## **The Big Interview** Libby Kirsch

Stella's Saga Continues!

The perfect book for fans of the laugh-out-loud lines in Janet Evanovich's Stephanie Plum series combined with the who-done-it page turning style of a Sue Grafton mystery.

TV reporter Stella Reynolds signs with a new station, excited to move to a bigger city for a better job. When she arrives in Bristol, Virginia, though, she finds a sexist, mean boss, unfriendly coworkers, and a town in love with a sport she's never even watched—NASCAR!

Before she can unpack her bags, Stella is drawn into an investigation when a driver is killed in a fiery wreck on the track.

Experts call his death a tragedy, but Stella has insider information that the accident is anything but.

With a slippery ex-fiancee, an angry father, and a nosy neighbor, you'll be laughing on one page and gasping on the next. If all goes according to plan, the facts will be revealed during an epic live Big Interview. But when does anything ever go according to plan?

The Big Interview is a standalone book in the Stella Reynolds Mystery Series. If you like a great mystery peppered with laugh out loud moments and cringe-worthy catastrophes, Libby Kirsch's The Big Interview is for you.

Buy Libby Kirsch's book today, and see how the final big interview goes down when the cameras go live.

## From Reader Review The Big Interview for online ebook

### **Sarah - All The Book Blog Names Are Taken says**

Much like the first book, the mystery aspect was good. The personal relationship stuff was stupid. Big surprise that she and John broke up and she's free to hook up with Lucky.

---

### **Laura says**

This is a great book; this is the second book in the Stella Reynolds Mystery series written by Libby Kirsch. This is a great book with a wonderful story and well developed characters. This book will keep you reading long into the night. If you are looking for a great book, then you need to read this book. I am looking forward to reading the next book by this great authors. I voluntarily reviewed an advanced reader's copy of this book. The free book held no determination on my personal review.

---

### **Danielle Urban says**

The Big Interview by Libby Kirsch is the most exciting thriller I have read. There's a famous NASCAR driver, a member that shouldn't be on the board, and a jealous ex as well as a good for nothing brother. One newcomer, aka the new reporter, Stella Reynolds has a lot on her plate to deal. Her boss is the kind of man that sexually harasses women around in the workplace. Then, there's her boyfriend, that is becoming more and more distant with each passing day. Stella has to cover the life of NASCAR and she knows absolutely nothing about it...but as the story develops so does the plans of killing to innocent people...Stella is also renting a place that is owned by the famous NASCAR driver whom everyone thinks is dead...until he suddenly pops up in Stella's apartment. From there things get crazier and a whole lot more deadly. Libby Kirsch also brings a whole of heat to her stunning novel. The hot instant attraction and the humor, as well as the suspense, will drag readers instantly into this magnificent read. I couldn't stop reading the book.

The Big Interview is funny, sexy, and intriguing. Readers will be glued from the first page until the last. It is clear that Libby Kirsch is indeed the most talented writer. I don't know how Libby Kirsch managed to pull it off, but she has combined a thriller suspense with a murder mystery. The characters are quirky but smart. The main characters will have to be smarter to put together all of the pieces and manage to expose what happened, how it happened, and who did it. Everything was wrapped up nicely. No loose ends. I didn't know who the murderers were until the end when Libby Kirsch let out the truth. The knowledge of a news station and how they operate was amazing! I couldn't believe just how realistic every detail was...this was the first novel I have read by Libby Kirsch and I loved it. I am looking forward to reading her next book in this brilliant series. Overall, I would highly recommend this novel to readers everywhere.

### **Suzanne Page says**

excellent series.

---

## **Loretta says**

Stella Reynolds moved to Bristol, Virginia to work for NBC2 TV near NASCAR Racing after the TV Station in Montana closed. After meeting everyone she was on an assignment to go with Billy Joe the photographer at the race track. There she met Lucky Haskins the Star driver who helped her get an apartment to rent. While watching TV at the station with the other reporters saw Lucky's car wreck and go up in flames killing him. Different ones felt that something happened to the race car, not an accident. A weird thing happened to Stella to make her start investigating the wreck to find who was responsible.

---

## **dina gencarelli says**

I at times wanted to slap the main character while reading this book. Annoying and pompous. I've read all the books in the series, hoping I would grow to like her. Nope, I liked her less and less. The "Man flip flop" is old, the story line itself isn't that interesting. Nothing memorable here.....

