet.

Wyatt and Sky are dynamic characters with clashing personalities - yet they make it work, and without changing who they are or what they stand for. Bad boys can love, too! And they can still be "bad boys". The art with which Ms. Knight accomplishes this is just awesome.

The start is nothing short of frightening. I can't even imagine living with Skylar has gone through. And the book doesn't shy away from the terrifying concepts - a stalker masturbating over the phone to the sound of

her voice? ZOMG I'll just go hide in my closet now. But Skylar's strength and willingness to face reality makes me want to cheer. She's no wilting lily who needs a man to stand up for her.

And yet, there is a man who would move heaven and earth to keep her safe. Alpha Wyatt isn't sure why he's drawn to such a cantankerous woman, but their chemistry says it all. One kiss - and what a kiss it is! - and he's certain he'll die before he sees her hurt. Yet for all of that, he isn't turned into some kind of lovesick puppy. This alpha is all wolf, and seeing him and Sky come to terms with each other is often hilarious. When they aren't poking at each other, they're challenging each other, and finally comforting each other.

The final conflict is edge-of-your-seat fantastic. No spoilers here. But you'll grip your e-reader and swipe the pages as quickly as you can, I guarantee it! This mystery is one I was certain I'd unraveled - and then Ms. Knight throws another curveball that will leave you scrambling. I howled when the killer was finally revealed, but it was such a satisfying howl! Sometimes you feel as though an author has gone out of their way to trick you, leaving too few or too many clues along the way. This feels like the perfect balance to me, and yet I think most readers will chase the wrong lead, only to sit slack-jawed at the brilliance with which the ending was woven. Well played, was all I could think!

The love scenes are steamy and satisfying, with an excellent development and progression between the characters. Giving themselves to each other - literally - was a "YES!" moment in my mind.

A wonderful read, offering everything a lover of all things wolf could ask. 10-10, would read again!

---

### **Debbie Herbert says**

Another winner from Gwen Knight!

The dynamic between Skylar and Wyatt sparkles and is totally believable. The portrayal of the creepy villain is ratcheted up throughout the novel and adds an element of suspense that keeps the pace rapid.

The sexual tension between the two main characters is steamy and very well written. Crisp dialogue and humor run throughout the entire book.

Highly recommended!

---

### **Carol says**

LOVED LOVED LOVED THIS BOOK

got this as an ARC and was so happy I did.

The story of 2 hard headed alphas that just won't give in.

First we have Wyatt a true alpha in all the sense of the word and one that is trying to find out who is killing women in his town. Then we have Skye another alpha, but a loner who just won't take orders from anyone, especially Wyatt who has found her in time, before her stalker did. The story between these 2 characters are

so fun and a fresh of breath air that you imagine yourself being right there with them.

Loved the action,suspense,sex,the twist...the whole thing was great.

I would recommend this book once it comes out.

Gwen..fantastic job....now can't wait for the next book :)

### **Marta Cox says**

I confess I'd never heard of this author but saw this book was free and so thought I'd give it a go. Well what a pleasant surprise! I do read shifter stories but they are not my favourite due to the idea of bones breaking etc so I really wasn't expecting to like this story quite as much as I do. Right from the start it's a captivating tale pulsating with suspense and danger and it just pulled me in.

Essentially it's a book that has a serial killer hunting down his perfect female. Skylar is the woman he has set his sights on but whilst he waits to get closer to her he cannot help but enact his base needs out on unsuspecting women. Due to the fear that a werewolf is responsible for the violent attacks local alpha Wyatt is brought in to help the police investigate. What he discovers is a remarkable similarity between the dead women and the female that he finds one night running for her life. Skylar knows she has a stalker but has no idea just how dangerous he really is . When followed one night she collides with the biggest baddest wolf she's ever met but her well ordered life is about to go right out of control as Wyatt is her Mate!

This book has it all, mystery, drama, humour and of course insane passion! I loved Skylar and whether she's biting, kicking, punching or head butting she's anything but submissive! Wyatt is no slouch either though as he is most definitely uber alpha and I loved his growly ways. Skylar may reject authority and prefer to be a lone wolf but these two dominant wolves sure do have fun clashing with each other! Add in supporting characters who love to push their alphas buttons and it made a very entertaining read. I'm certainly hunting down more from this author and I am very happy to recommend this book to my fellow lovers of paranormal stories.

