**Magic and Mayhem** Cathryn Fox , Sylvia Day

An innovative ebook featuring two intertwined short stories:

**Magic:** When good witch Brianna James uses her magic and writes a sexy, forbidden love spell on her thirty-first birthday, on the thirty-first day of October during a full moon, and conjures up a roguish, bad boy warlock, she has no idea that she'll experience a passion so deep and so intense it will forever turn her good girl days into bad girl nights. But, when that spell lands in the wrong hands, be prepared for a little mayhem...

**Mayhem:** When Abigail Garvey steps into Conjure, the local magic shop, all she's looking for are a few props to round out her fortune teller Halloween costume. Abby isn't looking for a love spell that turns her drop-dead gorgeous but long-oblivious neighbor into an aggressive alpha sex machine. Sure his single-minded pursuit (and follow-through!) is the stuff her wickedest fantasies are made of, but how much of it is the real deal? And how much of it is just a little magical mayhem?

## Jo says

I didn't bother reading much of this book, the bit I did read was badly written porn, with a laughable story line. Next time I'll take note of write ups....
