**Aniquílame: Volumen 1** Christina Ross , Monica Guzmán-Bejarano (Translator) , Antonio Gragera (Translator)

La serie que ha vendido más de un millón de ejemplares en el mercado internacional.

Las cosas del amor tienen sus riesgos.

A Jennifer Kent, con un máster en administración de empresas recién estrenado, se le están acabando el tiempo y el dinero después de cuatro meses buscando trabajo en Nueva York sin éxito. Si no encuentra uno pronto, tendrá que volverse a su Maine natal, donde el panorama laboral es aún más desolador.

...Y donde sus castrantes padres están al acecho.

Pero cuando le proponen un arreglo poco ortodoxo, Jennifer decide aceptarlo. Accede a ser la “novia” de Alexander Wenn, el reacio multimillonario, director ejecutivo de Wenn Enterprises y extraordinariamente guapo, que necesita a una mujer guapa del brazo para mantener a las “lobas” a raya.

En este caso, las lobas son todas las otras mujeres que compiten por tener su atención, con tanta agresividad que no lo dejan centrarse en los negocios en ninguno de los eventos a los que tiene que asistir, eventos donde se cierran los tratos de negocios. Ellas quieren su dinero. Herido por el pasado, todo lo que Alex quiere es centrarse en su trabajo...y olvidar el pasado.

Pero, ¿puede Jennifer ignorar la química sexual entre ellos? Cuando se introduce en el relumbrante mundo de sociedad y altas finanzas, tiene que luchar consigo misma para no enamorarse de Alex, una labor casi imposible que, sin embargo, tiene que ejercer.

Con su máster en la mano, Jennifer Kent sabe de negocios, pero lo que no sabe es algo que la podría destruir: proteger su corazón...Y probablemente su propia vida.

## From Reader Review Aniquilame: Volumen 1 for online ebook

### Michelle ♥ The Romance Vault ♥ says

For a book that actually has no sex in it whatsoever this book oozes sexuality, tension, nutty characters, colourful characters, great dialogue and a hotting up romance.

I'm so glad I got this book, I was inhaled into the story at the get-go and wow did those 300 pages fly by! Some of the dialogue was a little back to front to me but that only happened sporadically, sometimes for instance the word 'was' in my eyes, placed wrongly in a sentence. I loved the chatty prose between Immaculata and Jennifer, god Jennifer had great comebacks with her. Blackwell - now there's a character and a half! I got dizzy reading her dialogue sometimes but it worked on so many levels, her zest and impatience just dripped off the pages, she's one of those totally annoying and yet totally engaging characters, kinda loved her!

As for Jennifer, how could anyone not engage with her! Her whole personality is flawless, she is neither weak nor meek but she isn't dominant or sassy either. She has a vulnerability about her but her clever mind and her business sense sits perfectly with that vulnerable side. She is probably one of the best heroines I've read in a long time.

Alex, oh boy, dear Alex! He's mysterious, he's thoughtful, he's possessive and he's driven. He also seems pretty ruthless. What's there not to like! Oh yeah, I don't know but I feel he has this element of danger about him and I can't wait to see what happens in book two after where this book was left, which way is his character going to develop, there is suspense and intrigue surrounding him, is he into darker things, or dominance, or none of it but has issues with other things. Arghhhh the suspense is killing me! I just hope vol 2 lives up to vol 1.

---

### CT says

I don't think I actually got into this book until about half way. Some bits were good and others just dragged on a bit but overall I quite liked it. I will be reading the next book because I think theres still more to find out about Jennifer, Alex is still a bit of a mystery to me. Will I remember this book by the time the next one is out though? Probably not.

---

### Jackie says

First off, I will say, a huge pet peeve of mine is when books are broken up into volumes. To me, it's just a way to make more money. This book was super short and I'm glad I grabbed it up for free. While I'm interested in where the story goes, I do not want to pay 2.99 for two more 'volumes' when the book could be a full length novel or broken up into 2 full length novels.

Anyhoo, rant over about that. Now about the actual story. I had high hopes for this free book after reading the reviews but honestly I don't see what got people so excited. I feel like barely anything happened in the first book. Alex and Jennifer went out to a couple of events but spent most of the volume not even talking to each other. Then fight over, Jennifer is suddenly his girlfriend. I will say there is zero hanky panky in this - just a couple of kisses and really even those fell flat. I didn't get a lot of chemistry from these two.

