## From Reader Review Seducing the Dragon: Part 2 for online ebook

### Yvonne Daniels says

This is the second book in the series and it's so drago-licious! I am so in love with this series! And each book just gets better and more exciting! This author has done a fabulous job of continuing the magical saga of Seducing the Dragon . The story is original, magical, compelling and well written with wonderful and varied cast of characters that are well developed, sexy and engaging. The dialog is smart, sassy and flows beautifully. And I personally, loved the procession of thoughts from the characters which took me even deeper into their hearts. I became more personally vested in each character as the book progressed and the characters became my friends. And the romance and love scenes were simply exquisite! Sigh.....So dreamy! Bram is a handsome tall dragon, and he thinks he will not have a fated mate. when Evie asks for his help, but he isn't sure he can trust her. But beautiful curvy Evie is afraid of the dragon hunters Oh my! The attraction to be revealed! Sexy alpha male dragons-check! Beautiful curvy heroine-check! Action, suspense excitement, romance and steamy sex-check, check and check! Oh my! I loved everything about this book and can't wait to read the next book in this series. This is, hands down, one of the best, sweetest and most endearing series I have ever read! Congratulations Jessie Donovan, you definitely have written another hit! I am officially addicted to this series! THIS IS A MUST HAVE SERIES!!!

### Sandy Digger says

This story picks up where book 1 left off. Bram and Evie are discussing Bram's statement that she should move in with him. He won't answer her definitively that he will mate her but he does want to have sex with her. She tells him she will stop arguing with him on the condition that he show her around the clan lands tomorrow. He thinks that's ok, he has an early morning meeting and needs to get some rest beforehand because the meeting is with the alpha leader of a neighboring dragon clan who Bram wants to ally with his clan against the dragon hunters. Needless to say, he gets no sleep because she's in the next room and he can't stop thinking about having sex with her.

The next morning he calls Nikki a young dragonwoman protector-in-training to guard Evie and take her on a tour of the grounds. She tells Nikki she wants to be able to go everywhere and they have a discussion in which Nikki lets slip some information that Evie didn't know then realizes she's slipped up so Evie tells her she won't tell on her if she takes her where she wants to go. Nikki refuses to be blackmailed but does agree to ask Bram if she can have free rein on where Evie can be taken. He agrees and when Evie is ready they head downstairs but Bram notices that Evie's nipples are showing through her blouse and has a meltdown and demands that she wear his coat, she stand up to him. While they are having this argument, Finn, the other clan leader walks in just in time to hear her say she will ask another clan leader if they would be willing to take her as a mate and protect her. Finn says well here's another clan leader if you're looking. This immediately sets off Bram's dragon who is ready to take out Finn, but Bram knows he needs Finn so he manages to make a deal with Evie and she and Nikki leave (but not before Finn manages to make him crazy jealous).

Evie wants to go visit the clan doctor, Cassidy but she has to explain to Nikki before Nikki consents to take her. This is where we find out that Cait's autopsy showed extremely high levels of dragon venom and she wants to make sure that this would be unusual and find out how it could happen. There is a whole section about their discussion and findings but afterwards Nikki and Evie rush back to Bram's cottage and Evie tells him she has to talk to him ASAP. He gets rid of Finn and then they talk. She tells Bram she thinks Cait was murdered. Nikki gives her opinions on the how and they all come to the conclusion that there is a traitor in the clan. After Nikki leaves things heat up and the end result is some hot sex on his desk.

Later when they make it up to Bram's bedroom and they talk and get to know each other as it looks like they

might have another go, the doorbell rings and it's Melanie and Samira to pick up Evie and get her ready for the party that night. Before he lets her go he asks her to be his mate and she accepts. There is another round of hot sex and the book ends. I really like this story and the characters & am looking forward to book 3.

