The Omega's Pack Dessa Lux

Rusty and Sam are now alpha and omega werewolf mates, forming a pack along with Mike. Every night brings the new pack closer to the full moon and Sam's first omega heat, but there's still someone missing...

Nick Bellici is scarred in body and mind from his time in the Marines, and now he's struggling alone with life after war. He's driven away everyone who cares about him—except his best friend Rusty, who won't stop asking him to come to California and meet his new boyfriend.

Rusty Jamison is still learning what it means to have a mate and a pack to take care of as their alpha. Teaching Sam and Mike to handle their new werewolf abilities and navigating the politics of the local werewolf packs keeps Rusty busy, but he can't let go of his hopes to bring his best friend Nick into the pack. That's going to mean finally telling Nick the secret he's been keeping for years.

As the pack's omega, it's up to Sam Hurley to bring them all together. Not so tough when there are only two other werewolves, but when it comes to adding in someone Sam's never met, who's been through things Sam can barely imagine, Sam's newfound abilities will be put to the test. And all the time, Sam's first full moon heat is looming closer...

The Omega's Pack is a m/m (and m/m/m and m/m/m/m) werewolf romance featuring alpha and omega mates leading their pack to a happy ending with plenty of steamy action for everyone!

Tracey says

Book 2 was a much better read than book 1 I am glad we get to see rusty and Sam pack growth and the chemistry was good between the pack looking forward to the next book in the series

Tiferet says

My favourite of the series - I love proper H/C and broken heroes (especially with military background), and if I can have that in an ABO shifters book I'm happy as a clam.

Ann says

3.5 Stars

This is a serious KNOTTING fuckfest of epic proportions.

It came with a side of snark that made it fun too and fun boning is the best boning.

V says

This sequel is way different from book one, it's a 4some.

I don't mind that at all, however, I did mind the plot.

Sam the Omega, have to have sex with all members of his pack because it keeps the pack together, once a month he gets into heat and needs all his members to make him happy and satisfied in bed at the same time.

Poor plot, plenty sex, is like a porn movie really, if you like this kind of stories this is for you, I was yawning for most of the part of the sex scenes, it was a great remedy to fall sleep quicker.

So Sam, if more members join the pack would you be able to handle all those men, lets say..another 6 perhaps? rolling my eyes..

Ryane says

Nothing like gratuitous amounts of sex.

The story isn't about that, it is about an Alpha making his pack and his home. He missteps a little and that adds a certain charm to it.

The Alpha is not the hero of this tale. The sweet and brilliant Omega is. In the wake of PTSD and traumatic physical injuries, Sam is able to save a Beta with kindness, patience and friendship.

Cadiva says

Better world building along with the sex

There's a ridiculous amount of sex in this book but unlike book one, there's also much more of an actual story to hang it on.

In this the fledgling pack goes off to rescue Rusty's best mate and former Marine buddy Nick, who is alone and suffering from PTSD, aimless and floating in a sea of despondency.

Rusty (and believe me I find it hard to take anyone seriously with that name) however won't give up on his friend and eventually brings him back to their California home and turns h I'll m into a werewolf.

Sam's approaching his first time in heat and there's a huge scene of constant sex which should be more arousing than it is but it's well done to keep things so clear as to what's going on between all four men.

There's not much else goes on protease apart from a few punk pass puppy werewolves trying it on we with the new pack and quickly learning the error of their ways.

Fabulous Shifter Debauchery!

Well Dessa Lux, you've written one of the filthiest, raunchiest, and sex-filled shifter story I have EVER had the PLEASURE of reading. THANK YOU!

I pretty much loved every debauched page of this book. There is a story. And there's lots of sex. I mean lots. This is shifter porn of the best kind! You see, the sex is connected to the story. It's unavoidable. There it is. Genius!

So, if gang-bangs (heat driven), knotting, rimming, and cleaning bodily fluids with your tongue don't get your motor running, then, this is not your book.

But....if you love fantastic NASTY as anything sex, read this now! Well, read the first book first. That one was pornalicious, too!

As a last note, I also want to thank Ms. Lux for enthusiastically describing anew sexual act to me (and I've read plenty!). What could I have not possibly read about? Well, here I learned about mouth knotting. Oral

knotting....yes, that sounds more proper. Perhaps other authors have written shifter scenes with oral knotting, but I've not come across them. Cheers to you for popping my cherry and knotting the stem!!

Joyfully Jay says

A Joyfully Jay review.

