What a fantastic story.

I loved how you kept me guessing what was going to happen next. How you kept the story moving in different directions. I hope to read more of your books.

One more books down and another right behind it. I love her writing and have a lot of them and just can't get enough of them. I thank you again Madeline for doing such a good job. Ada zG.

I enjoyed this sweet western romance which had a nice main romance and two cute secondary romances. The parents (Mom and step-dad) of the hero are the leads from Apache Runaway, a book I read a long time ago (and didn't particularly like from what I recall), but the parents were wonderfully still in love in this book.

Great reading

The story and characters kept me reading almost constantly. I advise all who love historical reading to make time to read this authors stories.

Didn't realize it was part of a series til I was done. Now I want to read the first in the series. Also want to read other Madeline Baker books.