Blackwell drove me nuts. Every sentence she would say 'God!' in lieu of punctuation and she has the type of personality that I hate - that beautiful is thin and it isn't cool to 'eat'. I mean, really? The dialogue between the characters seemed to be at rapid fire and yes, we get it, Jennifer is beautiful but doesn't realize it. I don't need every single character telling me how gorgeous she is on every other page. And while I can appreciate fashion, I hate it when the author is spouting off designer names in everything people wear. While I can appreciate you wanting to look good for a job you think you might get, no one drops 3 grand on a Prada suit and designer shoes when they have no money and have common sense. Which apparently Jennifer does since it was drilled into me that she was smart. And the amount of times I heard about how she's from Maine and that makes her somehow a better and more interesting person was ridiculous.

Maybe I'll read the others if they go up for free too, but I definitely won't be paying \$3 each.

---

## GG says

O que dizer dessa série mal começou e já odeio pacas? Ah, é! Não continuarei com os próximos. Bjos.

Não sei lidar com mocinhas que são supostamente perfeitamente lindas e inteligentes, mas não sabem disso, e que não conseguem encontrar emprego em razão da inveja de terceiros.

Outra coisa que me irritou profundamente: quem diabos traduz um livro de cabo a rabo usando o pretérito mais-que-perfeito do início ao fim??? Uso abusivo deste tempo verbal deveria ser crime e, só para que fique claro: O pretérito mais-que-perfeito do indicativo é usado para indicar uma ação que ocorreu antes de outra ação passada. Pode indicar também um acontecimento situado de forma incerta no passado. Tem uma utilização muito limitada, sendo majoritariamente utilizado em exclamações, em linguagem poética ou na sua forma composta (te amo google).

Ainda temos um fantasma que faz vezes de cupido. Nem vou me desgastar explicando esse evento sobrenatural ridículo.

---

## Candace says

This short book tells the story of an out of work, down on her luck, MBA graduate, Jennifer, that is hired to be arm-candy for a hot billionaire, Alex, so that he can focus on business at special events. Alex gets jealous at event #1 and Jennifer quits, despite the ridiculously large salary she's being paid to attend parties, because his behavior offends her. Alex feels like an ass, pursues Jennifer and after playing hard to get, she concedes. I'm sure you get the drift.

The storyline, thus far, is not an original one and was highly predictable every step of the way. So, if you're looking for something new or different, this won't be the one for you. That aside, I did enjoy this book, despite the predictability. Let's face it, some story lines get repeated because they work. Who doesn't want a modern spin-off of Cinderella?

While both Alex and Jennifer had many of the cliché characteristics we've all come to expect in this familiar storyline (history of abuse, tragic loss of loved one, jealousy issues, unwillingness to acknowledge feelings, etc.), they were not too extreme or overdone and were both very likable characters. Alex did not come off as an overbearing, aggressive jackass, like many of the alpha-males in this genre do. Similarly, Jennifer was not the weak-minded pushover that is so typical of the heroines in this genre. Instead, she was smart, witty and

unwilling to take ANY crap from Alex. In fact, I had to re-read the section where she walked out on him and quit because I couldn't figure exactly what she had gotten upset about!

It is very short and does feel like the story is just getting started when it ends, versus feeling like a complete novel. However, it was an easy and enjoyable read that kept me entertained. I will be reading the next volume.

**FREE today on Amazon US (1/2/2015)**

BLURB:

*The business of love is dangerous.*

*For **Jennifer Kent**, a recent MBA graduate who has been searching for work in Manhattan for four long months, time and money are running out. If she doesn't find work soon, she'll need to return to her native Maine, where the job situation is even more bleak.*

*And where her abusive parents lie in wait.*

*But when an unorthodox arrangement is proposed, Jennifer decides to take it. She agrees to be the "girlfriend" of **Alexander Wenn**, the reluctant, billionaire CEO of Wenn Enterprises, who is so devastatingly good looking, he needs a beautiful woman like Jennifer on his arm to "keep the wolves at bay."*

*In this case, the wolves are other women, all of whom vie for his attention so aggressively, they keep him from focusing on business at the exclusive events he must attend. It's there that deals are cut. What they want is his money and his power. Damaged by a past event, the only thing Alex wants to do is focus on work. And to forget the past.*