4 stars

I love shifters! I really love it when the shifters live in alpha/beta/omega packs. There is just something about a rough and tumble (but tender) Alpha falling for a smaller, meek (but scrappy) omega. In The Omega's Pack, the second book in the Protection of the Pack series, we get that in spades. Throw in another Alpha and a damaged new beta, and I'm in shifter heaven.

The four main characters are great. Rusty is a born wolf and a terrific leader. His care and genuine love for his pack mates is very sweet. Sam makes me smile...I mean nonstop smiling, here. He realizes his role of keeping the pack together is an important one, and he does this perfectly. Mike has to adjust to his new reality. He didn't ask to be bitten. The big, bad wolf in book one did it to get back at Rusty and Sam. After the BBW was vanquished, Rusty re-bit him, saving his life, and making him part of Rusty's pack. He's doing well, and he loves being a member of a pack. Nick...poor, poor Nick. He broke my heart. He gave up the will to live after his injury and discharged from the Marines. He and Rusty were so close, and as much as he loves him, Nick thinks Rusty won't want to have anything to do with him when he sees the scars. When Rusty bites him and brings him to California, he realizes having a pack is exactly what he needs.

Read Kenna's review in its entirety here.

Susan says

Yes, I read this for the gangbang.

Bitchie says

Let's just get one thing out of the way straight off: if you're at that point in your reading life where the sex just isn't that interesting anymore, and you find yourself bored or even skimming past the sex scenes, then this series definitely isn't for you. But if you're still a dirty birdie, and sticky hot sexy stories are your thang, then look no further than this series!

This book picks up pretty much right where book 1 left off. It's a week later, and Rusty, Sam, and Mike are their own little pack, settled in Sam's home. However, Rusty can't help but think something is missing, and he knows that it's his old military buddy, Nick, who was always pack, even if he didn't know it. Nick's the

guy who was injured, who still haunts Rusty, so finally Rusty has to go and get Nick, and save him from himself. And that's pretty much the gist of any plot progression here. Nick has some serious PTSD and depression, and it's up to Rusty, Sam, and Mike to bring him out of it.

And they do that with a werewolf bite and lots of super hot sex!

Once again in spoiler tags for the faint of heart, here is our sex acrobatics list:

(view spoiler)

Thankfully, for me, at least, this isn't a BDSM type story, so no bondage, no spanking or flogging, and less submission than you'd expect from an omega wolf with two alphas and a beta wolf.

??? **Michaelle** **???** says

[Knotting plus all kinds of nasty come swapping & ass-play (hide spoiler)]

Adrian Fridge says

This is even better than the first book, probably because the conflict arc is character driven instead of some contrived external threat.

We start with one of the hottest threesome scenes I have read in ages. Rusty and Sam are mates in an open relationship, and the dominant way Rusty leads the sex between Sam and Mike is just *melts**faps**melts some more*

I love the addition of Nick, Rusty's best friend from the Marines. He starts the story as a human broken by an accident involving driving and an IED. He has PTSD, which manifests as panic attacks around cars/four-wheel vehicles as well as crushing depression. He's also heavily scarred and extremely skittish.

Rusty bringing Nick into the pack is the sweetest gesture--giving Nick a support structure to help him heal. There is no insta-therapy. Nick becoming a werewolf doesn't erase the damage, but it allows him to cope with it better. He continues to deal with his depression and anxiety (and a low sex drive), but he's got people around him who understand, give him space, and nudge him without overstepping bounds. Nick gets his shining moment when he helps Rusty during a minor dispute over pack territory, and I just want to hug the

guy/wolf.

Literally my only gripe is I wish Nick got to bottom for Rusty (or even Mike, considering their chemistry). Nick is a Beta, so I was hoping for a versatile scene considering it's a given that he'll eventually top Sam. Alas, no such luck (I'm being a greedy bastard at this point because I was also hoping for Sam getting double-penetrated... which UGH that scene with the toy was such a tease).

The latter part of the story focuses heavily on Sam dealing with his first heat. It's a whole lot of Rusty and Mike topping him, with Nick being okay providing auxiliary pleasure. There is a lot of cum. I have no fucking clue how that much semen is even produced. Sam deep-throats Nick's knot at one point. There's a minor case of lactation. I am drowning in a sea of smut. The book ends with satisfied smiles. I am off to read the third installment like the addict that I am.

Camille says

3 stars because it did not compare to the first one for me although this was still awesome and super sexy.

Tanu Gill says

It had more emotional connection than the previous book, but I didn't like some aspects of the shifter world. But I am still liking the plot. Let's wait to find out if there are more books.
