Bucking Wild

Maggie Monroe

Bucking Wild Maggie Monroe

Ride me rough. It's going to get dirty.

Hollywood can shove it. This cowboy is going back to his roots.

Beer, boots, and plenty of women to ride me.

I'll go into hiding, spend a summer without the limelight.

But I don't expect to meet her.

The last thing I want is a pretty girl trying to rope me. I'm the one who holds the reins.

I just want to screw around, but my heart has other plans.

Chelsea is everything I'm not. Sweet. Innocent. Pure.

I'll show her a wild time. Maybe she'll even help me forget my sins.

But I've been in enough movies to know how the story goes—there's no outrunning the past.

When my lies catch up to me, it's Hollywood all over again.

Except this time, the guy might not get the girl.

Bucking Wild is a super steamy full-length cowboy romance. It has a HEA and NO Cliffhanger. There are a few bonus books for your reading pleasure. Enjoy!

From Reader Review Bucking Wild for online ebook

Gladys says

Bucking Wild by Maggie Monroe is a great book. A solid story that is full of drama, passion, steam and a unique twist. Complex and emotional. This book engages the reader from the start. Ben and Chelsea are a great couple with lots of chemistry. However, when Ben's secrets and lies are exposed can their relationship survive? I am posting an honest review after reading an ARC copy of this book.

Janine says

So, the story wasn't bad, but the editing left a lot to be desired. I mean, something as simple as spelling 'Chapter Fourty' correctly was overlooked! Not to mention the slew of missing words, incorrect tense, and missing punctuation. Maybe I just don't understand the process, but it seems a digital version should at least be spellchecked!

Ben is a mega movie star and feels the need to escape his life. So, he drives until the road ends, and then takes the ferry as far as he can go. He hides out on an island, meeting a local girl and falling in love. Chelsea has not idea that the guy working in her dad's store is more than a nice guy. They spend the summer getting to know one another - at least as much as you can when one party isn't even using his real name. Near the end, his world crashes in on them. What will Chelsea do? Will she forgive the lies of omission? Will Ben win her back?

The story was fine - typical movie star wants to be loved for himself and not his fame story. And of course, he finds one of the few people in the world who has no idea who he is. If you are looking for extremely light reading and don't mind the editing, then this would do.

Bronwyn says

First book that I have picked up by this author and I got it as a freebie so I thought why not!

It was an ok read but its not one I'm going to remember next week unfortunately.

It was the usual movie star wanting to be loved for himself and not his fame and him finding the rare person who had no clue as to who he was and they fall in love. Then of course comes the betrayal when finding out about his lies and her eventual forgiveness etc etc!!!

Not a bad story but it did have a few editing issues with missing words and punctuation that was a tad annoying.

Can't really say I'll be rushing out to pick up the next one though as while it was a quick easy read, it's just not for me.

Millie Rosa says

I voluntarily reviewed an Advance Reader Copy of this book.

It's a great book! Fresh story and you feel like you too are on vacations. This is a romance story with some

sexy scenes. But keep in mind this is part of a series.

Ben is a famous actor that had enough of Hollywood and is looking for a way out. So he start driving till he get to this little beach town. Nobody know who he is (at least that what he thought) so he start a new roll. Now he is Jack the writer. He rents a camper in the beach and start a new life. When he go to town he sees this beautiful girl that does not give he the time of the day. He is fascinated with her, but he had enough of relationships for the moment.

Chelsea is a grad student that return to her hometown and is just waiting for the moment to get out of it again. She is "working" in her father store, but what she is suppose to be doing is writting. That's what she love to do and hope to make a living of it. One day her friend who also work at the store decides to quit and her father holds her accountable for it, so she is now responsible of hire a new clerk.

Ben, or I should say Jake, see the whole discussion and decides to help her out by asking for the job. They start as friends but how can they stop the inevitable. They get to know each other and like each other andddd other stuff ;-).

But what will happen when his Hollywood life catch up with him? When Chelsea finds out his name is not Jake but Ben?

Karen Janet says

I don't want to know OW preference fucking with H. NOT NEED!

Lori Wertz says

I read an ARC of this book. It was so good I could not put it down. I laughed and had a couple moments when I got a little teary eyed. Normally I will wait and see if I can read an ARC of the next book intensifies but I ended up buying it because I could not wait to follow up with Ben and Chelsea.

