Penny McGill says

Our verdict on this cookbook is that it is just 'okay'. At first we thought it would be a good choice because of the colourful cover (thinking it would have great colour pictures of the recipes and steps) but it was more of a promotional vehicle for the show, filled with jokes that related to each of the co-stars and their personas. So, the overwhelming amount of supporting text and bells and whistles distracted from the recipes and made it less fun to read through.

It would be a nice choice for a fan of the television show but the recipes weren't simple and the design of the book made it seem too busy to enjoy. Even though we love Michael Symon from Iron Chef and find his style to be so appealing there really was too much "The Chew" for us to enjoy it as a stand alone cookbook.

i really wanted to try to boston creme pie recipe

Sara says

Many of the recipes that you see on the TV show. It was fun to leaf through, but it really doesn't have the everyday recipes that I'd use regularly. Don't think I'd buy it.

ZaBeth Marsh says

I love The Chew TV show. I did not love their cook book because it was more a tribute to the show then a cookbook. For example there were more pictures about cast and audience than food in the book. I wanted to learn how to cook the recipes on the show. I watch a TV therefore I'm a visual person so it isn't a stretch to imagine that I'd want to see pictures of the food in the cookbook, but it took work to actually find pictures of food. Not high praise in my mind for a cookbook.

Simple recipes that you can find on The Chews website or on pinterest. Pick your favorite and pin them. No need to buy the book. I saw a taping of The Chew. Carla Hall is a delight. She mingled with the audience talking and dancing. Michael Symon--the best cook in my opinion was so nice. Going into the audience and talking. Mario--great talking to the audience from the stage, Clinton stayed after to talk to the audience. Daphne Oz is a snob--she didn't interact at all. I think she got this job cause of her father.

Monique says

I love this show...the book is structured just like the show. They focus on one are for several pages while including friendly banter along with ideas for hosting dinners. The pages are a bit busy but the pictures are amazing. I'm hungry just reading.

Jennifer Jordan says

Ok

the comments are fun and make this worthwhile because the recipes are just so-so... I love the show and hosts but I know they've got better recipes than these.

Trina (Between Chapters) says

Great chefs, with beautiful food and they can tell you how to cook like a pro chef, but I need more simple, quick, every day recipes I can get on the table in a hurry. Most recipes in this book call for expensive ingredients, a lot of time, or an endless list of ingredients. There were only a handful of recipes I would actually use. Was hoping this would be more useful than the previous book for the average busy home cook on a budget, but was disappointed. Also, needs more photos of the actual food.

Kristen says

I was expecting this book to be better than it actually was. I love the show but most of the recipes in here were either something I wouldn't eat or too many ingredients/complicated to make. I thought it was just ok.

Brooke says

I have a few recipes bookmarked to make. I love reading what they have to say along with the recipes.

Beka says

Easy and tasty dishes.

Yvonne O'connor says

Meh. This has a TON of filler and not much useful stuff. Of the whole thing, I flagged four recipes to try.

Alyssa says

Nice photos. Not enough recipes to make me wish I had my own copy.

Erica Zulauf says

Some really yummy looking recipes in here that I can't wait to make.

Janet says

I enjoyed this book I was a little disappointed that some of the recipes I wanted to try I couldn't find a picture for but I completely understand the reason behind it.

There are some great recipes in here from easy to not so easy but they all seem very good.