As I type this book is currently free on amazon so go check it out

---

### **Amanda says**

I really enjoyed this book. I love reading paranormal and shifter books, but usually they are mostly sex and less story -not always a bad thing- but here we get an actual storyline. I love that Sky has a dominant personality and took charge of her life from the time she left her pack and never backed down or allowed anyone to control her - another thing most female leads lack. When it comes to Wyatt, well, he's a typical alpha. It's hard to find fault in that! :) This book has more of a dark mystery theme with the added romance. I think Sky and Wyatt make the perfect alpha couple, and hope we get to see more of their lives and how their relationship progresses. I rated it 5 stars because I love a strong female, a dominating but possessive and protective alpha male, and mostly because I really was able to get into and enjoy the story. I have to say, I didn't figure out who the stalker was on my own, I was going a completely different way.

Overall - great story, great characters, and now I can't wait for the rest!

I received an arc for an honest review..... Thanks for that by the way, Gwen!

---

## **The BookChick says**

I would rate this one about a 3.5. The story was solid overall; however, it had moments where it felt a bit disjointed. Definitely not enough to ruin the story but I would have enjoyed the story a bit more if it was tighter in those few spots. I would recommend it to a PNR lover looking for a new author.

---

## **iliana G says**

I was given an Arc by the author for an honest review.

I really liked this story and the way it was written.

The dynamic between Sky and Wyatt is explosive and will make you laugh and whisper "you go girl" a couple of times!

The suspense is kept through out the book and is very well written wondering who the villain is that at times the creepy feeling will slip out to you through the book!

Very well written characters as well as the sex scenes between the two were damn hot and steamy!!!

A really well done Job from Gwen Knight!!!!

Highly recommended!!!

---

## **T.Breau says**

Gwen Knight has hit this one right on the head. Not only is this one of the most enjoyable reads I've had in quite some time, but it is one of her best books yet. First off, what can I say about the Prologue other than bone chilling and full of intrigue. She does morbid and creepy extremely well with tons of flavorful words. I extremely enjoyed how well she kept you guessing with intense scenes.

Wyatt and Skylar. Not only are their personalities clashing but I was tired of seeing all this alpha and omega wolf thing. Who says two strong personalities cannot mesh? A strong, independent young woman that has no desire to follow in the footsteps of tradition gives the alpha a run for his money. She's a very relatable character and the bickering between the two is just hysterical. Wyatt loves to push her buttons and is the perfection of alpha wolf. He's accepting of her character and even encouraging, looking more for a partner than a weak pup he has to protect. The dynamics between the two is illustrated perfectly.

Being a huge fan of werewolves, I LOVE to see it done the way I've always dreamed of them as. None of this giant, bipedal stuff but actual wolves. Hone in on their instincts, becoming one with their natural forms and being able to control themselves not only during the moon but at will gives them an almost mystical feeling that a reader can just daydream about. It is that inherent quality that I love to read and Gwen has done it right down to the sounds they make. I can't wait to see what she brings to us next.

## Yvonne Daniels says

Reach for the Sky Wolffe Peak Book 1

by Gwen Knight

???????

This is a fabulously story! I absolutely enjoyed reading it. For this to be my first time reading a book by Gwen Knight it's quite entertaining. I enjoy a story that has humor and excitement. They never fail to tug at my heartstrings by the end of the story and I'm always left with a happy, satisfied, and well entertained. And this story is no exception! This story features Skylar Callahan and Wyatt Turner. Skylar is a werewolf who decided to leave everything she cared most about to find her career. Wyatt is a sexy alpha who intends to claim her his Way. Both of these characters will keep everyone interested in their antics with their chemistry blazing hot. There isn't much I didn't enjoy about this story which makes me happy to read it. I highly recommend this book. Yes I will Absolutely read this author again! I'm so excited to read her books just as soon as she releases her next book! Because I am totally entertained with such a Fabulous Awesome read!