Oh my goodness! This just gets better and better! This is only the second installment of Seducing the Dragon series and we are already waist deep in suspense and plot twists! I love it! Ms. Donovan never disappoints her readers and has once again delivered a masterpiece of entertainment. Exciting! Well Written! Smart! Snappy! Flirtatious! Witty! Gripping! Powerful! Thrilling! Suspenseful! Captivating! Addictive! Romantic! Sweet! Sensual! Sexy! Steamy! And did I say hot? Oh yeah! The characters are smart, edgy, well developed and intriguing. The story flows rapidly and beautifully while the dialog is both witty and eloquent. Handsome, sexy dragon shifter, Bram, Alpha of Clan Stonefire, is responsible for the welfare of not only his clan but also a motherless infant male dragon shifter whose mother died in childbirth from now it seems, questionable circumstances. Beautiful, sassy human Evie, inspector with Department of Dragon Affairs, sent to investigate the death, is being targeted by ruthless dragon hunters. Can Evie find refuge with Bram and Clan Stonefire! Murder-check! Suspense and intrigue-check! Romance and steamy sex-check and check! Hubba! Hubba! Kept me on the edge of my seat! I am breathless with anticipation for the next installment of this series!

Seducing the dragon book 2 in series.

Bram is the stonefire clan leader who has huge responsibility of looking after his whole clan, trying to make an alliance with the lochguard clan and keep dragon hunter from killing clan members.

Evie is a DDA agent that comes to check on Mel after having her twins and to investigate Cait death that happen through childbirth.

Evie is in danger and on a mission to seduce Bram not best thought out plan but funny reading her follow it through.

Love that Bram and his dragon don't seem to agree at all especially when it comes to Evie.

Evie is not instantly attracted to Bram and sparks fly whenever there together.

Loved story and finding out more about clan and their history.

Great ending and HEA.

### **Jonel Boyko says**

This instalment was more intense and action packed that we've seen so far in the series. The intrigue that appears is very hard to overlook. I keep trying to unravel it. I also enjoy the tidbits about dragon shifter culture that are dropped throughout. I feel like I'm really getting to know the race. Top this off with the budding romance and the questionable mating and you have a winner. Not only that but we also get to know more about who the main characters really are as individuals. Donovan begins to peel off the façade that their jobs leave and reveal their true characters.

Even though I'm not a fan of serials in general, I love what Donovan is doing with this series. Each section is complete in and of itself while leading into the next. Sure, part 1 is necessary to get the full impact and enjoyment of part 2, but the readers aren't left dangling mid-scene at the end either. Donovan gives her readers short, fast paced, hot reads that are quite memorable.

As a whole this was a fantastic read that I couldn't put down. I can't wait to get back with Bram and Evie to see what they do next.

Please note that I received a complimentary copy of this work in exchange for an honest review.

OHHHH MYYY GOD!!!

This is the second installment of the story of Bram and Evie and wow!!!

Evie is still tryin gto persuade Bram to have her as his mate.

Bram on the other hand is not so sure that she won't betray him...at least his human part cause his dragon part is all for Evie.

Hot sex scenes, jealousy and so mych chemistry and fun between this couple!

A great addition to the Stonefire Clan and i really can't wait for more.

As always the author leaves us with a cliffhanger...

reaaally Jessie????reaaaalllllyyyyy?

a more than 5 star review and a must miust must must read series by Jessie Donovan

#### **And I said I didn't like cliffhangers!**

Oh my goodness! Part two starts with Bram Moore-Llewellyn, Stonefire clan leader giving Evie Marshall, Dept. of Dragon Affairs inspector, three days to convince him that she can be trusted. Evie wins over three dragonwomen and most importantly Bram's dragon. Bram's dragon knows something special about Evie, but he won't tell Bram. I love the dialogue between Bram and his Dragon. It's a toss up who is in charge. Evie

has proven that she is to be trusted. Will Bram take her as his mate? Could she be his true mate. What is going on at Stonefire clan? Is it part of the danger that drove Evie to Bram? With all that, Jessie Donovan writes hot, hot scenes between Bram and Evie. So hot steam rose off my Kindle. I changed my mind about series they are a fun, quick read with a plot that twist and turns. Congratulations Jessie you have another winner.

### **Donna says**

I am enjoying this series. I like this one better than sacrificing the dragon. I like the fire between Bram and Evie. I still hope the take the little boy.

