This is a three smut short story deal. Nothing too overly exciting, but whoo boy! Very steamy! The last story was by MaryJanice Davidson, who is always much fun. It's not a complete waste of time, but the second story really sucked. Okay if you're looking for fluff.

This is three short stories by three different authors. I enjoyed the stories. The third one by Mary Janice Davidson was my favorite. It was about a woman who bought an old house from a very old woman who grew up in it. The house ended up being haunted by a ghost that was able to communicate his name being Jack. Meanwhile the neighbor is this drop dead gorgeous hunk that always walks around with nothing but his jeans and tool belt on and always insisting on helping the woman around her house. Unfortunately the guy is a major jerk dropping f bombs all the time and just not having any tact.

One day the neighbor has a mishap with a drill and electricity and ends up dying in her house and she uses mouth to mouth on him till EMS gets there. They were able to revive him and he puts her down as her emergency contact while filling out paperwork at the hospital so when they send him home the hospital sends him to her for after care. He ends up being a super sweet soft spoken gentleman, which of course makes the woman interested in him. She then figures out that he is the ghost Jack in Ken's body. I liked that twist! Thought it was great!!

Janelle Denison's Slow Hands was a nice romance.

Two out of three isn't bad. Have to say I was surprised when the first of the three stories ended. I had forgotten this was a trio of tales. Did enjoy two of them. The third - well, I've read enough from that author with that recurring theme and cast of characters. It's like reading the same story over and over. The other two were quick fun reads for the bus and lunchroom. Have to admit - I did choose this book by its cover. Yummy.

I will read anything with Mary Janice Davidson in it. She has done quite a few books with other authors which I really enjoy. I found out that Janelle Denison is worth reading more of. That Nina Bangs has a sort of A.D.D. style of writing but her story was memorable. And of course I enjoyed Mary Janice Davidson's story.

I only read the short story by Nina Bangs, "Color Me Wicked". It's the first tale in the Wicked series, and was classic Nina. Sweet, goofy, sexy and charming.

This book had a touch of humour to it which is a major aspect I like to find in contemporary romances. I love to laugh and Janelle Denison and MaryJanice Davidson are two authors I always look forward to reading. I enjoyed all the stories, the only issue I have of this compilation was that Nina Bangs contribution was a tad silly. To be more precise about what I found silly was the growing plants...

About MaryJanice Davidson's

My first thought when Jack took over Ken's body was "Wouldn't that be funny if he had cirrhosis of the liver and Jack dies again soon?"

And if Ken was 'riddled with STDs' than I hope the sex scene involved a condom.

First story not bad but just goes down hill from there.

Natalie says

Take it or leave it. And the prequel to the Castle of Dark Dreams series by Nina Bangs did not live up to the caliber of the rest of the series. Thankfully the rest of that series is awesome, unlike this short story.

Michelle Rahn says

It wasn't that good. Maybe the stories were taken and abridged from longer stories? Each just felt really rushed. When they weren't rushed they had a lot of detail leading up to the end and then bam they were over.

12/21/12: I've only read Janelle Denison's story so far because I'm on a Denison kick at the moment and so far I have enjoyed everything I have read of hers! I'll keep you posted when I finish this Anthology.... I won't be finishing this anthology

Sabina says

This is an okay simply due to the first story.

The first story by Janelle Denison was excellent. Hot and sexy with a good plot. I didn't like the second story by Nina Bings. I got bored with it very quickly. The third story by MaryJanice Davidson was actually my favorite but it was so short it was over before I could savor it.

Overall, very disappointing after the first story.

The cover and the back were the reason why I got this book and decided to read it. The stories really didn't have anything to do with men at work, at least not enough to justify why they were thrown together and an anthology titled Men at Work was made. Really liked one of the stories, Slow Hands by Janelle Denison. Her story fit the theme of the anthology very well and was a wonderful read. The rest had me wondering what exactly it was I was reading. The last one had promise, but got too weird at the end. Good book to read for buying it off a used book store, but would have been furious if I had paid the full price.