Kimberly says

I was intrigued when I volunteered to read a copy by this new author. A story which catches your attention quickly says A lot about the authors writing style and how they want you to interact with the characters. The story of a famous actor who is escaping to reassess his life in a small eastern town, no one knows him so he assumes another name and profession. Meanwhile a small town girl wishes for more to leave her bland existence and be in the limelight. A romance developers and can their budding relationship survive the lies which was the foundation from the start.

Engaging story and good characters, well written to keep you engaged. I would definitely read more from this author.

Pat says

Great plot that hooked me right into the story from the very first page and the characters were so well defined that I was totally entranced until the turn of the very last page!

I voluntarily reviewed an advanced reader copy of this book.

Guy's Girl says

This is the first book I have read by Maggie Monroe. I will definitely be reading more of hers in the future. I loved the storyline and the characters. All the characters had great chemistry, not just the main ones. I am looking forward to Bucking Bareback even though my copy didn't have the preview for it!! I read an ARC. This is my honest and voluntary review.

Laila Viking says

I was surprised by this story. Mostly blurb and titel do not suit the book 100% but here it does. Maggie Monroe is a new author and this is her debut story and I must say I am really not disappointed. I liked it a lot. She has a new way of writing where she puts her emotions into the story.

This story is so well written and steamy hot that you just have to finish it in one read. The chemistry flows out of the pages and it has an amazing plot. There is drama, passion, emotions, laughs, twists and turns and lots of believable characters in this book.

I look forward to read the next book from this amazing author.

Fran says

Ben is a big time Hollywood actor. When the story begins, he has just learned that his fellow actress girlfriend (Rebecca aka Becs) cheated on him and it made the headlines. He & Becs made a film together and became lovers. Ms Monroe went into great detail about their sex life and how he & she liked to f...k. After she betrays him, he ends up running away to some beach island to think & get away from the scandal. There he meets Chelsea, a starving songwriter who works for her Dad's hardware store while dreaming of making it big. When the story starts, Chelsea is also having some kind of non-penetrating sex with a childhood friend who she can't say no to when he is working her and giving her great orgasms, but doesn't want any real relationship with him because she plans on leaving the island. She then meets Ben (aka Jake) and they begin an affair. Ben/Jake ends up not telling her or anyone in town who he is so when his ex finds him in order to get together and do a film together, all hell brakes loose. Now everyone knows who he truly is and Chelsea is heartbroken and doesn't want to see him again. He decides to leave town to save her from further pain, but before he does so, he ends up calling some favors to friends in the industry to help Chelsea make it big and buys her a beach house (all without any thanks from the heroine). But wait....before he leaves, they end up running into each other and he apologizes and all is forgiven and hunky dorry. The End.

Nothing about these characters or story plot was interesting. Why I read it, I have no clue, however on the plus side, it is a very short read and it came free. No way, no how, would I have paid for this!

Rebecca Johns says

Jake is trying to hide and recenter himself after things explode with his life in Hollywood. He ends up on a secluded island off of the Carolina's. He runs into Chelsea, but doesn't pay any attention to her other than his shopping list. A couple of weeks later, he jumps to the her rescue when she finds herself in a fight with her dad over Derek giving his notice. They start a working relationship, but soon it turns very personal. They have differences to work through, a storm to weather, and the media to deal with. Jake is really Ben, and they have just found him. Can she forgive him for the lies? Will she pursue her music writing career given the circumstances? I absolutely loved this book and can't wait to read the continuation. I voluntarily read an Advanced Reader Copy of this book.

BP34 says

Islands are often magical and in this case musical. It was fun reading this book as I'm very familiar with the area. Well written with a sweet storyline and great characters. And the ending – oh my. A great read – grab a drink and a comfortable chair and be ready to settle in and read for a while

Leanne Bryson says

*** I am voluntarily reviewing an Advanced Reader Copy of this book***

Great start for a new author!! Maggie Monroe weaves an interesting story about Jake (Ben) and Chelsea. These two are well written, interesting characters, the book moves quickly and has great flow. Check it out this weekend!!

Lori says

Bucking Wild

I am not sure the title goes with this book. Yes there is a very hot stud of a cowboy, but he is an actor. Ben wants free of Hollywood and all that goes with it, including his ex girlfriend Rebecca. So he runs away.

This Texan finds himself on an island called Bree's. This island contains more than just an escape from his life.

The story is wonderful, and I can not wait for the next book.