---

## **Susan says**

Stella, having lost her job at the Montana TV station, has a new job in Virginia. It's not as small-market a station as the one in Montana, but she early learns that the boss is a real pain. He hired her because she wasn't blonde, as he thinks only non-blondes are smart. He also expected her to be the 'ugly' reporter, and makes some snarky comments about how she isn't ugly enough. He also runs down most of her stories and her on-camera techniques. There is a big NASCAR speedway in town, and Stella is totally ignorant about NASCAR racing. While Billy Joe is showing her around the track, she meets Lucky Haskins, a high profile racer, and -surprise! - a real hunk. Since the long-distance relationship is cooling things off with her previous hunk in Montana, she immediately begins drooling over the new one, and they become friendly. (This girl is seriously attracted to six-packs.) He offers her an apartment in a building that he owns, and since the price is right, she takes it. He keeps pushing that he wants to be more than friends, and she is holding off, still hoping to hear from the old boyfriend. Later, his race car explodes on the track during during qualifying runs at Talladega, throwing fans all over the country into mourning. So when he shows up in her apartment, alive, her life gets very complicated. It seems it was his brother driving the car, and he wants to find out who killed him. So they go to Alabama and start snooping around. Her friend Janet (the noisy neighbor from the previous book) shows up, as does Lucky's ex-fiance. Trying to keep Lucky undercover and Janet quiet takes up a lot of Stella's time. But she gets the big interview at the racetrack and televises a murderer's confession - as well as getting herself slugged in the jaw on camera. This was a lot better story than the first book, possibly because the characters were more interesting; also there was a fair amount of humor and the NASCAR background added a lot. Still an awful lot of drooling on Stella's part, but I guess some people like to have sexy romance mixed with their mysteries. I enjoyed this one a lot more than the first, so I'll continue with the series.

## **Sushmita (Fervently Curious) says**

I received a review copy

My Review:

This is one of those books that you cannot put down. So fair warning, before you start reading this; get some food and something to drink. Because you will have a hard time putting this one down!

#### Plot

The plot was amazing! I kept thinking one person is responsible and then I was proven wrong. Reminded me a lot of Agatha Christie, I have always loved reading her books since she makes the reader believe the person they think is the culprit really is until the last chapter. Then everything changes and makes perfect sense! Is Libby as good as Agatha? No! But if she keeps doing what she is doing, she will get there!

#### Pace

The pace, in the beginning, was a little slow for me, but it was good enough to get me to all the action. But when the driver is killed the action begins and the pace is very good! I believe the beginning was slow because she has a lot of describing to do. I loved how she described everything so well, from the cities to the newsroom. It made me feel like I was right there with the characters. I love it when an author can be descriptive without being boring.

#### Characters

Now I loved Stella! She was an amazing MC. Sometimes, though, she pissed me off. There were times I wanted to shake her. Yet, she was the perfect armature detective! I loved her very very much! On the other hand, there were so many characters! Gosh, it was hard to keep up. So many people in the newsroom, so many people outside the newsroom - so many faces!

The big interview is everything I wanted in one mystery, potential love, craziness and amazing writing!

Do I recommend it? Hell yeah!

Plot: 4.5/5

Characters: 4/5

Pace: 4/5

Overall Rating: 4.5/5

### **Sara says**

Reviewed for Chick Lit Central ([www.chicklitcentral.com](http://www.chicklitcentral.com))

The Stella Reynolds series just keeps getting better and better!

As much as I enjoyed The Big Lead, the first in this series, The Big Interview was a smidge faster where the pace is concerned, and I loved how there were quite a few suspects on the line, this time, which made me question who the culprit was at every turn, keeping me on the edge of my seat for most of the book!

Stella is still a strong and vocal female lead, not putting up with any malarkey from anyone, especially not the new co-workers she finds herself having to contend with on a near daily basis. It almost makes her miss

the Bozeman, Montana crew, the people she'd befriended and worked with before moving to Virginia. Working in Bozeman had proved difficult, because the technology and electronics were way behind the times, making her job difficult. But she'd take that any day over her arrogant boss!

She also finds herself at the center of the most unusual situations, where her love life is concerned. Somehow, it becomes interlaced with all the drama that crops up from the driver's death, but when it comes to Stella, we wouldn't have it any other way!

Libby Kirsch is a phenomenal writer, creating the best scenes and characters, the kind you can't help but feel invested in and continually want to know more about. I'm really hoping for a third installment to the Stella Reynolds series, and I can't wait to see what life has in store for her next!

### **Kim Deluca says**

Great summer read! I loved it and couldn't put it down.

---

### **Bonnie says**

This is a thoroughly entertaining book. It does have some innuendo and some fortunately short sex scenes, which was disappointing. Other than that, I liked it a lot. The details about life as a TV reporter are especially interesting.

---

### **Shirley Worley says**

Stella, a news reporter, has left Montana and moved to a bigger station. Her quirky friend, Janet, has come along. Stella's long distance romance with John dies, as does a famous race car driver named Lucky. As Stella covers the the story, she senses the 'accident' was intentional. When a surprise witness appears, she and Janet join forces to uncover the evidence to prove it was murder for the biggest story of her career. Lots of action and twists.

---

### **Kayla says**

4.5 stars - Oh my goodness! What a great story that had you guessing until the end!! Just when you think you know who did it, there's a twist. Quick enjoyable read that I read as a standalone. The cover is a total eye grabber and had me interested to read the book!

I received a free copy in exchange for an honest review.

---

### **Emme says**

Received this book as a read & review. What a wonderful book, had my interest from the start. There were

---

more twists and turns in this book than a race track. The ending was quite a surprise, had me speechless. Am going to read book 1 in the series and can't wait to read more Stella's adventures.

---

### **Deborah says**

Great book, you can read it alone or as book 2 in the series. Once I started I couldn't stop reading & enjoyed it much more than book 1
