*Jennifer Cole*

**Yes, My Mistress** Jennifer Cole  
Le Club d'Esclavage, #3

Fantasies become reality at the threshold of Le Club d'Esclavage.

Dani Miller is the kind of girl who does her best to make everyone happy. She helps her parents out at their diner, she helps remind her friends to laugh, and she's always ready to take orders from her customers.

When it's her turn to give the orders, the hunky bouncer at Le Club d'Esclavage is just the man to follow her.

From a distance, Mike Ranger watches the pint-sized Mistress build confidence in her power to give commands, while the Dominant in him waits for the perfect opportunity to reveal himself.

When the two discover passion that creates the perfect bonds, the orders given by the right man can be the sweetest treat to savor.

## From Reader Review Yes, My Mistress for online ebook

### ? BookAddict ✍ La Crimson Femme says

I was expecting more femdom. This book was a let down on the femdom. Dani was really a sub playing at being a domme to break a dry spell. She was tired of not enjoying sex and felt being in control would help. She took lessons from Troy, a master, on how to be a domme. This might lead a person to believe she is a switch. Based on how Ms. Cole wrote Dani, it was not believable to me at all. Especially from my own experience. Dani's responses were off compared to being a switch.

There were some holes in the plot and some glossed over answers. I think this book could have been longer and better developed. For example:

(view spoiler)

Still the story was a quick and light read.

### Pansy says

4.5 out of 5 stars I am not a total fan of the dominatrix. However, I did love how this series took us through each girls point of view of one evening - into the next day. It left me wanting MORE!

---

### Deviant Divas says

Yes, My Mistress by Jennifer Cole is PURE SEXUAL EROTICA. Never has a story steamed up my e-book reader as this tale.

The combustible chemistry between Mike and Dani had this reviewer squirming in her seat. Reviewed by Christine "Cupcakes"

DIVA RATING: 4 Divas

HEAT RATING: Flame

### Optimist ?King's Wench? & MANTIES Champion says

#### 2.5 Stars

This is Dani's story. She's the ringleader who's set up both of her friends & has been training with Troy (club

manager & well known Dom) for the past month or so to become a Domme. She has submissive tendencies which Troy recognizes immediately & questions her rationale for wanting to become a Domme. She & Mike, head of security, are attracted to each other upon first sight so it's basically her training in an effort to wield a paddle on him.

This one covers more time & is more creative in that way but I still found it repetitive & juvenile at times. Also, I felt like it was kind of a mockery of the whole concept of a switch. Perhaps her point is some people are unclassifiable as either dominants or submissives but more an amalgamation who merely enjoy playing around with kink & D/s roles. Tough to say but it was a bit cheeky or at least that was my interpretation. Also, Ms. Cole is still stuck on people "completing" other people. I'm glad Tom Cruise apparently has such a devoted fan. He's had a rough go as of late.

### **A??ela W. says**

I was expecting more femdom. This book was a let down on the femdom side for me. Was Dani really a sub playing at being a dome or a switch . She was tired of not enjoying sex and felt being in control would help. I gave this book 3 stars because I did like this series I was just let down with this book.

---

### **Eileen says**

I love this trilogy of friends exploring their sexuality. One of my favorites of JC.

---

### **Monica says**

Way to short but a good read.

---

### **Jennifer says**

I loved this book!!! It was my favorite in the series and I felt showed a very realistic relationship (other than love at first site). I also like how it brought in the other two books but not in a way that requires you to have read the other two.

---

### **Antonietta says**

Wow.... loved book 3 just as much as 1 & 2.... had a lot of fun reading all 3 books and definitely recommend the series to everyone who likes a little kink in their coffee... (lol)

---

### **Elle says**

It felt so stereotypical. I hate that. I thought BDSM was suppose to be a \*counterculture\* why is this stuff always the same?

Spanking, check.

Crops, check.

Restrains, check

Wall sex, check.

Orgasm denial/control, check.

eye rolling dialogue, check.

Sigh. It was an interesting concept, the club and the few subplots. But overall, it was very typical and I didn't much care for it. How is it that BDSM sex has become boring?

### **315 says**

This was enjoyable, but being that it's the 3rd story of the same night... but this book did include the lead up to that night, which was the best part of the book. The one thing I was looking forward to this book was for it to advance the story more. It didn't give us anymore than the 2nd book, but a perspective of another couple. The training was fun to read and what poor Mike was dealing with watching for a month. He was such a cutie and always got a chuckle out of me! I really loved when he switched on her... that was great! LOL

The second book moved the night into the next day... I just wish this book as a thrid moved it along more instead of a change in perspective of the same events.

---

### **SassySami says**

I'm not a huge fan of femdom, but this was done in a very sexy way and managed to not just NOT turn me off, but totally turn me on. I like that this story wrapped the three books together, showing how each relationship was set up and linked together. This definitely makes me want to read more by Jennifer Cole.

---

### **Debbie says**

I liked the book...just seemed to be a lot of overlay from the 2 previous books.

---

### **Judith says**

Book Three in this series explores the experiences of another of Natalie's friends--the girl who actually brought both Natalie and Meg to the Club. She wants training as a Domme, believing herself to be dominant. What she fails to realize is that she also possesses a strong submissive streak as well. This is another of Cole's novellas that could have been so much better if the characters had been expanded, the relationship with Mike explored, and the future of all three of these friends brought to light. I really like Jennifer Cole's

---

writing--she has a great way with words--but I continue to be disappointed in these short works that I think sells her talents short. Enjoyable, quick read--just too quick for my taste.
