Fall Away: 4 Book Series Penelope Douglas

From Book 1:

My name is Tate.

He doesn't call me that, though. He would never refer to me by a friendly nickname. No, he'll barely even speak to me. But he still won't leave me alone.

We were best friends once. Then he turned on me and made it his mission to ruin my life. I've been humiliated, shut out, and gossiped about all through high school. His pranks and rumors got worse as time wore on, and I made myself sick trying to stay out of his way. I even went to France for a year, just to avoid him.

But I'm done hiding from him now, and there's no way in hell I'll allow him to ruin another year. He might not have changed, but I have. It's time to fight back.

Re-reading one of my favorite series until I have enough money to buy new books.

I'm sad. And poor.

God bless college students, their loans, and these fine books that keep me going.

Jaxon will always and forever be my favorite, long hair or not, he is just my dream man. I want one, thanks. And coffee please.

Fine, a Jaxon that brings me coffee. I'm just so lazy.

One of the most intriguing series I have ever read.. am still reading actually. Yep, not done yet and couldn't wait to put my feedback down here!! To be honest, I am not a series person, I am more of a standalone fan, but this series is one of the few ones I absolutely loved and that is before even finishing it (I still have Aflame to read). Let's just hope it doesn't have this predictable cliché ending I detest and that would ruin things for me because I would have to come back then and edit this review ?

I really loved how Tate and Jared remained engaged in the story while the spotlight gradually shifted to Madoc and Fallon and later to Jax and K.C/Juliet. I also feel the urge to say that I loved every single character in the series except for Fallon, I am not sure why but I just couldn't stomach her, which is a first for me because I'm usually all over the characters, it's pretty much a first 'sight' love relationship, apparently not with this one though?

I'm not really much of a writer. But I will say this, once I started this series I couldn't put it down till I was done. I spent way to many nights up late reading them. An they are still a favorite of mine to reread every now and again.

Ending of a series makes me sad!! But, this was a great way to say goodbye

Thank you Penelope for such a great series. Reading how each of the characters throughout each book was great. You made the lives of Jared, Tate, Madoc, Fallon, Jax, and Juliet, so real yet kept the fascination growing.

BULLY:

The book was so strong that I had to read it a few times before I could get any coherent thoughts on it, and by a few times I mean four lol. I love when a female character comes back from somewhere and is all ballsy and what Tate had to put up with from Jared it made me so proud of her, "Jared, I appreciate the effort you're putting in here, but it's unnecessary. Contrary to what your ego is blowing you up with, I've been surviving just fine without you for the last three years. I work better alone, and I would not appreciate your help today or any other day. We're not friends." What I love most about this story is how Jared was just hiding behind his s*** and finally gets balls to tell Tate what's really going, but what really stole the story was Tate's coming out of her shell kind of thing. Even though Jared does so much s*** to Tate I really couldn't help but love him he just says things that make you swoon, "your beauty is nothing compared to how you look when you come." Tate the girl grows balls and uses them especially when she thinks someone is moving in on her man, "rounding Jared's car, I came up to Piper and grabbed her by the hair. I forced her away from his

window and pushed her ahead of me." This book everyone should read!

UNTIL YOU:

Oh my WOW! This isn't a re-telling of Bully, Tate her turn now it's Jared's and honestly I liked Jared's point of view better. "I like my parties, Tatum. I like to be entertained. If you take my party, then you'll have to entertain me." He still gets me all hot and bothered! He wasn't kidding about any boy going near Tate, there are consequences for that s***, "he knew why he got hit, and now he knew I wasn't bluffing about not touching Tate." Jared, he's a man with a obsession and well he gets possessive, "Tate was mine, to do with what I wanted. And I did not want pictures of her in a towel texted to the whole goddamn school!" Being inside Jared's mind is like a rollercoaster:

Tate. Wore. Effing. Lingerie!

What the hell for? And for who?

Jared he can be a big ole' softie where his woman is concerned, "you're with me baby," I told her. "Get in." It's weird how men get when they found out a girl is a virgin, "she really was a virgin. My head spun at the idea of causing her pain, but eff if it didn't turn me on, too. She was mine now." Jared he has a way with words, "I didn't have a chance," I gritted, out waving my hand. "You crept into my room and jumped on my co** so fast this morning -" I can't wait for Madoc's story!

RIVAL:

To be completely honest I enjoyed this one so much more than Jared and Tate's I loved Madoc in their story and I loved him even more in his own, "I'm going to apologize for my lack of coolness right now," he gasped out, trying to yank my shirt over my head, but I kept pulling it back down. "I'm hornier than a mothereffe." It's so apparent that Madoc will do anything for his girl and I loved the thoughts that were in both his and Fallon's head, "his response came back within seconds. I'll be there in fifty-eight minutes. I burst out laughing in the empty room. Of course, he'd risk his life speeding for an opportunity to get laid." Even when he's all tuckered out he thinks about his girl, "I was fully hard now, and I needed some damn sleep. Didn't want sleep but needed it. Her mouth darted to my neck, and she sunk her teeth in. I opened for her. "Baby," I choked out a groan. "I never want to leave this room. Take my T-shirt off your body. Now." I loved Madoc's great ideas, he has them and then he execute his plan to make it happen, "I took my hand out of her shorts and lifted her shirt. "This would be so much more fun for me if you were topless," I said, pulling it over her head with no resistance." I love this series, and after getting to know Jax more in this book after being introduced in him in the last book I can't wait for him to get his own book.

FALLING AWAY:

Jax has some balls when it comes to Juliet, "I love it when you get mouthy," he whispered down on me. "It makes me want to shut you up." Juliet sometimes has to talk Jax out of his ideas and make him see the good in waiting for those who well wait, "not to mention," she continued, "that I want to get pretty again before I ogle you tonight." She came up, clutching my belt in her fingers. "If I go home with you to get cleaned up, you'll just get me all messy again." Jax has only so much patience and Juliet knows how to test that, "I don't give a damn about food," I said, watching her in her bare feet. "You're wearing my T-shirt. You may as well be naked, for Christ's sake. I want to touch you." I really love this series and I'm looking for more.