*But can Jennifer deny their white-hot chemistry? As she's swept into this glittering otherworld of society and big business, she finds herself struggling to keep from falling for Alex, an almost impossible feat she nevertheless must meet.*

*Armed with her MBA, Jennifer Kent knows about business. But what she doesn't know is what could destroy her--the business of protecting her own heart. And maybe her own life.*

*This story unfolds over multiple volumes approximately 50,000 words each.*

**Rachel (BAVR) says**

**WARNING: GIFs and some spoilers ahead!**

On 1/27, I posted this status update as a warning that I would flip shit if the book continued to chronicle the process of shopping and dressing for every little event. If a story decides to stuff its pages with fantasy shopping scenes instead of real plot, then I reserve the right to call it fucking stupid. So, I *should* just do as I promised and start copy-pasting like a fiend, but guess what?

I'm reviewing it anyway. That's just how I roll.

*Annihilate Me Vol. 1* is a "novel" (more on the loose acceptance of that word later) about recent MBA grad Jennifer Kent, who moved to NYC from Maine to fulfill her business dreams and to escape from her abusive parents. There are 2 things you have to know about Jennifer Kent: 1) She's brilliant. 2) She's stunning and gorgeous and beautiful and EVERYTHING but doesn't know it.

If you don't understand these two things by the end of the book, you didn't read it, because EVERY character goes out of his/her way to compliment Jennifer on them.

Her roommate does it:

*"Stop underestimating your looks. I think you're not getting a job because you intimidate the women who are interviewing you."*

The kindly female cab driver does it:

*"I think this is my hundredth interview in the past few months."*

*"Looking like you do, I'd think someone would hire you in a minute."*

The cashier at a spa does it:

*"I wish I looked like you."*

Billionaire Alex can't get enough of doing it:

*"You're beyond impressive, Jennifer. I've never seen anyone so quick and so bright as you were when you convinced Cyrus to take the deal to his father. Watching you in action was a turn on. And I'd be lying if I said I didn't find you attractive. I think you're beautiful."*

Ms. Blackwell, who doesn't even like Jennifer at the start, loves to do it:

*"I don't know how we're going to fit that ass of yours into a dress without tailoring, but we'll do it. Hopefully. And, no, that wasn't an insult. It was envy. Every woman wishes she had a body like yours."*

Some other rich guy does it like it's going out of style:

*"You're obviously a hit here tonight. You're a new face. And a stunning one. Sorry, Alex, but it's true. I've been watching the men watch her. We need someone like Jennifer here tonight-she's made it more interesting."*

Her new boss basically hands her his dick on a platter:

*"But you have style, Jennifer, and you're very bright. At this point, that's clear to all of us. You look and dress impeccably. You're also young and, if I might say, all of the staff agrees that you are stunning..."*

And that isn't even all of it. It's fucking **constant**. If I wanted to read about someone being told they're beautiful for 50,000 words, I'd just read BAVR's diary, damn it.

*Fuck yeah.*

So, Jennifer can't get a job despite being the most brilliant sauce hottie since Neil Degrasse Tyson, probably because she has no work experience. According to everyone else, though, she can't get a job because all of the interviewers are jealous haters.

*Seems reasonable.*

After all, don't we always hear stories about the oppressed plight of pretty people? **THE STREETS ARE JUST FILLED WITH STARVING PRETTY PEOPLE. WHEN WILL THIS MADNESS STOP?**

Jennifer lands an interview with Wenn Industries, which apparently does a little bit of everything (oil AND airlines?), for a secretarial position. She blows the interview but has the good luck to run into a handsome man named Alex in the elevator who is quite taken with her. Incidentally, Jennifer receives a phone call later that day inviting her back for an interview as an "executive assistant." Upon returning to Wenn Industries, she realizes that Alex is actually Alexander Wenn, the billionaire and CEO of the business. Alex offers Jennifer a job. He wants to pay her a quarter million dollar salary to dress up in expensive clothes and jewelry and accompany him to society events as his girlfriend. And I know EXACTLY what you're thinking.

