Fractured Energy Lynn Vroman

When Cassandra took Wilma's energy, Lena's mission changed. Only revenge matters now.

For the past year, Lena and her small army have tried to finish what they started, beginning with Earth: close the lines between worlds and end Exemplar's hold on humanity. Unfortunately, the task is daunting. But unlike before, Lena has no problem pulling the trigger. As soon as her army takes care of threats in Earth, Lena goes back to Arcus—only to find out where the next war will be.

Tarek will do anything to mend Lena's heart, even while she pushes him away. Only death for a death seems to ease the pain tearing her apart. But as much as he desires to heal the woman he loves, Tarek has to make sure Arcus stays safe from extermination.

After an attack, refugees Tarek has sworn to protect are terrified Exemplian authority will destroy their new home. Not able to defeat Exemplar's direct assault, only one solution remains—a solution that will more than likely end in catastrophe: take the war to Exemplar and shut down their power source.

Lena doesn't see disaster for her army—she sees victory and demands to go, refusing to miss a chance to kill more Exemplians.

While Lena hopes to save Wilma's energy during the impossible mission, Tarek fears Lena will lose more than the war.

If she fails, Lena may lose herself completely.

Ayla says

Fun read I really enjoyed the characters. Great writing, tension and action. Sad about the ending but I see there is a 4th book in the works that may bring hope to a final happy ending for Lena and Tarek. Will definitely read it.

Sara says

I received an ARC from the author as part of a giveaway and for an honest review

Yet again, I was drawn into the story to see what was in store for Lena, Tarek, and the other protectors and guides that were willing to rebel against the enemy. I was filled with so many emotions to know what both Lena and Tarek were going through throughout the story. I rooted for the the couple to make it through the story. Just when I thought everything was back to normal or as normal as it could be, a huge surprise came along and knocked my hope out of the park. I was not expecting the turn events which occurred but I did enjoy reading this book greatly! I cannot wait to see what is in store for the next book and as always I still root for the best for Tarek and Lena :)

Shajira says

I received an ARC of this book for an honest review: Spoilers alert!

I absolutely loved the 3rd book in this series.

We continue on Lena and Tarek's adventures/journey in closing the lines between worlds and trying to be together.

In this 3rd installment we see Lena struggling after the loss of Wilma, she has shut everyone out including Tarek. She and a few member of her 'army' are between Earth and Arcus, protecting it from Exemplar's threats. While on Earth they come across a protector and guide, Denzel & Peter, who was sent to kill. However, they offer up valuable information which spares their lives and they are taken to Arcus.

Tarek is trying to mend Lena's heart after their loss but she keeps pushing him away and the pain she's in breaks his heart. But when Exemplar attacks Arcus, as warden, he has to make sure to protect his world and the terrified people who have come to live there. With the information they received from Denzel after much thought the only solution which they come up with is to take the war to Cassandra and Exemplar.

Once back on Exemplar, with the help of Peter and his mother, Drea, lots of new information on how people are made/created were revealed which shocks the group. Drea, is the head of the creation lab and does what Avery was not willing to do. She literally gets her hands dirty and together they are able to take down the synod.

This book had its ups and downs but it was an amazing journey and I can't wait to read where Lena and Tarek journey takes them.

Amazing writing, job well done!

Angela McPherson says

Wow O_O So much has happened, but I NEED more. I HAVE to know what happens in the end. Arggggg! ... wow... Tarek and Lena are happy. They are in love, ready to finish the war and enjoy the life they've been denied for far too long. But war has no place for love, only heartache which is why I NEED to know what happens in the END!

Bobbi says

There is so much emotion and excitement packed into this story. Things are escalating to a point that everyone may not return from and others find out who they truly are. There were some surprises that I most definitely was not expecting. So much action and the love that is between this band of people that work together to find out the truth and destroy the enemy. This story kept me at the seat of my chair and kept me wanting more. Lynn Vroman did one heck of a job sucking me in and keeping wanting more.

I received this book for an honest review.

Merissa (Archaeolibrarian) says

I received this book from the author in return for a fair and honest review.

The third installment of the Energy series starts off with Lena still desperately trying to cope without Wilma and pushing everyone away, including Tarek. They are still fighting the good fight and their numbers on Arcus are growing but they find out that things aren't always as they seem which starts the ball rolling on a whole new adventure.

This book simply blew me away. There is every emotion you could possibly think of, including guilt, shame, love and bravery, to name just a few. It has had me laughing out loud on one page, whilst crying on the next. The characters have all gotten under my skin until I actually care about each of them.

This is writing at its best. When an author can make the characters real and make the reader care about what happens to them, I have nothing else to say! The plot is as well-structured as ever and if there were any grammatical errors, I'm afraid I was too engrossed with the story to notice.

This series gets better and better and I can't wait for book 4 to find out if my beaten up, wreck of a heart will beat again. Highly recommended!

