Chosen By Darkness: Reverse Harem E.M. Moore

We know we're being watched. We know we need to be careful, but even still, Christian and I make a mistake that could implicate us all.

To make matters worse, Isabelle Ravana, the princes' mother, requests my presence at a party. There, she tells me what her sons hoped to keep secret from me. What I find out changes everything, but they don't understand. As the facade starts to crumble, everything I hold dear comes into question. What if it's not meant to be me after all?

Chosen By Darkness is a reverse harem serial with one spunky badass and four delicious vampires. Episode Five will release within two weeks. In September, I will bundle the serials into one full novel. If you prefer to read novels, please wait until then.

4.5 stars!

That ending!

What the actual...come on! We were finally getting somewhere, learning more and getting lower. Then THAT happened and you leave me hanging? So so glad these are coming out so quickly! I need the next one now.

Finally some info!

Amidst a background story from one of the guys news of the disturbance among the Council is making waves. While everyone involved, Ri and the guys, admits that they have feelings they also have to admit that these feelings are dangerous right now. IF they make Council, IF they can make the changes they want, THEN things could be. Until that time, though, they have to be careful. Although, they seemed to have missed something...

While the author tries to make kidnapped kids sound like something good, I can't believe that the (now adult) child involved is ok with it. Not truly. Not one bit of resentment? I don't care how privileged the lifestyle they're brought up in teenagers are moody creatures. The adopted baby? Ok. I could see that. It's less effort, no memory wipes, no worries about the kid remembering anything later. Maybe I'm projecting too much realism into a fictional novel but some things didn't gel for me. Some of it what's currently going on, some of it from the past.

What a cliffhanger!!

Ariana's story just keeps getting more and more intense! The vampire world is on the verge of a civil war and

the Ravana princes are right in the middle of it. Little by little, Ariana is learning more about what the vamp world is really like. But unfortunately, Ariana and the princes are growing closer and closer and their feeling are becoming deeper than is safe. And now she has to meet the boys parents. And of course, she's in danger again. Why is the world out to get this poor girl?? The cliffhanger at the end has me terribly anxious to read the next book...

I normally do not like serials, but Moore drew me in by promising it would come out as a full novel this month. What I failed to realize was that I don't know when book 5 will come!!!! So, I am going to review all four together. Each book gripped me and pulled me in. Moore builds this very real world and weaves in vampires like they are just normal people milling around. I have no idea where Moore is going but I am sure on that train. Be ready to read one after another because it is AWESOME!
