Sassy Road Destiny Blaine

Sassy Road is tough, beautiful, smart, and looking for a little retribution against the stepfather who abused her.

Logan belongs to Heroes and Rogues, a small town renegade motorcycle club with a bad reputation. Only Logan isn't exactly loyal to the MC. He's an undercover cop who's been in place for several years, and he's days away from taking down rival club leader Damsel Road.

A new gal arrives at the H & R clubhouse and, after spending time with Sassy, Logan quickly realizes the newcomer is the stepdaughter of a man he is supposed to put away for life.

Unable to deny his infatuation with the lovely Miss Road, Logan's life just became more complicated. To make the situation worse, vultures are circling. If Logan doesn't claim Sassy as his old lady, club members will pass her around for their own twisted pleasure.

Logan refuses to see Sassy used, but when he discovers her true motive for associating with the Heroes and Rogues, he fears an intimate involvement could destroy them both. Then again, losing Sassy is a higher price than he's willing to pay.

Laura Carson says

it makes me laugh a little that this book is about a biker gang and the last name is Road...

Jamie ~ Bad Boy Inspector says

I was hoping for so much more out of this book and it just didn't deliver. But I will read the next one because I love BIKERS YUMM!!

Eva Millien says

The first book in the Heroes and Rogues series is a story of revenge and romance with hot & steamy sex scenes.

The heroine of the story is a strong character that is working on overcoming her abusive past and exacting revenge on her abuser. The hero is a member of a motorcycle club with a secret that could get him killed. The sparks start flying as soon as they meet and the attraction between them rock the charts.

Action abounds when a notorious rival motorcycle club enters the picture, and Sassy's past comes to light. The suspense builds as the story takes the reader on a journey with an explosive face off and then tops off the attraction of Logan and Sassy with some super hot sex.

There is enough interaction with the secondary characters to engage the reader and leave them wanting more. The only disappointment I had with this story was that it was too short. I will definitely be looking for more books in this series.

I received this book from the author for a review.

I actually give this book at 3.5 star rating but rounded up :)

Ok I am a biker girl. My ex hubs was a biker looking guy who rode a bike soooo yes if he was a DB he would have been perfect:) Well I love to read biker books or watch biker shows (hello Sons of Anarchy. Chibs is my boyfriend...just saying). When Destiny asked if we would review I jumped up in full attention when I saw a biker series. Now these are very short, quick reads and I was disappointed. I wanted

LONGER!!!!!! Now was I disappointed in the book...no freaking way...just the length.

So here is the story in a nut shell.....

Sassy is out for revenge against her step dad. She has a fellow biker trainer and help hide her "true self" while getting her up with a biker "boyfriend". The only problem is Sassy grew up with the pretend boyfriend!!! *cue ominous music* Anyway, Sassy gets herself hooked up with Loga...have I mentioned he is an undercover cop also looking to bust Sassy's step dad? Yep AND he is mega alpha and hot!!! The two find themselves "connecting" *snickers* on many levels.

I don't want to tell too much because like I mentioned it is a short, quick and sexy read. The book ends and totally sets up book 2 in the series which I am going to be reading as soon as I finish this review!!!

So if you like hot, naughty bikers and sassy, strong heroines then read this book. I took me 2 hours to read it and it was a good couple hours of time I passed. Now this book isn't as "in-depth" as I would have loved to read but since it is novella length you will understand what I am talking about.

Just when the book got interesting, it was over. Too much unfinished business and just not good overall. I was very disappointed.

Samantha says

Oh my I loved this story it's a great short but oh boy I wish it could have been longer.

I LOVE Biker stories and even though this is a short you have Action, romance and some interesting sex scenes.

I loved Sassy what she has been through in the past at the hands of Damsel is horrible but she is strong she changes herself learns to defend herself and heads out for revenge. And yes she gets it.

Now throw in a sexy biker called Logan who is a cop and watch him fall in love with the girl who he knew at school. He is so sweet he's not like the other Biker's well saying that right at the end he is but that's more to do with Sassy than anything. He protects Sassy and saves her in more ways than one and it was a pleasure to read their journey to happiness...

The price of redemption

When Sassy tries to infiltrate an MC to help get back at her Step Father, little did she know the one person who was kind to her in school would be her lifeline. This is an awesome self contained story and beginning to a new series. Well written and one of my Favorites by Destiny Blaine.

4 stars. I have to admit, I truly enjoy this book, Sassy was a strong woman, who was abused, so many times, I was with her when she did what she had to do. Logan, hmm, delish..Bravo to the author.

2-1/2 Stars

Could have been much better if the story was longer--things just happened way too quickly without any fleshing out. Will still try the next book in the series, however.

Nikki says

2.5 stars

Ok, I think I read this at the wrong time! As I'm in the middle of a buddy read of Reaper's Property, I tended to compare the two. (There is no comparison) I don't know if I would have liked this had the situation been different but I'm thinking its not likely. There were too many cheesy lines and situations. I found myself rolling my eyes many many times. The plot was sound and had it been a longer and more in depth book, I think it would have been better.

Carrie (Badass, Alpha-male, Cowboy Connoisseur) says

Yeah, it was ok. I really liked Marcus Logan, he was hot, hot, hot. Sassy was not a believable character to me so I never connected with her or the story. It was just meh for me. Good premise however, the author needed to be more detailed and not just jump things ahead so quickly. One minute they are miles from being a couple and the next they are engaging in public sex. If it was fleshed out more I think I would've liked it better.

2 stars

The premise of this book (and the series) is a good one. I love the undercover cop in a bad-boy motorcycle club, Logan is hot, hot, hot. Sassy needed more development. The story line feels too rushed. It needs more,

resolutions are too quick. Would have loved the book had it been longer with the story line paced out.
