Spring Fling Elle Christensen

Abbi and Logan burn for each other the moment they meet and it turns into a week of passion that neither of them expected. After spending spring break together, it's clear they both want more.

But, when it turns out that Logan is a new teacher at Abbi's school, it looks like their relationship is doomed to be nothing but a spring fling.

I loved it! This hot and sexy short story is part of the "Hot for Teacher" anthology and I hope they are all this hot and sweet!

Logan was my kinda alpha with his growly "mine" and bossy demeanor.

Abbi was so sweet and loved Logan.

~hot older possessive alpha male
~smart younger heroine
~absolutely zero cheating or ow/om
~sizzling hot
~fantastic epilogue 1 year and then 16 years later! !

I would love to hear how Abbi's BFF spent her week in Miami while Abbi was with Logan!! (Hint Hint)

I will definitely be in the lookout for more of this author's work!

5 FULL FLING STARS

**I read this book in the HOT FOR TEACHER ANTHOLOGY and it was my top 5 fav.
I ADORED THIS WHOLE SHORT STORY!**

**It was a totally safe story about an alpha who see his one and does everything for her. He is a teacher and moves to Boston to teach and to be with her.
A sweet epilogue is even included!**

**Worth a read and a reread and I would totally recommend it!
I'm just discovering this author.
So far her books are surpassing my expectations.
BRAVO Elle Christensen!**

Smutty, fun, and OTT

This read was fun, smutty and OTT. Logan was 100% alpha in the most over the top way. If that annoys you, don't read this story. He is a caveman through and through.

Abbi is an innocent virgin and her sassy friend gets her to finally loosen up with a trip to Miami. Little does she know she's about to meet an alpha who demands a Spring Fling that changes her entire life.

Haha it's instalove, InstaLust, tons of smutty taboo goodness. It was enjoyable and a quick read. Not much more to say about it.

If you like teacher/student romances that aren't too focused on that aspect and are mostly smut, then this is for you!

Hot for teacher !!!!A spring fling with a hot tattooed teacher and his soon to be student.this was a quick smut filled read that was a scorcher!

Shannon says

According to GR a 3* rating means I liked it. And I did like it, for what it is. It's predictable, and typical, of how many student/teacher stories go these days...the young naive female student and the over-the-top, possessive, older (by at least a decade), alpha male teacher.

They meet without knowing they are student/teacher-Abbi's on Spring Break, trying to let loose from her usual comfort zone, Logan's enjoying his last days before moving to take on a new job. Things get hot and heavy- Abbi only plans for it to be a week long fling, but Logan has other ideas when he finds out where she lives.

It was a decent way to spend a couple of hours.

***Part of the Hot for Teacher Anthology: Nineteen Stories Filled with Love and Lust.

Hotttt Safe Read!!!!

San says

This was a fun, quick read! If you're in the mood for insta lust, alpha males and a touch of forbidden this is the book for you. There were a few editing mistakes and I didn't like how controlling Logan was with Abbi so I'm giving this book 3.5 stars!

Abbi turned eighteen two months ago and as her gift, Jess, her best friend, is taking them to Miami for spring break.

Logan is enjoying his last bit of freedom before starting his new temporary job at a small private school. When he sees Abbi he wants to, needs to, and will claim her.

Abbi is a straight A student and always follows the rules, yet there's something about this man that her body just craves. When he asks her to spend the next week with him, she may be nervous, but eagerly agrees.

Logan knows he's found something special with her and doesn't stop himself from envisioning a future. One that seems even more possible upon learning where she's from...the same city he's moving to soon. However, he hasn't told her that yet, even though he's already mentally moved her into his place.

Abbi isn't looking forward to returning home because it means leaving Logan, but it was only a fling, right? Besides, she hasn't told Logan the truth about her age and that she's technically still in high school. But when Logan ends up being her new teacher, her secret is out.

What happens when Logan and Abbi are reunited in an unexpected way? Will Logan's plans for their future change? How will Abbi's parents react upon learning they're together? Can Logan and Abbi wait two months when she graduates before making their relationship official?

One-click now and follow along as two people find a love that though forbidden, is forever.

My First Elle Christensen book and I loved it!

The story is about Logan and Abbi.

Abbi and her best friend, Jess went on a trip to Miami for spring break where she met Logan at a bar. He's from Miami but he got a new temporary teaching job at a small private school in Boston.

It was supposed to be a spring fling. A week together. But when it's time to say goodbye, they can't let each other go. Logan wanted to see her again, telling her he's moving to Boston. What he didn't know is that she's still in high school and both of them were shocked to see each other in class.

They're so cute together. I enjoyed reading their story.

There's a beautiful epilogue (view spoiler)

Would've been 4 stars , but there are so many grammatical errors.

Jennifer Finn says

This was a short story about the taboo love of a teacher and a student. Abbi is 18 years old and very shy her parents are ultra conservative and only care about money and what other people think. Her best friend, Jess is very outgoing and she arranges a trip for the two of them to go to Miami for spring break. Abbi agrees to go because she's been working so hard in school so that when she starts college in the fall she'll already be a sophomore. Logan is a 29 year old teacher, he lives in Miami but he just got a new job teaching at a private school in Boston. He's moving in a week so he goes to a club for one last night of fun. Abbi and Jess get to Miami and decide to go to a club because Abbi wants to find a guy to pop her cherry. When Logan sees Abbi he knows he'll be taking her home and Abbi is quick to agree.

Loved the OTT Alpha Male- Sign me up any day !

Tink Magoo is bad at reviews says

Abbi was a bit immature at times in regards to saying or even thinking anything sexual (even the word cock), but this was still a quick insta-everything read.

Shyralf says

3????? 1/2 Stars! Teacher/Student romance. This one had an OTT alpha with alot of insta love thrown in. I

liked the epilogues.