### **Janine - The World Was Hers for the Reading says**

The story continues with Bram agreeing to take Evie as a mate on a conditional basis . . . giving her three days to convince him to make it permanent.

Jessie Donovan does a fantastic job of creating a fun, flirtatious and humor filled banter between Evie and Bram as they begin navigating through their growing attraction and relationship.

Both Evie and Bram must face their inner selves and each other to prove to one another the relationship can work. Bram's dragon seems sure, but isn't sharing why he knows this is the right match.

While both know they have an immense attraction for one another, can their relationship blossom into more? Evie plans to prove her worth by helping identify a possible traitor in Bram's clan and Bram vows to keep Evie safe on his lands. Can their relationship prove to be more than a mutual benefit?

Once again, Jessie Donovan has provided a great installment in this series. I love the banter between Bram and Evie. She also does a great job incorporating secondary characters into the plot to give depth to the story.

### **Tiffany says**

Bram is the leader of the Stonefire Dragon clan. He is trying to make alliances with the other clans and protect them all from the dragon hunters who would rather see an end to his kind.

Evie is a DDA Inspector who was sent to investigate the death of one of the human sacrifices to a male of his clan. Evie is caught in the middle between the agency she is stuck working for, the dragon hunters, and Bram whom she is becoming extremely attracted to.

Bram is a man who puts his clan before his own happiness that is until Evie walked into his life. His dragon is determined to mate her. But she isn't willing to bend to just anyone's authority including Brams. Can Bram and his dragon tame her enough to become his mate?

I can't wait to finish the series to see what happens between Bram and Evie.

## **Eva Millien says**

Evie has three days to convince Bram to take her as his mate and in an effort to prove her usefulness she brings a possible threat to the clan to light in this riveting installment of the Seducing the Dragon serial.

Fast paced and smooth flowing, the well written words and details draw the reader into a romance full of suspense and passion. Bram and dragon have to agree that the attraction they feel for their mate is white hot but Bram's not convinced he can trust her. Spine tingling tension builds as the reader waits to find out just what Bram and his dragon will do and of course just how Evie will go about changing his mind. For added excitement we meet the leader of another dragon clan who of course flirts with Evie.

Some humorous and teasing flirting and white hot passion accompanied by suspense and excitement keeps the reader entertained in this quick and charming romance and I am pins and needles to read the next installment.

My Thoughts - 5 out of 5 Unicorns - I loved it!!!

\*\*\*Received the ebook from the author from an honest review, but definitely adding this to my library :)

The cover is pretty, but I prefer Bram on the cover...just saying :)

Okay, it is very important that you realize this is a serial series, meaning the parts must be read in order, and they are like a TV series episode. They always end before you want them to and while Jessie's are always awesome, it still leaves you screaming no when it ends. This one is only around 50 pages, but what an awesome 50 pages it is.

Jessie Donovan is one of my favorite authors. I haven't found anything written by her that I haven't liked, and I really love this series. She does a fabulous job with her serial and is the first author that I have loved each and every serial part in this series. That doesn't mean that I don't scream and holler when it ends before I'm ready for it to end and secretly wishing each was a full novel length, but that's life right :)

I really like Evie, and Bram and his dragon totally rock. In this episode, you definitely learn some things and meet a new dragon, but you will have to read it to know what happens because I refuse to ruin your adventure.

I highly recommend this series to all my dragon loving shifter friends out there, but be warned the whole serial is not complete yet. However, if you haven't read the first serial, it is complete and just as awesome on this one. Sigh, now I have to wait again for the next part to come out....the torture of waiting...Uggggg! Guess I need to find something else to read in the mean time :)

## **Cilicia White says**

Just finished reading this second part of this series and I'm still fanning myself!! This one is a scorcher from the first page as our H/h are still trying to out do each other on who is in charge of their relationship and we all no even though one is a shifter and the other human we all know women will have the most power no matter what. These two may bicker but they can't help but fill that strong attraction and when they come together they were explosive. I don't want to give to much away since this is such a short read but you will not be disappointed and I can't wait to read part three, but I have to wait until January it looks like for the next one. I guess I have to go a reread her other books..

I received a copy of this book for a honest review...