Precisely. How do I keep falling into these Accidental Prostitute stories? But to be fair, Alex and Jennifer insist that the "business arrangement" is totally legit. You see, Alex can't get any of his business networking done with hoards of preening gold-diggers trying to dip their manicured hands into his bank account. You know how hard it is to be a billionaire, guys. Don't pretend that Alex has any other recourse than to hire a ~~paid escort~~ professional pretend girlfriend to keep the bitches at bay. Jesus.

Thus begins a tedious rendering of the written word that features such gripping stories as: Jennifer Goes Shopping, Jennifer Gets Dressed, Walking Through High Society Functions, Meaningless Business Talk, Jennifer and Her Roommate Get Dressed For Dinner, Jennifer's Roommate's Writing Process, DANCE ABUSE, People Tell Jennifer She's a Hottie, Restaurant Stuff, Dead Wife Matchmaking, and the ever-popular Jennifer Uses Her Brilliant Mind to Tell off Bitches. Oh, you won't *believe* how many bitches Jennifer tells off in this story.

One highlight near the end of the book features Ms. Blackwell teaching Jennifer to eat greens - SO MANY GREENS - before a big event in order to poop all the bloat out of her system.

*Gross.*

I'm sorry I had to share that with you, but I can't suffer alone. (For those of you wondering, IT WORKED.)

Then the book just ends (view spoiler) because this "novel" is nothing more than one-fucking-third of a longer story. IT IS NOT A NOVEL. WHY ARE YOU MARKETING IT AS A COMPLETE STORY? If something, ANYTHING other than bullshit had happened in "Vol. 1," I would have let the cliffhanger slide. But unless you count Alex's admission to being a fucking creeper as *something*...

*"Alex."*

*"It's good to see you."*

*"How did you know to find me here?"*

*"I had you followed the other night."*

... then it's clear that the splitting up of a complete story is nothing more than an excuse to torment readers

and/or get more sales. Well, guess what!

I won't be reading the next volume.

*Fin.*

---

### **Anne Ruggiero says**

[paid escort and thinks it won't be a disaster, then when it turns into a disaster on the very first night (SURPRISE) she eventually forgives him and asks him to take her virgi

---

### **Louise BookbestiesUK says**

Not great.

The story had potential but it dragged on and on.

Got sick of reading how pretty, how hot and how beautiful Jennifer was and how she didnt know it or believe them.

Alex was a totally closed book and you litrally found out nothing of interest about him.

Then there was the best friend who was a self published writer.....way to suck up to Amazon Ms Ross....got sick or seeing that her friend was going to publish on amazon, she was in Amazons top 100, amazon are flipping great....yada yada yada....I hope you dont want to publish this book anywhere else other than Amazon as I dont think Nook will be too happy with all the Amazon arse kissing...

And then that brings me on to the dialogue.

It was so stiff, I actually didnt believe a single conversation that went on in this book. This is not how people talk. Especially to their friends- it was so formal.

I know it was a freebie but I still feel let down by this book as I was so excited about it.

---

### **Mindy Lou's Book Review says**

Review for Vol 1-4: This was a great read, the suspense was good and I liked the main characters. I spent the whole time trying to figure who was the threat and it took right to the very end before I figured it out. I liked that it wasn't obvious. I have to say, my favorite character was Ms Blackwell. She almost stole the show from Alex and Jennifer. There was also enough about Lisa and Tank that has me wanting to dive right into their story. Great writing

## Annie says

[To her surprise, Alex is actually Alex Wenn. (hide spoiler)]

---

## Marchessa says

What the hell did I just read? I seriously don't understand how this book could get so many positive reviews, it's worse than a dime novel. And why oh why do I keep reading free books? I've been so disappointed by those stories already and this one sadly wasn't the famous exception.

### Spoilers

The "story" revolves around Jennifer, a 25 year old woman with abusive (cliché #1) parents from Maine. She is so soooo beautiful and intelligent that basically everyone is intimidated and/or envious of her (cliché #2), which is why she apparently wasn't able to find a job in NYC - even though she's been living there for **four** whole months already. Poor girl. So Jennifer meets Alex Wenn, a beautiful and swoonworthy billionaire with issues and a "past" (cliché #3-10), who is so taken by her that he offers her a job as his pretend-girlfriend... he's such a catch, he can't even attend galas and other events for business because women keep falling at his feet and bugging him (cliché #11). We're told that she is sooo broke, yet immediately after the call from Wenn Enterprises (and after she's told she'll get paid 250K per year \*oh puhleeese\*) she went shopping and bought a Prada suit and new killer heels - even though she didn't even had the job yet. WHO in their right mind would do such a thing? And all the shopping scenes throughout the book... oh my gosh are you serious? There were more dress/shoes/jewelry descriptions and talk about how perfect and hot and beautiful and smart Jennifer is than actual dialogue between the characters. If you can describe their talks as such, that is. At one point I was actually tempted to throw my kindle across the room and bang my head against the wall at their meaningful (not), smart (not) and ingenious (guess what? not!) dialogue, I just couldn't take anymore shallowness.