MY REVIEW

After a certain someone's death, Lena is broken. She kills, she fights and basically detaches herself from her humanity. Tarek is also broken, he feels helpless because he can't help Lena find herself but how much longer will he hold on if it means putting his world, Arcus, in danger. Lena's gang will do anything to achieve what they want and the only solution is war.

Lena. WOOOOWWW. Let me show you what Lena was like in book 1

in book 2 she was coming out of her shell and gaining confidence

Book 3 she, especially the ending when she was overcome by grief and hate,

AND BOOK 4 SHE HAS BECOME A KILLING MACHINE. A COLD KILLING MACHINE.

BUT STILL KICK ASS!!

Lena's character transformation is the most dramatic one i've ever read about. From a bullied teen, to a confident soldier she has really left an impression on me. Throughout the series we see her evolve and become this witty, confident i say this again, kick ass soldier. Believe me when i say she kicks Katnis and Tris thousands of miles away from the strong-soldier-kick-ass-heroine throne. I think what i really appreciated in this book, is that Lena isn't perfect and the author didn't try to make her that way. She deals with grief in a very BAD way and yet it was just intriguing. She kills, she doesn't feel, wants revenge, uses Tarek-now i'm not saying it's right but i can't really blame her after her loss. Lena is completely broken. I was sad but come on, it was seriously awesome to read about her character falling apart, you rarely see that in books. Protagonists are usually the saints.

We had some chapters from Tarek's POV. Man my heart was breaking for him. He can't help Lena, and for him the girl he once knew and loved is gone. He will always be there for her but he's just devastated. On top of that, Arcus has become a refuge and could fall apart. He has to make a decision between Lena and his world. How long will he be there for her just when she wants him to be? Lena is broken, but Tarek is falling apart. Lena is pushing him away and his heart is breaking.

Now for something a bit cheerier. FARREN <3 The love of my life in this book!!! His relationship with

Lena as an older brother never ever fails to warm my heart, They are just so adorable together!!! Another thing i loved was the gang. All super unique, kick-ass and awesome. Loved Lena's interactions with them, a really tight knit group despite all the fighting and the swearing!

Plot wise, this series will never fail to amaze me. There is no better way to describe it, these books OVERFLOW with action, the last one more than the previous one. It's dark and thrilling! The twists and the revelations! WOW! I never saw all of that stuff coming! The ending is bitter so bitter. Needless to say, I WANT BOOK 4!!!!!!

I cannot recommend this series enough for all fans of Hunger Games, Divergent or any YA fantasy/romance/action lover. This series will blow your expectations right out of the water!

Alisha Frias says

This book is mainly about how broken Lena is because of Wilma's death...and how she's blaming herself and taking out on everyone else too. everyone is beginning to dislike being around her even Tarek. In this book they are taking refuge in Arcus to plan their next action against Exemplar...before Exemplar attacks them in Arcus. When they finally figure out what to do Lena finds some hope..the ending sucks too...you think it'll be a happy ending...or happyish...but nope. it's a must read though. I love this series.

Sarah Mccracken says

This book was so good, I didn't want it to end. You can tell the author's writing has improved and her story is so darn clever I can't handle it. Every time I thought I'd predict something, I was a little off, so it was unexpected. Lena and her clan are a tight knit group and they way the author describes the characters really gives you a sense of each personality. Can we all agree that Winston is our favorite?! Can't wait for the ending but I will miss Lena and her moodiness.

Joy says

The last we left Lena and Tarek our hearts were in the pit of darkness and dismay.

It's not surprising that Lena has taken the loss of her beloved friend to a dark place. She's functioning on anger, retribution and pain. She's cut off all her emotions other than the dark ones and tuned out her heart, Tarek. Everyone understands her pain. They feel it as well but there is only so much abuse, disillusion and emptiness her friends can take before this Lena becomes too much to bear for everyone. It's time she woke up and faced the reality that her lashing out and cutting everyone off is destroying those she loves who are still alive. That realization may come too late. The world around them is crumbling. Arcus, the haven they have created for many is under attack. Innocent lives are on the line and the war they have been fighting has become far more dangerous and deadly.

The truths of the world of Exemplarian hidden behind the curtain will be revealed and those truths will rock everyone to the core. Even if they finally defeat Cassandra can they survive the truths and live happily ever

after?

Vroman has a knack for drawing you in emotionally to the story. With every event that happens you feel it deep in your heart. You want to fight with Lena, cry with her and lash out alongside with her. The story has some interesting and exciting revelations that lead to some questions that we will probably see answered in the next part of the Energy series. There is plenty of action, butt kicking, and emotion to keep you wrapped up in the story. But for now I'm going to ponder on the new realities and cross my fingers in hopes that everything is going to one day work out for everyone, especially for Tarek and Lena. Those two deserve a breather and some peace.

Wow What more can I say but Wow. I loved this book was a wonderful read had to fight to put it down. I love how Lena deals with her grief in a real way and isn't automatically OK after a little mourning. I felt for Tarek and love how he deals with Lena issues. can't wait to see what happens next a definite must read