Oh and yeah... our 25yo heroine is, **of course**, a virgin (cliché #Idontevenknowanymore) and the book ends right before they're about to have sex because the author wants us to pay for another books in the series. Actually, apparently it's not a series because it's "Vol. 1". That clarification makes us all feel so much better, thank you.

Also - if I EVER read the word "divoon" again, I'll jump from a bridge and yell freedom.

Reading this was such a waste of time, I can't seriously even begin to describe how fucking angry this "book" made me.

---

## Rosebud says

Jennifer Kent and her BFF Lisa Ward have left their home state of Maine to find jobs in New York City. With an *MBA in Business* it should only be a matter of time before Jennifer lands a high paying job that will catapult her career while Lisa works at becoming the break-out newly discovered best selling author she is destined to become. Four months later with nothing to show except sore feet and an empty bank account Jennifer gives it one last try before admitting defeat by applying for a secretarial position with Wenn Enterprises.

Alexander Wenn, multi-billionaire entrepreneur, is sought after for his wealth and good looks to the point he is having difficulty attending to any of his business interests. When he has a chance meeting with Jennifer, who has no idea who he is, he feels it's fate and hires her to keep rabid gold diggers and lobbyists away. Theirs is to be a strictly business relationship without emotional attachments.

Jennifer and Alex have skeletons in their closet as they pose as the perfect power couple to the outside world. It's just a matter of time though before the closet door is opened exposing the deep dark secrets that could either make or break their newly evolving relationship.

There is a reason books featuring an alpha mysterious male meeting single working girl struggling to make ends meet scenario are out there. It works. With the popularity of FSOG and Crossfire, the market for readers looking to read that sort of thing makes it highly advantageous for authors to provide it. So ya, this book/series is definitely slanted to the bad boy multi-billionaire (when did things change from millionaires to billionaires???) seeing vulnerable female deciding she is to be his.

I can't believe I'm going to admit it but I really did like this read. The basic outline does resemble other books out there with similar themes but the author did nitch out variables that went in different directions. The story was told in a first person POV from the heroine's side that did work for me. This is the type of read that needed a degree of mystery and suspense NOT knowing the mind set or rationale from the other characters to appreciate the experience. Sure, some of the story line decisions did have me questioning things but overall for ANYONE looking to find a book/series that have the trilogy flavor this is one I do believe you should grab.

As to the adult content/chemistry between the main characters. One spoiler comment: (view spoiler) The total book has a foreplay feel to it. You KNOW they're gonna hook up. You KNOW they're gonna do the nasty. You KNOW it and want it to happen sooner than later. Devious evil author does make the reader wait for it though. And a pivotal reveal about this is pretty much where this book ends. Call it a cliffhanger or a tease. It's there.

My issues with this book are mainly with the fact that the heroine is so strong and dynamic that she overshadowed the hero. I thought Alex should have been much more alpha and aggressively assertive in certain situations that necessitated it which isn't to be confused with him acting like a jerk which he does do. The other glitch for me was the awkward (to me) back history presentation. I had a mental debate with myself on an ongoing basis about this. On the reverse side is the strengths of the secondary characters. Lisa. Totally the sort of BFF I would love to know and have in my own life zombies and all. Ms. Blackwell - *get a divorce already won't you*. She made a huge impact on my opinion about this book also.

I got this book at a highly reduced price which is the main reason I grabbed it (on sale at Amazon). I started reading it thinking I'd read a chapter a two to get the flavor of it and get to the many many other things I have going on right now. Nope. Stayed up late into the night to finish. And I'm off to grab the next in series as I'm one who can enjoy reading a book cashing in on the sexy billionaire/working girl slant without worrying about the merits of it's literary excellence.
